

iBPS API interface is based on XML

Q. In iBPS, can we delete default generated queues in Queue Management component?

No

Yes, All the queues.

** Yes, but not Default System Queues.

Yes, but not Introduction Queues.

Q. 1 In iBPS (Application Designer), what is the implication of a tile group that is mandatory?

All the tiles must be selected

The default tile is to be selected

** At least one tile should be selected

None of the above

Q. 1 How many new controls have been added in latest version of iBPS?

** 4

3

2

0

Q. 1 In iBPS, Application Configuration option is available for which type of users?

Normal Users

** Administrator

All the users

None of the Above

How to execute the procedure in iBPS (BAM) for SQL database?

Exec ProcedureName

Execute ProcedureName

Call ProcedureName

**** Both the options 1st & 2nd**

Q. 2 In which iBPS screen, are new views configured?

Webdesktop

**** OmniApp Configuration**

Application Configuration

Badmin

Q. 1 When lock is associated with the table name in approved tables list, it signifies?

Table has not yet been approved

Maker-checker functionality is enabled on Add table

**** Both of the above**

None of the above

Q. 1 In iBPS, Queue List Component is available in which Default View? Marks:1

xx Business Admin View

User Desktop View

Supervisor View

Process Designer View

Q. In iForm, which key needs to be checked while making relationship between child complex variable?</td>

xx Parent Relationship Key

Parent-Child Relationship Key

Child Relationship Key

None of the Above

Q. 1 In iBPS, who can save the changes to a WorkItem while working in shared mode?

- ☐ Any user to whom WorkItem is shared
- ☐ Any Supervisor user to whom WorkItem is shared

☒ **Owner of the WorkItem if WorkItem is not in read-only mode**

- ☐ Any Supervisor user

Q. 2 In iBPS, Application Configuration option is available for which type of users?

- ☐ Normal Users
- ☐ Administrator
- ☐ All the users

☒ **None of the Above**

Q. 6 In iBPS, from where can we disable the OmniDocs Maker Checker functionality in Rights Management?

- ☐ Under Cabinet Properties Option
- ☐ Under Profile Association Option
- ☐ Under Manage Password Policy Option

☒ **Maker Checker Functionality once enabled can not be disabled**

Q. 7 To register applications hosted on the same server where OmniApp is running, what all information is required?

- ☒ **Application Name**
- ☐ Application Port
- ☐ Context Path
- ☐ SSL

Q. 10 How to create tab within tab in iForms?

- ☐ Option available in section properties
- ☐ Option available in tab property
- ☐ It can only be created in header

☒ **None of the above**

Q. 16 In iBPS, which of the following cannot be set as priority of WorkItem?

- ☐ High
- ☐ Very High

☒ **Urgent Attention**

- ☐ Both the options 2nd & 3rd

Q. 24 In iBPS, API which returns user session is:

- ☒ WMConnect
- ☐ WFConnect
- ☐ None of the above
- ☐ Both the Option 1st & 2nd

Q. 14 In iBPS, OTMS is used for movement of Data across cabinets:

☒ True

- ☐ False

Q. 4 Which of the following operations can be performed on SYSADMIN Profile?

- ☐ View

☒ Modify

- ☐ Delete
- ☐ None of the Above

Q. 5 In iBPS, what is the default value of maximum length of textbox before mapping?

- ☐ 25
- ☐ 50
- ☐ 20

☒ None of the above

Q. 10 In iBPS, API I/O XML can be checked at which location.

☒ nglogs/{cabinetname}/of_server

- ☐ {cabinetname}/nglogs/of_server
- ☐ nglogs/of_server
- ☐ None of the above

Q. 11 How many Component Instance can be configured for One Component in OmniApp?

- ☐ One
- ☐ Two
- ☐ Three

☒ Multiple

Q. 16 In iForm, ReadOnly property is available for which controls?

- ☐ Checkbox

☒ Combobox

- ☐ Table
- ☐ List view

Q. 17 MDM configuration folder can be located in server with name:

- ☐ Crwebconfig

- ☐ Webdesktopconf

☒ **Cfwebconfig**

- ☐ None of these

Q. 19

The following 4 statements are pertaining to Users in Rights Management System of iBPS

- (i) Users created through OmniDocs will get reflected in Rights Management
- (ii) Users created through Rights Management can be modified in OmniDocs
- (iii) Users created through OmniDocs can be modified in Rights Management
- (iv) Rights Management and OmniDocs are 2 different modules so Users created in any of the modules will not be reflected in another.

Which of the above statements are true?

- ☐ Only (i) and (ii)
- ☐ Only (iv)
- ☐ Only (ii) and (iii)

☒ **All (i), (ii) and (iii)**

Q. 20 How many new controls have been added in latest version of iBPS?

☒ **4**

- ☐ 3
- ☐ 2
- ☐ 0

Q. 21 How to make a section collapsible in iForm?

- ☐ It is available through themes
- ☐ All the sections are by default collapsed

☒ **It is configured through section property**

- ☐ All of the above

Q. 23 In iBPS, which one of the following options is not a standard interface?

- ☐ To Do List
- ☐ Exception

☒ **JMS Producer**

- ☐ Scan Tool

Q. 25 In “write your own query mode” within iBPS (BAM), complex query string can be executed as:

- ☐ Query
- ☐ Procedure

☒ **Both of the above**

- ☐ None of the above

Q. 25 In “write your own query mode” within iBPS (BAM), complex query string can be executed as:

- ☐ Query
- ☐ Procedure
- ☒ **Both of the above**
- ☐ None of the above

Q. 3 In JavaScript which method gets invoked on click of Tab Sheet

- ☐ eventdispatched
- ☒ **onTabClick**
- ☐ eventTabClick
- ☐ None of the above

Q. 4 Which tag can be used to verify the success/error status of iBPS API?

- ☐ Description
- ☐ ErrorCode
- ☒ **Main Code**
- ☐ None of these

Q. 10 In iForm, which option is NOT present in column layout options?

- ☐ 2
- ☐ 4
- ☐ 6
- ☒ **8**

Q. 11 To which group(s), Rights Management component should be available by default?

- ☒ **BusinessAdmin**
- ☐ ProcessDe
signer
- ☐ WebDesktop
- ☐ All of the above

Q. 12 In iForm, how do you hide the leftmost column in an enabled grid?

- ☐ Select Hide Delete option from table properties

☒ **Use product API**

- ☐ Both of the above
- ☐ None of the above

Q. 18 In iBPS, Query WorkStep is used to:

- ☐ Open WorkItem on discarded WorkStep in read only mode
- ☐ Open WorkItem on exit WorkStep in read only mode

☒ **Both of the above**

- ☐ None of the above

Q. 19 Which of the following is ONE of the MDM constraints?

- ☐ Table should have atleast one foreign key

☒ **Table should have atleast one primary key**

- ☐ Table should have either a primary key or foreign key
- ☐ None of the above

Q. 20 In iBPS (BAM), multiple instances of the same report can be added to schedule.

- ☐ Yes

☒ **No**

- ☐ Only limited number of instances
- ☐ None of the above

Q. 21 In iBPS, Queue Management component is available to:

- ☐ All the users
- ☐ Members of Supervisor group.

☒ **User having Business Admin View rights.**

- ☐ Both the options 1st & 3rd

Q. 23 In User Management component of iBPS, users can be searched on which of the following criteria?

- ☐ Filter on Process
- ☐ Filter on Worksteps
- ☐ Filter on Queue

☒ **Both the options 1st & 2nd**

Q. 25 How to execute the procedure in iBPS (BAM) for SQL database?

- ☐ Exec ProcedureName
- ☐ Execute ProcedureName
- ☐ Call ProcedureName

☒ **Both the options 1st & 2nd**

Q. 2 In iBPS, for accessing the logs of a secure server which of the following configuration settings are required:

☒ **Set SSLSecured=Y in ofservices.ini**

- ☐ Set HTTPSSecured=Y in ofservices.ini
- ☐ Check SSLSecured option while registering the server
- ☐ No additional configuration required

Q. 9 In iBPS, how can we search workitems that are at end event WorkStep?

- ☐ By selecting All WorkItem option in Search Workitem options

☒ **By selecting In Process option in Search Workitem options**

- ☐ Not feasible
- ☐ None of the above

Q. 10 In iBPS (BAM), scheduled reports can be destined to:

- ☐ Some hard drive location on server
- ☐ Archive to OmniDocs in a folder
- ☐ Notified through mail and some email-id as attachment

☒ **All of the above**

Q. 11 How many Component Instance can be configured for One Component in OmniApp?

- ☐ One
- ☐ Two
- ☐ Three

☒ **Multiple**

Q. 14 In OmniApp, for registering a Component Instance data has not to be provided under which category:

- ☐ Input

☒ **View**

- ☐ Output
- ☐ Methods

Q. 15 In iForm, which of the controls cannot be mapped with a variable?

☒ **Button**

- ☐ Label
- ☐ Both of the above
- ☐ None of the above

Q. 16 In iForm, using which event, a textbox can be converted into a picklist?

☒ **Keypress F3**

- ☐ Keypress F2
- ☐ Keypress F1
- ☐ KeyDown

Q. 17 In iBPS, if one has associated all the WorkItem interfaces with activity then which of the following interfaces will be displayed by default in popup WorkItem?

- ☐ Exception
- ☐ Form, Document, Todo.

☒ **Form, Document.**

- ☐ Todo, Exception.

Q. 20 In iBPS, which feature(s) is not available in embedded WorkDesk view?

- ☐ Save/Done/Initiate workitem

- ☐ Actions
- ☒ **Edit Layout and Add/Import document**
- ☐ Both the options 1st & 2nd

Q. 21 In iBPS, which all formats are available in WebDesktop to save WorkItem History?

- ☐ txt
- ☐ xls
- ☐ csv
- ☒ **All of the Above**

Q. 23 Calling API in iBPS can be eased due to use of:

- ☒ **NGEJBCallBroker.jar**
- ☐ WFSshared.jar
- ☐ WFS_Ejb.jar
- ☐ None of these

Q. 25 In iForm, mandatory property remains hidden if _____?

- ☐ enable is yes and read only is no
- ☐ enable is yes and visible is yes
- ☒ **read only is yes and enable is yes**
- ☐ None of the above

Q. 3 Which of the following is NOT included in Action Items tab?

- ☐ Items modified by me
- ☐ Items waiting for approval
- ☒ **Items confirmed by me**
- ☐ None of the above

Q. 4 In OmniApp, Views can be:

- ☐ Configured/Saved for each particular user
- ☒ **Configured/Saved for each group**
- ☐ Configured/Saved for each particular application
- ☐ Both the options 1st & 2nd

Q. 7 In iBPS, how can we create custom link in Web client?

- ☒ **As an external application component in omniapp.**
- ☐ As an internal application component in omniapp
- ☐ Both of the above
- ☐ None of the above

Q. 12 In iBPS, how can we search workitems on based on registration number in

Search component?

☒ **After selecting Process**

- ☐ After selecting Queue
- ☐ After selecting Process and Queue
- ☐ Without Selecting Process and Queue

Q. 21 In iBPS, for which object(s) audit log can be generated using Audit Log component?

- ☐ Process
- ☐ Cabinet
- ☐ Queue

☒ **All of the above**

Q. 23 In iBPS, API I/O XML can be checked at which location.

☒ **nglogs/{cabinetname}/of_server**

- ☐ {cabinetname}/nglogs/of_server
- ☐ nglogs/of_server
- ☐ None of the above

Q. 25 Which logs can be used to check the backend API execution time in iBPS?

- ☐ query.log

☒ **transaction.log**

- ☐ console.log
- ☐ server.log

Q. 24 In iBPS, API which returns user session is:

☒ **WMConnect**

- ☐ WFConnect
- ☐ None of the above
- ☐ Both the Option 1st & 2nd

Q. 5 In iBPS, what is the default value of maximum length of textbox before mapping?

- ☐ 25
- ☐ 50
- ☐ 20

☒ **None of the above**

Q. 17 MDM configuration folder can be located in server with name:

- ☐ Crwebconfig
- ☐ Webdesktopconf

☒ **Cfwebconfig**

- ☐ None of these

Q. 1 In iBPS, which type of Viewer is currently supported in Webdesktop?

☒ **Applet Viewer**

- ☐ HTMLFormViewer
- ☐ Both of the Above
- ☐ None of the Above

Q. 4 Which tag can be used to verify the success/error status of iBPS API?

- ☐ Description
- ☐ ErrorCode

☒ **Main Code**

- ☐ None of these

Q. 15 In iBPS, which of the following is not a default Interface available in WorkDesk?

☒ **Form View**

- ☒ Process View
- ☐ Document View
- ☐ Exceptions

Q. 22 Is it possible to change the Defaut Home Tab in dashboard within iBPS(BAM)?

☒ **Yes**

- ☒ No
- ☐ Only supervisor users can change
- ☐ None of the above

Q. 6 In iForm, what is the INI(in webdesktop.ini) to set the batch size when batching is enabled in listview/table :

- ☐ BatchSize
- ☒ NumberOfRecordsToFetch
- ☐ RowDataSize

☒ **None of the above**

Q. 8 We can perform custom coding in which file?

- ☐ Wdgeneral.js
- ☐ Cfgeneral.js
- ☒ Client.js

☒ **External.js**

Q. 9 In iBPS (BAM), if Disable Manual input checkbox is checked in Input Field Properties screen then:

- ☐ It is mandatory to specify value to generate the report

☒ **Value cannot be inserted manually for report generation**

- ☐ Both of the above
- ☐ None of the above

Q. 17 In event configuration which of the option is NOT available in iForm?

- ☐ DB linking
- ☒ Web Service
- ☐ Custom Action

☒ **None of the above**

Q. 2 In iBPS, Transaction Free API means:

☒ **API have no database connection**

- ☐ API have database connection
- ☐ Both of the above
- ☐ None of the above

Q. 4 In iBPS, which formats is/are available in WebDesktop to save Audit Logs?

- ☐ xls
- ☐ pdf
- ☐ csv

☒ **Both the options 1st & 2nd**

Q. 22 A newly defined view in iBPS is visible to:

- ☐ Only to the user who configured it
- ☐ Visible across the cabinet

☒ **Visible across the group it has the rights to**

- ☐ Visible to the business users only

Q. 20 What is the maximum size for image box in iForm?

☒ **100KB**

- ☐ 200KB
- ☐ 300KB
- ☐ There is no limit

Q. 1 Which of the following masking patterns are NOT present in iForm?

- ☐ Mobile
- ☐ Indian Currency
- ☐ French Currency

☒ **ZipCode**

Q. 18 Application creation comes under which module in iBPS?

- ☐ BAM

- ☐ Web Desktop

☒ **Process Designer**

- ☐ All of the above

Q. 1 In which iBPS screen, are new views configured?

- ☐ Webdesktop

☒ **OmniApp Configuration**

- ☐ Application Configuration
- ☐ Badmin

Q. 7 In iBPS (BAM), which of the format is required for executing queries where user input is required?

- ☐ #{username}#

☒ **\${username}\$**

- ☐ &{username}&
- ☐ %{username}%

Q. 12 In iBPS, how can a Group be associated with Queue?

☒ **Using Queue Management Component**

- ☐ Using User Management Component
- ☐ Using Process Designer
- ☐ All of the above

Q. 15 Is it possible to map system variables with External URL in iBPS (BAM)?

☒ **Yes**

- ☐ No
- ☐ External URL cannot be mapped with system variable
- ☐ External URL cannot be linked while creating drill down report

Q. 2 In iForm, alignment in column settings of ListView is used for alignment of ____?

- ☐ Column Label
- ☐ Cell Value

☒ **Button Alignment**

- ☐ None of the above

Q. 9 The same component instance can be used how many times in a single view, while configuring it in iBPS?

☒ **Only once**

- ☐ Two times
- ☐ Three times
- ☐ No limit on usage

Q. 19 In iBPS, can we delete default generated queues in Queue Management component?

- ☐ No
- ☐ Yes, All the queues.
- ☒ **Yes, but not Default System Queues.**

- ☐ Yes, but not Introduction Queues.

Q. 1 What is the path for keeping images which are to be displayed on tile in Application Designer of iBPS?

- ☐ jboss\bin\Images
- ☐ Browse and upload on properties
- ☒ **jboss\bin\IFormDirectory\Images**

- ☐ None of the above

Q. 6 Auto toggle in iBPS (BAM) helps:

- ☐ To toggle the reports in a Tab
- ☐ To toggle automatically
- ☐ To toggle the modes between Tabular and Graphical

- ☒ **All of the above**

Q. 23 In iBPS (BAM), refresh interval in user preferences specifies

- ☐ The tabs will toggle after this specified interval
- ☒ **The reports will be refreshed after this specified interval**
- ☐ Both of the above
- ☐ None of the above

Q. 12 Which button can be hidden from Grid properties in iForm?

- ☐ Save changes

- ☒ **Add Row**

- ☐ Save and Next
- ☐ None of the above

Q. 25 How many input parameters are there in API addComboltem:

- ☐ 2
- ☐ 3
- ☐ 4

- ☒ **5**

Q. 19 In iBPS, Function Filter works on the basis of:

- ☒ **Decision Matrix Concept**

- ☐ Simple Matrix Concept

- ☐ Both of the above
- ☐ None of the above

Q. 2 In iBPS, how we can change value of dynamic constant defined in process?

- ☐ Open Registered process in Process Designer and change.
- ☐ Open Checked out process in Process Designer and change.
- ☐ Through Process Management component in WebDesktop.

☒ **Both the options 2nd & 3rd**

Q. 5 iBPS API interface is based on:

- ☐ Java

☒ **XML**

- ☐ VB
- ☐ None of the above

Q. 18 In iBPS, specific WorkStep queue cannot be made for which WorkStep?

- ☐ WorkDesk
- ☐ WebService
- ☐ Reply

☒ **Query**

Q. 2 Which of the following is a supported iOS versions in iBPS - Mobile?

- ☐ iOS 6
- ☐ iOS 7

☒ **iOS 8**

- ☐ All of the above

Q. 3 Amongst the following pairs of component instances, which pair is such that none of the two items have been n

- ☐ Workitem List and Widget View
- ☐ Search Bar and Criteria Management
- ☐ Search Component and Rights management

☒ **User Management and Report Scheduler**

Q. 20 What should be the name of the .jar file created for custom coding

- ☐ ngfuser.jar
- ☐ processname.jar (where processname is the name of the process)
- ☐ ngfrmbld.jar

☒ **There is no dependency on name of the .jar file**

Q. 24 How many maximum queues can be added to Favorite Queue List in Mobile (iBPS)?

- ☐ 5

- ☐ 7
- ☐ 10

☒ **15** number

Q. 9 Which component instance can be used to show a Donut or Tile view on the UI in iBPS?

- ☐ Workitem List
- ☐ Search Bar

☒ **Widget View**

- ☐ Search Component

Q. 24 Which of the following statements is INCORRECT with respect to Advanced Search functionality in iBPS?

- ☐ It is possible to configure search based on common system variables
- ☐ It is possible to configure search based on WorkItem states

☒ **It is possible to configure search combining business variables with specific user-defined conditions and operators**

Q. 12 In iForm, which key needs to be checked while making relationship between child complex variable?

- ☐ Parent Relationship Key
- ☐ Parent-Child Relationship Key

☒ **Child Relationship Key**

- ☐ None of the Above

Q. 3 In iBPS, which of the following is not available in WorkItem operations list in Mobile?

- Refer
- Assign to Me
- Delete
- Upload
- Initiate

- ☐ (ii)
- ☐ (ii) and (iii)

☒ **(iii) and (iv)**

- ☐ (iv) and (v)

Q. 7 In iBPS (Application Designer), what is the implication of a tile group that is mandatory?

- ☐ All the tiles must be selected
- ☐ The default tile is to be selected

☒ **At least one tile should be selected**

- ☐ None of the above

Q. 1 How to add the alert list to container in iBPS(BAM)?

☒ **On clicking more options button in container dashboard**

- ☐ On clicking more options button of the tab
- ☐ Both of the above
- ☐ None of the above

Q. 1 How many views can be pinned at once on the UI for any iBPS user?

- ☐ Upto 2

☒ **Upto 3**

- ☐ Between 2 to 5
- ☒ No Limit

. 5 Which of the following process variable types can be used to map with Rich Text Editor in iForm?

- ☐ NText
- ☐ Text

☒ **Both of the above**

- ☐ None of the above

Q. 2 In iBPS (Application Designer), the document type are separated by?

- ☐ %
- ☐ @

☒ **#**

- ☐ None of the above

Q. 5 In iBPS (BAM), rule execution takes place only in:

- ☐ Report Generation
- ☐ Dashboard

☒ **Both of the above**

- ☐ None of the above

Q. 1 iBPS service can be executed on:

- ☐ Same Application Server
- ☒ Different Application Server

☒ **Both of the above**

- ☐ None of the above

Q. 4 When lock is associated with the table name in approved tables list, it signifies?

- ☐ Table has not yet been approved
- ☐ Maker-checker functionality is enabled on Add table

☒ **Both of the above**

- ☐ None of the above

Q. 2 In iBPS, is it possible to create report in Dashboard with Mobile App?

- ☐ Yes, Using Query
- ☐ Yes, Using Procedures

☒ **No**

- ☐ Yes, Depending upon the rights of User

Q. 4 Which of the following legend positions are available while defining Donut views?

- ☐ Top and Right
- ☐ Top and Bottom
- ☐ Top and Left

☒ **Bottom and Right**

Q. 2 In iBPS, preferences in Mobile App includes:

☒ **Reminder, Batch Size**

- ☐ Home Screen
- ☐ User Image
- ☐ All of the above

Q. 1 During Application Design in iBPS, it is mandatory to associate parent table on _____ page.

- ☐ Login page

☒ **Navigation Page**

- ☐ Widgets
- ☐ None of the above

Q. 7 In iBPS, WebService WorkStep is used to invoke:

- ☐ Internal Web Service
- ☐ External Web Service

☒ **Both of the above**

- ☐ None of the above

Q. 5 In iBPS (Application Designer), what is the name of event for configuring different navigations on tiles?

- ☐ RouteCriteria

☒ **RouteJourney**

- ☐ Route
- ☐ None of the above

Q. 3 If user wants to execute custom code after API execution in iBPS, then it can be written in:

- ☐ API Prehook

☒ **API Posthook**

- ☐ Utility Hook
- ☐ None of the above

Q. 9 How does iBPS combine multiple conditions while defining a filter in criteria management?

☒ **Using AND /OR**

- ☐ Using IF / ELSE
- ☐ Using AND/OR/ELSE/IF/ELSE IF
- ☐ Custom combinations (user-defined) are available to be incorporated on a need-basis

Q. 13 In iBPS, which of the following is not an interface in Mobile?

- ☐ Form View

☒ **Process View**

- ☐ Document View
- ☐ Exceptions

Q. 4 In iBPS, how many rule(s) can be added on Business Rule WorkStep?

- ☐ One
- ☐ Ten
- ☐ Hundred

☒ **Infinite**

Q. 10 Which of the following statements is/are correct wrt iBPS?

- (i) Default View of WorkItem (WorkDesk) cannot be set.
- (ii) WorkDesk layout is fixed.
- (iii) Only Applet forms are available in WebDesktop.

- ☐ Only (i) is correct.
- ☐ Both (i) & (iii) are correct.
- ☐ (i), (ii) and (iii) are correct.

☒ **None of the statements are correct.**

Q. 7 Which of the following statements is CORRECT with respect to configurable dashboards in iBPS :

Every time a user clicks on any part of the Donut/Tile in a dashboard –

☒ **The workitem list widget associated, refreshes itself and then re-populates the list of its workitems**

- ☐ The legends associated to the donut/tile change values
- ☐ The pinned searches re-populate their results
- ☐ A new workitem is generated for the associated queue in the filter on which that donut/tile is defined

Click here to see Question No: 1	Bookmark	Clear
--	--------------------------	-----------------------

Q. 1 Home Site is:	Marks:1
--------------------	---------

- **Where the documents of that image volume get added by default**
- The site from where the user would wish to retrieve his documents
- Both of the above
- None of the above

Q. 1 Which of the following is a valid operation in PMWeb?	Marks:1
--	---------

- Unregistering a checked out process
- Saving a registered process
- Unregistering a disabled process
- **None of the above**

Q. 2 In OmniFlow, quick search can be made on:	Marks:1
--	---------

- Queue
- Process-Instance-ID
- Quick Search variables
- **All of the above**

Q. 3 My Queue contains:	Marks:1
-------------------------	---------

- The list of workitems pending for the user
- The list of all the workitems of all the queues
- **The list of only those workitems on which user has rights**
- None of the above

Q. 4 Choose the incorrect option from the following wrt OmniDocs	Marks:1
--	---------

- Use OmniDocs Admin to create groups
- You can assign privileges to the group at the time of group creation only

- Administrator can define access privileges for the group
- **It is strongly recommended that access policies in Omnidocs should be created at the group level**

Q. 5 Which API is used to Move workitem from one stage to another?	Marks:1
--	---------

- WMDoneWorkitem
- **WMCompleteWorkItem**
- WMMoveWorkitem
- WMNextstageCase

Q. 6 When is a process checked-In with Create new version as an option:	Marks:1
---	---------

- **A new version of the process is created and the new process data is copied against this new version**
- Default queues for all the worksteps are created again for newly created version
- All the existing versions of the process are deleted
- All of the above

Q. 7 The mapped process variables can be defined for queues and when the user logged into the process client, he/she is able to mapped process variable in the workitem itself.	Marks:1
---	---------

- **Through process variable mapped**
- Through quick search operations
- Both of the above
- None of the above

Q. 8 Which is not Scan Protocol?	Marks:1
----------------------------------	---------

- Twain
- ISIS
- Paper scanner
- **TCP**

Q. 9 In iBPS, to which group(s), Rights Management component should be available by default:	Marks:1
--	---------

- **Business Admin**
- Process Designer
- Web Desktop
- All of the above

Q. 10 In OmniScan, which is the Barcode symbology used to extract the barcode?	Marks:1
--	---------

- FindBarcode
- ExtractBarcode
- **Code128**
- Landscape

Q. 11 In OmniFlow Form Custom coding, NGAddColumnHeader is supported for which control type:	Marks:1
--	---------

- **ListView**
- Frame
- Repeater
- None of the above

Q. 12 OmniDocs is built using robust server-side _____ technologies	Marks:1
--	---------

- **Java and J2EE**
- C++
- Java
- Android

Q. 13 Managed Code is used for which of these DLL type?	Marks:1
---	---------

- VB

- **Dot NET**
- C++
- None of the above

Q. 14	Marks:1
Under which selected condition in folder section an error folder is created while saving a document?	

- **Selecting Option 1 and folder already exists**
- Selecting Option 2 and folder already exists
- Selecting Option 1 and folder does not exists
- Selecting Option 2 and folder does not exists

Q. 15 From which call you can get Session ID in OmniFlow?	Marks:1
---	---------

- NGOGetSessionID
- WMConnectCabinet
- NGOConnectCabinet
- **WMConnect**

Q. 16 In MDM, when lock is associated with the table name in approved tables list, it signifies	Marks:1
---	---------

- Table has not yet been approved
- Maker-checker functionality is enabled on Add table
- **Both the above**
- None of the above

Q. 17 Which OmniDocs service is responsible to create Documents Thumbnail?	Marks:1
--	---------

- Wrapper
- SMS

- **Thumbnail**
- OSA

Q. 18 Which of the statement is true in context of BAM reports.	Marks:1
---	---------

- Order by can be defined on some fields
- Data can be group by on some fields
- **Both the above**
- None of the above

Q. 19 In iBPS, is there any way to create multiple users in OFservices?	Marks:1
---	---------

- Not feasible
- Make an entry in admin.xml
- Through OmniDocs
- None of the above

Q. 20 In Form Builder, by default, the Maxlength for a MaskedTextBox is specified as: (Give your answer wrt Applet only)	Marks:1
---	---------

- 32
- **64**
- 16
- 0

Q. 21 Which of the following command is only supported in BAM through queries?	Marks:1
--	---------

- **Select**
- Update
- Delete
- Insert

Q. 22 Which of the following is the very first event of Form which is invoked after	Marks:1
---	---------

opening workitem:	
-------------------	--

- Opening
- Load
- **FieldValueBagSet**
- Initialized

Q. 23 During volume creation in OmniDocs, size of Volume block represents:	Marks:1
--	---------

- Max size of the volume
- Min size of the volume
- Min Size of a PN file
- **Max Size of a PN file**

Q. 24 To Register a View in OmniApp, which information is not required?	Marks:1
---	---------

- View Name
- Group Name
- User Name
- **Min/Max Button**

. 25 Managed Code is used for which of these DLL type?	Marks:1
--	---------

- VB
- **Dot Net**
- C
- None of the above

Q. 26 What is the function of Collapsible property of Frame?	Marks:1
--	---------

- Frame can be hidden on by double clicking on the Frame.
- Frame size will become changeable
- **Frame will become collapsable**

- None of the above

Q. 27 How to get list of Data Definition in the System?	Marks:1
---	---------

- **NGOGetDataDefListExt**
- NGOGetDataDefinitionListExt
- NGOGetDataDefinitionList
- NGOGetDataDefList

Q. 28 In OmniDocs, a Label is created through:	Marks:1
--	---------

- OmniDocs Admin
- Omnidocs Web Client
- **OSA**
- All of the above

Q. 29 How many queue variables are present in OmniFlow?	Marks:1
---	---------

- 46
- **26**
- 18
- 36

Q. 30 The API which returns user session is:	Marks:1
--	---------

- **WMConnect**
- WFConnect
- Both of the above
- None of the above

Q. 31 Workitem can be introduced in:	Marks:1
--------------------------------------	---------

- Any of the Queue
- **Any of the Queue on which user have rights**
- Queues of type Introduction
- Queues of type Introduction with rights

Q. 32	Marks:1
Default batch size for document listing in OmniDocs is:	

- 15
- 20
- **10**
- All documents will be shown

Q. 33 Mailing agent is used for:	Marks:1
----------------------------------	---------

- **Sending mails**
- Receiving Mail
- Both of above
- None of the above

Q. 34 Which one of the following is correct in OmniFlow?	Marks:1
--	---------

- Complex type variable is defined over queue variable
- For complex type variables external table has to be defined
- **For complex type variable mapping and relation has to be defined**
- None of the above

Q. 35 Entry settings are not defined for which Workstep?	Marks:1
--	---------

- **Introduction Workstep**
- Standard Workdesk
- DMS Adaptor
- Exit Workstep

Q. 36	Marks:1
Set of indexes that can be associated with the document or folder by providing the unique entity to them is:	

- Global Index
- **Data Class**
- Keywords
- None of the above

Q. 37	Marks:1
In which of the following cases volume cannot be deleted:	

- If the selected volume is the default volume of the cabinet
- If the selected volume consists of some documents
- **Both of the above**
- None of the above

Q. 38 What option to use to export the job just after creation of records in OmniScan?	Marks:1
--	---------

- Auto Upload
- Auto Export
- **Export All**
- No such feature is available

Q. 39 Which combination is not as per BPMN:	Marks:1
---	---------

- Start – End
- Parallel distribute – Parallel Collect
- Inclusive distribute – Inclusive Collect
- **Receive – Reply**

Q. 40 After defining the Turn Around Time or TAT for a process, if the Workitem takes longer than specified time, it will appear as _____ for that process	Marks:1
--	---------

- Active
- Deleted
- Workitem in delay
- **None of the above**

Q. 41 How many times can a Work-Item be referred?	Marks:1
---	---------

- 1
- 2
- **More than 3**
- None of the above

Q. 42 In iBPS, WorkItem sharing can be done with how many users at a time?	Marks:1
--	---------

- One
- Two
- Three
- **Multiple**

Q. 43 In Form Builder, if you want to display the header of a frame, you would alter which property of Frame control?	Marks:1
---	---------

- IsRepeater
- Floatable
- **Collapsible**
- State

Q. 44 Which API is used to fetch list of DataClass available in cabinet?	Marks:1
--	---------

- NGOGetDataDefList

- NGOGetDataClassList
- NGOGetDataClassListExt
- **NGOGetDataDefListExt**

Q. 45 In which section of INI, user can define indexes?	Marks:1
---	---------

- **DataClass Section**
- Job Section
- Export Section
- Data Section

Q. 46 In Form Builder, which property is used to set Multi Select option in ComboBox?	Marks:1
---	---------

- MultiSelect
- MultipleSelect
- MultiSelection
- **ComboBox does not have Multi Select option**

Q. 47 In OmniDocs, one can assign data class to a document from:	Marks:1
--	---------

- OmniDocs Admin
- OmniDocs Client
- **Both of the above**
- None of the above

Q. 48 When you start Form Builder from X application the variables defined as queue /external variables in X will be listed as Dataclass field in Form Builder. What is X?	Marks:1
--	---------

- **Process Modeler**
- OMS
- OmniScan
- Configuration Server

Q. 49 Which types of image documents are supported?	Marks:1
---	---------

- TIFF
- Scanned PDF
- **Both of the above**
- None of the above

Q. 50 Time out in Web API is defined in:	Marks:1
--	---------

- Minutes
- **Seconds**
- Milliseconds
- Nanoseconds

Q. 1 The Import Utility imports:	Marks:1
----------------------------------	---------

- Files
- **Documents**
- Initiate Workitems
- None of the above

Q. 2	Marks:1
How many levels of security exist in OmniDocs?	

- **2 levels**
- 3 levels
- 4 levels
- 6 levels

Q. 3 In OmniFlow, while defining an External table which column name is not mandatory:	Marks:1
--	---------

- **itemname**
- itemindex
- itemtype
- None of the above

Q. 4 Which tags are mandatory for all Newgen products API?	Marks:1
--	---------

- **Option, CabinetName**
- CabinetName,TableName
- IndexID, DataClassTag
- All tags are mandatory

Q. 5 Among the following components of Form Builder, which component can be used as a container for other components?	Marks:1
---	---------

- Label
- Text Box
- **Frame**
- List View

Q. 6 In OmniScan, following is not the type available to export the records to DMS:	Marks:1
---	---------

- Export All
- **Export Previous**

- Export New
- Export Current

Q. 7 Which option is present in OmniScan to generate ini file?	Marks:1
--	---------

- **Manage Template**
- Generate INI
- Save INI
- Create INI

Q. 8 In iBPS, what does Manage Logger do?	Marks:1
---	---------

- Allows to access logs of same server
- Allows to access logs of different server running services (iBPS)
- Allows to access logs of any server
- **Both the options 1st & 2nd**

Q. 9	Marks:1
Default batch size for document listing in OmniDocs is:	

- 15
- 20
- **10**
- All documents will be shown

Q. 10 Under which option in Process Manager, an administrator can enable/disable the logging of some of the user/system actions that are not required to be kept track of in the system:	Marks:1
--	---------

- Queue Management
- **Audit Log Configuration**
- User Configuration
- None of the above

Q. 11	Marks:1
Which of the following statement about label is true?	

- Once made, label cannot be changed
- **Only Location of the label can be changed**
- Only Name of the label can be changed
- Both the Name and Location of the label can be changed

Q. 12 In Form Builder, TextBox and Masked TextBox have certain properties in common. Select one such property from the following: (Give your answer wrt Applet only)	Marks:1
--	---------

- Max/Min Value
- **Maxlength**
- Multiline text
- Computed Field

Q. 13 Which option is true after performing delete operation on documents?	Marks:1
--	---------

- Document permanently deleted from OmniDocs repository.
- **Move to Trash**
- Both of the above
- None of the above

Q. 14 Which API is used to Move workitem from one stage to another?	Marks:1
---	---------

- WMDoneWorkitem
- **WMCompleteWorkItem**
- WMMoveWorkitem
- WMNextstageCase

Q. 15 In FormBuilder, which of the following is/are container controls:	Marks:1
---	---------

- Frame
- TabControl
- Form
- **All of the above**

Q. 16 In OmniFlow, Allow Addition option that enables user to add a document of the selected document type either from the hard disk or from the underlying DMS is set using which tool?	Marks:1
--	---------

- **Scan**
- DocTypes
- ToDoLists
- All of the above

Q. 17 In OmniFlow, the Workitem can be deleted from which Workstep/Queue.	Marks:1
---	---------

- **Introduction Workstep**
- My Queue
- Both (a) & (b)
- Once introduced Workitem cannot be delete

Click here to see Question No: 18 [Bookmark](#) [Clear](#)

Q. 18 Is it possible to maintain OmniScan template at a centralized location and all scanning machine will download it from there?	Marks:1
--	---------

- Yes, need to change ngbulkscan.ini
- Not possible
- **Need to define "Setup :-> Preferences :-> INI Settings" option in OmniScan window**
- Need to define "Setup :-> Preferences :-> Download Settings" option in OmniScan window

Q. 19 Rules in BAM helps to:	Marks:1
------------------------------	---------

- **Apply the color coding of the data when some rule condition satisfies**
- Send the mail to group or users when some rule condition satisfies
- Sends the mail to some specific mail ids when some condition satisfies
- All of the above

Q. 20 Data rights should be given:	Marks:1
------------------------------------	---------

- At each Workstep, read/modify right must be given
- Modify rights must be given, if that field needs to change at form
- **Both of the above**
- None of the above

Q. 21 In OmniDocs, where is the data related to the images stored?	Marks:1
--	---------

- PN Files
- **Database**
- Log
- None of the above

Q. 22 Which API is used to Fetch workitem in a Queue?	Marks:1
---	---------

- WFgetworkiteminQueue
- WMFetchWorkItems
- WMgetWorkItems
- **None of the above**

ANS - WMFetchWorkList

Q. 23 Options for creating users, group and data classes are present/available under:	Marks:1
---	---------

- **System Administration**
- Configure Desktop
- Service Management
- License Management

Q. 25 OmniDocs native view can be used to view:	Marks:1
---	---------

- **Image files**
- Multimedia files
- MS Office files
- All of the above

Q. 26 Work-Item can be introduced in:	Marks:1
---------------------------------------	---------

- Any of the Queue
- Any of the Queue on which user have rights
- Queues of type Introduction
- **Queues of type Introduction with rights**

Q. 27 Which section is not a mandatory section to be filled while creation of template in	Marks:1
---	---------

OmniScan?	
-----------	--

- Data Section
- Data Class Section
- Folder Section
- **Job Section**

Q. 28 My Queue contains:	Marks:1
--------------------------	---------

- **The list of** workitems pending for the user
- The list of all the workitems of all the queues
- **The list of only those workitems on which user has rights**
- None of the above

Q. 29 How to get List of Groups in the System?	Marks:1
--	---------

- NGOGetGroupList
- NGOGetGroupsListExt
- NGOGetGroupsList
- **NGOGetGroupListExt**

Q. 30	Marks:1
OmniDocs Image Server is responsible for:	

- Changing image compression only
- **Storage and retrieval of documents**
- Scanning of images only
- All of the above

Q. 31 Which method is used for adding validations for Mandatory fields in NGFUser.jar method? (Give your answer wrt Applet only)	Marks:1
--	---------

- public int ngfUser_Validation(String pEvent) {}
- public void ngfUser_Validation(String pEvent) {}
- public boolean ngfUser_Validation(int pEvent) {}
- **public boolean ngfUser_Validation(String pEvent) {}**

Q. 32	Marks:1
Which of the following is valid volume replication type in OmniDocs?	

- **Delayed**
- Postponed
- Logical
- Physical

Q. 33 Which of the following is not a BPMN term:	Marks:1
--	---------

- Mile Stone
- Pool
- **Group Box**
- Swimlane

Q. 34 Volume is a _____ unit in OmniDocs	Marks:1
--	---------

- **Logical**
- Physical
- Methodical
- Basic

Q. 35 In OmniFlow, what type of ToDoList is used in which user can select, any of the options from the selection box containing the list defined by the designer, as the value of the ToDo Item?	Marks:1
--	---------

- Mark
- **PickList**
- Trigger
- None of the above

Q. 36 Workitem list cannot have:	Marks:1
----------------------------------	---------

- Process-Instance-Id, Entry-Date-time
- Queue Variables
- Raised Exception Names
- **None of the above**

Q. 37 In Form Builder, the default type of a TextBox is:	Marks:1
--	---------

- Integer
- **Text**
- Long
- Float

Q. 38 In OmniFlow Form Custom coding, getNGBackColor() method returns: (Give your answer wrt Applet only)	Marks:1
---	---------

- int
- **Hex Code String**
- Color Name String
- None of the above

Q. 39 After login to Web client which queue is shown:	Marks:1
---	---------

- Dynamic Queue
- **My Queue**
- Search Queue
- None of the above

Q. 40 In Form Builder, a form can be saved into which format?	Marks:1
---	---------

- XML
- DOC
- **NGF**
- None of the above

Q. 41 In OmniScan, which Scan Type used to scan the images?	Marks:1
---	---------

- **Duplex**
- Double Scan
- Fast Scan
- Rotate Scan

Q. 42 In BAM, for which report type, is the key field mandatory to be specified?	Marks:1
--	---------

- Matrix type
- Tabular type
- Graphical type
- **Both the option 2nd and 3rd**

Q. 43 To Register a View in OmniApp, which information is not required?	Marks:1
---	---------

- View Name
- Group Name
- User Name
- **Min/Max Button**

Q. 44 In iBPS, what type associations can user have with groups/profiles?	Marks:1
---	---------

- Permanent Assignment
- Assignment till date
- **Both of the above**
- None of the above

Q. 45 Which API is used to fetch list of DataClass available in cabinet?	Marks:1
--	---------

- NGOGetDataDefList
- NGOGetDataClassList
- NGOGetDataClassListExt
- **NGOGetDataDefListExt**

Click here to see Question No: 46 [Bookmark](#) [Clear](#)

Q. 46 In iBPS, during WorkItem shared mode, how many users can simultaneously make changes in workitem?	Marks:1
---	---------

- **One**
- Two
- Three
- Multiple

Q. 47 Which tags are mandatory for all APIs?	Marks:1
--	---------

- **Option, CabinetName**
- CabinetName, TableName
- IndexID, DataClassTag
- All Tags Are Mandatory

Q. 48 Operations can only be reverted in MDM if:	Marks:1
--	---------

- Maker-checker functionality is enabled
- User is member of approver group
- Both of the above
- **None of the above**

Q. 49 How many external tables can be associated with one process?	Marks:1
--	---------

- **Only 1**
- Only 2
- 'n' number of external tables
- None of the above

Q. 50 Managed Code is used for which of these DLL type?	Marks:1
---	---------

- **VB**
- **Dot NET**
- C++
- None of the above

Q1. Name the Mode where user can design and modify reports.

Ans: [Design Mode](#)

Share the path where License.txt file is placed in BAM. [Jboss directory\bin\crwebconfig](#)

What kinds of reports are available in BAM : [General Reports and Hidden reports](#)

One can design report in BAM using

1. Only using Query Wizard
2. Only executing Stored Procedure
3. Only using query execution
4. [All of above](#)

What is correct syntax to declare input params in BAM. '[\\${Param Name}\\$](#)'

What option is not available in BAM in Report Field Property window . [Count](#)

What link option does in BAM [It links a second report with a particular column of base report](#)

How user can enter values in Input field.

1. Manually can insert values.
2. Can select values from drop down
3. Can select value from calendar in case of Date field
4. [All of above](#)

Which feature allow user to use already configured reports. No need to configure again and again [Export/Import Reports](#)

OmniDocs API's Sample Quiz

Q 1: Which API is used for connecting Cabinet? [NGOConnectCabinet](#)

Q 2: Which API is used to create folder in OmniDocs?c. [NGOAddFolder](#)

Q 3: NGOGetFolderIdForName API is used for?b. To fetch Folder Index

Q 4: API which is used to fetch list of DataClass available in cabinet?NGOGetDataDefListExt

Q 5: NGOIsAdmin validates?c. whether the logged in user is a member of the Supervisor Group

What API would you use to check whether a user is Admin or not? NGOIsAdmin

API are available under the license of : Development

Calling API can be eased due to use of:NGCallBroker

Which call is used to obtain the Log generated for the objects like user, group, document, folder etc?NGOFetchLog

Which call to be used to associate the keywords with a document?NGOAddKeywordsToDoc

Rules cannot be associated with? Triggers

How to achieve the functionality of locking and unlocking of document, folder or cabinet?NGOProcessLock

Which call to be used to associate the Keywords with a document?NGOAddKeywordsToDoc

How to get list of groups in the system?NGOGetGroupListExt

Which method of NGCallBroker is used for calling API:makeCall

If API returns error code in positive number then it means:Warning

How to fetch property of an OmniDocs Group?NGOGetGroupProperty

In MDM, Maker-Checker feature cannot be enabled on the following operation:Import table

1) BAM stands for -- Business Activity Monitor

Name the Mode where user can design and modify reports
Design Mode

Share the path where License.txt file is placed in BAM.
Jboss directory\bin\crwebconfig

What kinds of reports are available in BAM General Reports and Hidden reports

One can design report in BAM using All of above

What is correct syntax to declare input params in BAM. `'${Param Name}$'`

What option is not available in BAM in Report Field Property window. `Count`

What link option does in BAM.

`It links a second report with a particular column of base report`

How user can enter values in Input field.

1. Manually can insert values.
2. Can select values from drop down
3. Can select value from calendar in case of Date field
4. `All of above`

Which feature allow user to use already configured reports. No need to configure again and again
`Export/Import Reports`

In BAM, if the user has been assigned Modify Report rights then: Marks:2 `user able to modify and generate the report`

Can we change the display name of the fields in BAM: Marks:2 `Both` option 1st & 2nd
[Hook](#)

1) Hook can be implemented for

a) OmniFlow APIs

b) Omnidocs APIs

`c) Both of the above`

d) None of above

2) Hook can alter Input XML `c) Yes but only for API for which Hook is being implemented`

3) To implement PreHook we need to write code in function `a) executeIn`

4) To implement PostHook we need to write code in function `2) executeOut`

5)After deploying OFhook.jar, entry must be done in **b)Hookdata.xml**

6)Naming convention of class file for which hook is being implemented must be

a)First 3 characters of API should be replaced with 'HOOK'

Form Builder

1.What is the shortcut key for Properties window in form builder?**F4**

2.Among the following components of Form Builder, which component can be used as a container for other components?**Frame**

3.In Form Builder, which of the control does not have zone property?**Frame**

4.Which component of Form Builder is used for displaying an image on the form?**Picture** **Box**

5.Which date format is not present in the default date formats of a date picker?**yyyy/dd/MM**

6.A form can be saved into which format?**NGF**

7."Columns" property can be set for which of the following form control?**List** **View**

8."Locked" property can be set for which of the following form control?**Combo** **Box**

9.Which of the following statement is true about form height in Form Builder?**Its dimensions are in pixels**

10.void NGFPropInterface.setNGLocked(String arg0, boolean arg1) method is used for performing which task on Textbox?**Making** **a form control read only / editable**

11.From which of the following newgen product Form builder can be accessed?**Process** **Modeler**

12. Which of the following is true regarding Grid:

1. We can select Multiple rows by setting MultiSelect Property as True
2. We can hide a control by setting the width of a column as 0 while mapping with the Grid
3. **Both** **a and b are correct**
4. Both are incorrect.

13. Which is true regarding formObject.setNGValue("ControlName", "Changed_Value") method in NGFUser custom code? **Text box value can be changed and Label can be changed**

14. How can we restrict adding of null value while Adding and Modifying a row in the Grid?

- Not Possible
- By adding validation in ngfUser.jar.
- By Unchecking the checkbox of Allow Null while adding the mapping of the field on Form Builder?
- **Both b and c are correct**

15. Which property is used for aligning the text while Adding or modifying the field in the Grid? **TextAlign**

16. How to add a default value in ComboBox?

- **By setting the List Index**
- By adding the value in Default section property of ComboBox in formbuilder.
- The first value is set as default automatically.
- Not Possible

17. What is the function of Collapsible property of Frame?

1. Frame can be hidden on by double clicking on the Frame.
2. Frame size will become changable
3. **Frame will become collapsable**

4. None of the above

18. How to set the Casing of the text entered in a Text box as All Upper?

- By setting AllUpper in CharacterCasing property of textbox
- By setting Upper in CharCasing property of textbox
- By setting Upper in CharacterCasing property of textbox
- By setting AllUpper in CharCasing property of textbox

19. What is the tabindex of the first control added in the form?

1. 1
2. 2
3. 3
4. 4

20. How to enter date manually in DatePicker?

- By setting its property Editable as True
- By setting its property Editable as Yes
- By setting its property Editable as Manual
- By setting its property Editable as Both

21. Which property is used to set Multi Select option in ComboBox?

1. MultiSelect
2. MultipleSelect
3. MultiSelection
4. **ComboBox** **don't have Multi Select option.**

22. void NGFPropInterface.NGAddItem(String arg0, String arg1) method is used for performing which task?

1. **Adding a value in a Combo Box**
2. **Adding a value in a List Box**
3. Adding a value into a Gri
4. None of the above

23: How to clear List values in a ComboBox?

- **formObject.NGClear("ControlName")**
- formObject.setNGClear("ControlName", "")
- formObject.NGClearList("ControlName")
- formObject.setNGClearList("ControlName")

24. Which method is invoked in the ngfUser Class on formLoad?

- `public void fieldValueBagSet(){}`

- `public String fieldValueBagSet(){}`
- `public String fieldsValueBagSet(){}`
- `protected String fieldValueBagSet(){}`

25. How to set the checkbox value as checked?

1. `formObject.setNGValue("ControlName", true)`
2. `formObject.setNGValue("ControlName", "checked")`
3. `formObject.setNGValue("ControlName", "true")`
4. `formObject.setNGValue("ControlName", 0)`

26. How we can disable a checkbox on form using NGFUser custom code?

- `formObject.setNGLocked("ControlName","false")`
- `formObject.setNGLocked("ControlName",false)`
- `formObject.setNGEnable("ControlName","false")`
- `formObject.setNGEnable("ControlName",false)`

27. Which method of NGFUser is invoked on click of Done after ngfUser_Validation method?

- `public void NGF_SaveNGFData(String pEvent) {}` with pEvent as 'D'
- `public int NGF_SaveNGFData(String pEvent) {}` with pEvent as 'Done'
- `public int NGF_SaveNGFData(char pEvent) {}` with pEvent as 'D'

- `public int NGF_SaveNGFData(String pEvent) {}` with pEvent as 'D'

28. Which method is used for adding validations for Mandatory fields in NGFUser.jar method?

1. `public int ngfUser_Validation(String pEvent) {}`
2. `public void ngfUser_Validation(String pEvent) {}`
3. `public boolean ngfUser_Validation(int pEvent) {}`
4. `public boolean ngfUser_Validation(String pEvent) {}`

29. Which command is used to modify a selected row in a grid in NGFUser custom code on click Event?

1. `formObject.ExecuteExternalCommand("NGModifyRow","GRID_NAME")`
2. `formObject.ExecuteExternalCommand("ModifyRow","GRID_NAME")`
3. `formObject.ExecuteExternalCommand("NGUpdateRow","GRID_NAME")`
4. `formObject.ExecuteExternalCommand("UpdateRow","GRID_NAME")`

30: Which method is used to Execute Select Query in NGFUser custom code?

1. `formObject.getNGDataFromDataSource("Query","ColumnCount","ControlName","ColSequence")`
2. `formObject.executeNGDataFromDataSource("Query","ColumnCount","ControlName","ColSequence")`
3. `formObject.fetchNGDataFromDataSource("Query","ColumnCount","ControlName","ColSequence")`
4. `formObject.selectNGDataFromDataSource("Query","ColumnCount","ControlName","ColSequence")`

31. Which method is used to Execute Insert, Update and Delete Query in NGFUser custom code?

1. formObject.insertNGDataIntoDataSource(List_of_Queries)
2. formObject.saveNGDataIntoDataSource(List_of_Queries)
3. formObject.executeNGDataIntoDataSource(List_of_Queries)
4. formObject.saveNGDataFromDataSource(List_of_Queries)

32. How to setFocus on a particular control?

- formObject.NGFocus("Control_Name")
- formObject.setNGFocus("Control_Name")
- formObject.CTRLFocus("Control_Name")
- formObject.setCTRLFocus("Control_Name")

33. What is the purpose of using the method NGF_GetMsgString in NGFUser custom coding?

- To get the Message string for the control.
- To provide the custom error messages in place of the default error message provided by the application.
- To get the error messages String to be displayed on occurrence of an error.
- None of these

34. Which method is used to hide a control on the form?

1. `formObject.setNGVisible("Control_Value", true)`
2. `formObject.setNGVisible("Control_Value", "true")`
3. `formObject.setVisible("Control_Value", true)`
4. `formObject.setVisible("Control_Value", "true")`

35. What all events can be applied on Frames?

- GOTFOCUS
- LOSTFOCUS
- CLICK
- None of the above.

Repeater is more closely related to: Marks:2

•Listview

•Textbox

•Frame

•None of the above

Which is/are true about Form Builder control? Marks:2

•Checkbox and option button are similar in functionality

•Checkbox and option button are not similar in functionality

•Listview and listbox are same controls

•None of the above

In which format Newgen forms can be saved? Marks:2

- Text format
- Doc format
- Ngf format
- None of the above

In OmniFlow Form Custom coding, NGF_GetMsgString() method is used to: Marks:1

- Override any localized message of FormApplet
- Show any error message on form
- Fetch message content and code of message
- None of the above

OmniDocs

What is the size limit for dataclass name in OmniDocs? Marks:2

- 256
- 128
- 64
- Unlimited

Q)Define jndi port for OD in:-

- Eworkstyle.ini
- Server.xml
- Admin.xml

- NgoClientdata.xml

Doc from underlying OD can be Imported in OF?

- Yes
- No

Multiple sites with same IP can be added in OD?

- Yes
- No

Choose the correct one: Marks:2

- It is possible to assign right for Dataclass
- It is possible to assign right for Global Index
- Both of the above
- None of the above

How to get List of Groups in the System? Marks:1

- NGOGetGroupList
- NGOGetGroupsListExt
- NGOGetGroupsList
- NGOGetGroupListExt

In which of the following cases a user can perform sharing of folder in OmniDocs? Marks:2

- If user is an owner of the folder.

- If user is a member of supervisor group.
- If user is member of the group having assign right privilege.
- In all of the above cases.

In OmniDocs, Supervisor can add folder at the following: Marks:2

- - Root level
- - Sub folder
- - Both of the above
- - None of the above

Choose the correct one: Marks:2

- It is possible to associate Global Index to Folder only
- It is possible to associate Global Index to Folder & Document
- It is possible to associate Global Index to Document only
- All the above are correct

1:- What is omnidocs

- - A desktop based application for managing and viewing the documents stored
- - A web based application for managing and viewing the documents stored
- - Both A and B
- - None of these

2:- Omnidocs supports document searching on

1:-Data class, Global index, Document Name, owner and Specific Date

2:-Data Class, Global index, Document Name and Date Range

3:-Data class, Document Name, Global index, Date Range and owner

1. 1 and 2
2. 1 and 3
3. 2 and 3
4. None of these

5.

3:-We can assign rights to supervisor from omnidocs admin

1. True
2. False

4:-Omnidocs support folder search on

1:-Data class, Name, owner and Specific Date

2:-Data Class, Name and Date Range and Full Text Search

3:-Data class, Name, Date Range and owner

- 1 and 2
- Only 2
- 2 and 3
- Only 3

5:-It is possible to create a new version a document in omnidocs

1. Yes, by using check –in check-out feature
2. Yes, download document, modify it and re-upload the document

3. Yes download document delete it from omnidocs, change in downloaded document and upload
4. No, document versioning is not possible.

6:-We can add document of types

1. All types defined in admin.ini files
2. All types defined in provision.ini file
3. All types defined in mime.conf file
4. All types defined in uploadmime.conf file

7:-Which option related to document is not present in omnidocs

1. Link
2. Duplicate
3. Forward
4. Order

8:- We can logout OD client session from

1. Master Desktop screen
2. Custom Desktop screen
3. Both
4. None of these

9:- collaborative Feature can be applied to

1. Data Class
2. Site
3. Volume
4. None of Above

10:- In omnidocs we can assign rights on cabinet level

1. True
2. False

11:- Rights can be assigned to data class

1. At time of creation of data class
2. After creation
3. Both
4. Not possible

12:-We can search folder from omnidocs admin

1. True
2. False

13:-What is a Site

1. Location where application server is running
2. Location where omnidocs is installed

- 3. Location Wrapper is running
- 4. Location where Image Files are stored and can be accessed thereafter

14:- Available Security levels in omnidocs are

1:-Cabinet Level

2:-Object Level

3:-No Security

- 1.
 - 1 and 2
- 2. 1 and 3
- 3. 2 and 3
- 4. 1,2 and 3

15:- How many types of user are there in Omnidocs

- 1.
 - 2
- 2. 3
- 3. 4
- 4. 5

16:-Options for creating users, group and data classes are present under

- 1. System Administration
- 2. Configure Desktop
- 3. Service Management
- 4. License Management

17:- We can assign data class to a document from

1. Omnidocs Admin
2. Omnidocs Client
3. Both
4. None of these

18:- We can assign data class to a folder from

1. Omnidocs Admin
2. Omnidocs Client
3. Both
4. None of these

19:- Global index can be associated with

1. Document
2. Folder
3. Both
4. None of these

20:-Multiples volumes can be created on a single site

1. True
2. False

OmniDocs API

Q 1: Which API is used for connecting Cabinet?

- a. NGOConnectDataBase
- b. NGOConnectCabinet**
- c. NGOConnectServer
- d. NGConnectSystem

Q 2: Which API is used to create folder in OmniDocs?

- a. NGOCreateFolder
- b. NGOInsertFolder
- c. NGOAddFolder**
- d. None of these

Q 3: NGOGetFolderIdForName API is used for?

- a. To fetch Folder name
- b. To fetch Folder Index**
- c. To fetch Folder properties
- d. None of these

Q 4: API which is used to fetch list of DataClass available in cabinet?

- a. NGOGetDataDefList
- b. NGOGetDataClassList
- c. NGOGetDataClassListExt
- d. NGOGetDataDefListExt**

Q 5: NGOIsAdmin validates?

- a. whether the logged in user is a member of the public Group
- b. whether the logged in user is a member of the Everyone Group
- c. whether the logged in user is a member of the Supervisor Group

500.

None

Q 6: Which status Code will get return in case of successful execution of API

- a. 1
- b. 0
- c. 11
- d. None of these

Q 7: In which tag session ID will pass for API

- a. <SessionID>
- b. <UniqueID>
- c. <UserDBID>
- d. None of these

Q 8: Which tags are mandatory for all API

- a. Option, CabinetName
- b. CabinetName, TableName
- c. IndexID, DataClassTag
- d. All Tags Are Mandatory

Q 9: API Stands For

- a. Application Programming Interface
- b. Application Package Import

c. Application Package Information

d. All of the above

Q 10: From which call you can get Session ID?

a. NGOGetSessionID

b. NGOGetUserDBId

c. NGOConnectCabinet

d. None of the above

How to get list of Data Definition in the System? Marks:1

- NGOGetDataDefListExt
 - NGOGetDataDefinitionListExt
 - NGOGetDataDefinitionList
NGOGetDataDefList
-
1. NGOGetGroupListExt : To get list of groups in cabinet/system
 2. SetGlobalDateFormat() : To set dateformat for all date types in one go
 3. NGOGetGroupProperty :To get property of a group in omnidocs
 4. NGOGETDATADEFLISTEXT : To get data definition list
 5. NGOProcessLocks : The functionality of locking and unlocking of document, folder or Cabinet can be achieved using this transaction. By providing the VersionNo, any particular Version of a document can be locked.
 6. NGOetidfromname() : To get an objects index from name
 7. NODELETEGLOBALINDEX() : API used to remove global index from system
 8. NODELETEGLOBALINDEXFromDocument() : API used to dissociate global index from document.

How to obtain id of a folder/document knowing only its name? Marks:1

- `•NGOGetIdForName`
- `•NGOGetIdFromName`
- `•NGOObtainIdFromName`
- `•NGOObtainIdForName`

Which call is used to obtain the Log generated for the objects like user, group, document, folder etc?
Marks:1

- `•NGOGetLog`
- `•NGOGetObjectLog`
- `•NGOFetchLog`
- `•None`

How to achieve the functionality of locking and unlocking of document, folder or Cabinet? Marks:1

- `•NGOGetSetLocks`
- `•NGOSetGetLocks`
- `•NGOPerformLocks`
- `•NGOProcessLoc`

OmniDocs Web API

1:- What is omnidocs web API

1. Newgen created web based framework using which we create custom applications
2. Newgen created web based framework for running omnidocs application
3. Newgen created web based framework for the integration of any external application with OmniDocs.
4. Newgen created web based framework for running newgen created web applications

2:- We can create web API that connects with omnidocs

1. With an username and password
2. With omnidocs user session id
3. Both of Above
4. Web API does not have provision to connect with OD. Explicit connection need to be established.

3:- We can

1. Add, modify and delete applications in web API
2. Add, modify but can't delete application
3. Add, delete but can't modify application
4. Only add application

4:-Which integration type is not available in Web API

1. Document View
2. Folder View
3. Document List
4. Folder List

5:-We can sort the document list by its type

1. True
2. False
3. Sorting is not allowed

6:-Which option is available under “View Search Result In” option of web API in omnidocs

1. List View
2. List Box
3. List
4. None of these

7:- Which search option is not available in Integration type Document List

1. Document Name

2. Data Class
3. Folder
4. None of these

8:- Time out in web API is defined in

1. Minutes
2. **Seconds**
3. Milliseconds
4. Nanoseconds

9:- It is mandatory to define criteria when data class search option is selected

1. **True**
2. False

10:- In web API

1. We create application and omnidocs provides its name
2. It is mandatory to provide the application name
3. Application name is user defined.
4. Application name is mandatory and can be only system defined.

1. 1 and 2
2. 2 and 3
3. 1, 3 and 4
4. 1, 2 and 4

OmniDocs Architecture Questions

1. OmniDocs Architecture is based on
 1. Model View Controller
 2. Model viewer container
 3. Mode view controller
 4. Model controlled view

2. Does OmniDocs Architecture support platform independence
 1. No
 2. Yes
 3. Depends on how it is deployed
 4. No, as it is purely desktop based application

3. OmniDocs Server architecture is based on below platform

1. J2EE
2. .net
3. Both j2ee and .net
4. J2ME

4. How does OmniDocs achieves Platform independence

1. Using web services
2. Using .net API
3. Using file sharing approach
4. Using XML based API

5. Is OmniDocs Architecture Scalable

1. Yes, scalable horizontally
2. No , Not scalable
3. Yes, Can be scaled horizontally
4. It is scalable horizontally and vertically both

6. How does OmniDocs Server components in interact with SMS

1. Using web service passing SMS port as input to web service
2. Using xml based API mentioning SMS port

3. Using TCP/IP on SMS port
4. Using JNDI lookup on application server port

7. How does OmniDocs web component interact with the server (EJB) component?

1. Using TCP/IP on port http port
2. Using JNDI lookup on Application Server port
3. Using xml based API and establishing connection using JNDI lookup
4. Using xml based API and establishing connection using TCP/IP on http port

8. What components are deployed on Web server in distributed deployment of OmniDocs

1. EJB and war
2. Only EJB
3. EAR and EJB
4. Only WAR

9. What components are deployed on Application server in distributed deployment of OmniDocs

1. EJB and war
2. Only EJB
3. EAR and EJB
4. Only WAR

10.
How does OmniDocs EJB components connect to database

1. Using ODBC bridge
2. Using JDBC-ODBC bridge
3. Using JDBC API
4. Using System DSN

11.
Which Component of the OmniDocs is actually used by End user using browser

1. OmniDocs Web component
2. OmniDocs EJB component
3. Both Web and EJB components
4. None of the above

12.
Which one is incorrect with respect to OmniDocs Architecture

1. OmniDocs web component directly interact with Database
2. OmniDocs web component never interacts with Database directly
3. OmniDocs EJB component directly interact with Database
4. OmniDocs web component interacts with Database via EJB component

13.
Where does the OmniDocs application stores the web session level information on Application Server and Web server

1. On EJB components
2. In Java Beans on EJB Components
3. In Web Components of OmniDocs
4. In Both EJB and Server components

14.

Which one is correct regarding OmniDocs deployment and functioning

1. OmniDocs need at-least on backend database for deployment and function
2. OmniDocs can run without any database
3. OmniDocs can run with database and without database also
4. OmniDocs maintains data in windows file system in SMS
5. None of the above
6. All of the above

15.

Can web browser directly interact with EJB components of OmniDocs

1. Yes
2. Yes , if EJB components are deployed on web server
3. No, only OmniDocs web components can be accessed directly via web browser.
4. None of the above

Q 1: Which of the identifier is not used as Folder identifier?

- a. Fix Page
- b. Barcode
- c. Barcode Sticker
- d. Extract from defined Document**

Q 2: In document Section which is not used in Saved Image type?

- a. Halftone
- b. Millions of Colors**
- c. Grayscale 8-bit
- d. Color 8 bit

Q 3: Which of the compression scheme cannot be applied on color images?

- a.G4**
- b.JPEG
- c.LZW
- d. PackBits

Q 4: Image cannot be exported in Image Format from OmniScan?

- a.TIFF
- b.PDF
- c.JPEG**
- d. PDFA

Q 5: Which is not a type of Data Extract in Data Section?

- a.OCR

b.ICR

c. HDD File Name

d. Image Assisting data entry

Q 6: Which version of Dot Net framework is not supported by OmniScan ?

a. Dot Net framework 1.0

b. Dot Net framework 2.0

c. Dot Net framework 3.0

d. Dot Net framework 3.5

Q 7: MDB stands for?

a. Microsoft Access Database

b. Master Database

c. Multiple Access Database

d. Microsoft Excel Database.

Q 8: What is ManageTemplate?

a. To manage OmniScan Exporting.

b. To manage and create OmniScan template.

c. To manage image importing process.

d. To manage Scanner Interface.

Q 9: Which section is not available in ManageTemplate GUI?

a. Data Section

b. Folder Section

c. DataClass Section

d. Importing Section

Q 10: Which ScanType is supported in OmniScan?

- a. Simplex
- b. Duplex.
- c. Both a and b**
- d. None of these

Q 11: Which is not a valid data type in Data section in OmniScan?

- a. Float
- b. Boolean**
- c. String
- d. DateTime

Q 12: Which type of File format cannot be imported in OmniScan?

- a. Docx**
- b. DCX
- c. TIF
- d. Pdf

Q 13: How can we register cabinet through OmniScan?

- a. By using TCP
- b. By using HTTP
- c. By using FTP
- d. Both a and b**

Q 14: Image editing in OmniScan possible or not?

- a. True**
- b. False

Q 15: Can we create new DataClass in OmniDocs through OmniScan?

a. True

b. False

A job in OmniScan is a

- 1.
5. Collection of images
6. **Collection of records**
7. Collection of database
8. None of the above

11. What option is used to create a new template or to update an existing one

1. Create Template
2. Update Template
3. **Manage Template**
4. Modify Template

12. Which data field property user need to set if he wants its value to be entered for single record and once saved, should get reflected in all other records.

1. Global Index
2. Read Only
3. Update To all
4. **Carry Forward**

13.

What kind of Data Extraction is not supported in Omniscan

- OMR
- MICR
- OCR
- Barcode

14.

What option is not available in Omniscan as Folder Identifier

1. Blank Page
2. Barcode

c) Extract from the defined document

1.

3.

Fix page

15.

What option to use to export the job just after creation of records.

1. Auto Upload
2. Auto Export

c) Export All

1.

3.

No such feature available

16.
What is **Ready for Export** option in Omniscan.

1. It asks for user confirmation before exporting to OD
2. It asks for user confirmation before exporting to OF
3. **This** feature allows user to move the job (mdb + image) to a local system folder for future export.
4. No such feature available

17.
Which section is not a mandatory section to be filled while creation of template in OmniScan.

1. Data Section
2. Data Class Section
3. Folder Section
4. **Job** **Section**

18.
Which lowest version framework is required to run OmniScan.

1. NET framework 1.0
2. **NET** **framework 2.0**
3. NET framework 3.0
4. .Net framework 3.5

19.
Which exe to run to launch Omniscan.

1. **NGBulkScan.exe**
2. NGOmniscan.exe
3. Omniscan.exe
4. Bulkscan.exe

20.

Addins section is defined in which ini.

1. **Job.ini**
2. NGAppSettings.ini
3. NGBulkScan.ini
4. None of these

12) Which of these image types cannot be imported?

- a) TIF
- b) JPEG
- c) **DOC**
- d) GIF

13) Which section to fill to allow distributed scanning?

- a) Export Features
- b) Miscellaneous
- c) **Flow Section**
- d) User Defined Section

14) What is the maximum length of a string a text field?

- a) 255
- b) 8000
- c) 32000
- d) 64000

15) While exporting the record, which option is not available?

- a) Export All
- b) Export New
- c) Export Current
- d) Export Previous

16) Is it possible to run multiple instances of Omniscan?

- a) No This feature is not available.
- b) Yes multiple instances can run by default.
- c) While installing Omniscan, we define how many instances we need to run at a time.

d) By configuring NGBulkScan.ini we can run multiple instances of Omniscan

17) What database Mgt system Omniscan use to store information about all records and jobs.

- a) Microsoft SQL server
- b) Oracle
- c) MySQL
- d) Microsoft Access

18) Is it possible to maintain Omniscan template at a centralized location and all Scanning machine will download it from there?

- a) Yes, need to change ngbulkscan.ini
- b) Not possible

c) Need to define “Setup :-> Preferences :-> INI Settings” option in Omniscan window

d) Need to define “Setup :-> Preferences :-> Download Settings” option in Omniscan window

19) Is it possible to save any template as default template and same will be opened without prompting user to select one when he clicks on new?

a) Yes, need to change ngbulkscan.ini

b) Not possible

c) Need to define “Setup :-> Preferences :-> Save Configuration” option in Omniscan window

d) Need to define “Setup :-> Preferences :-> Save New Job Configuration” option in Omniscan window

20) Is it possible to save exporting credentials once entered and user will not be asked to enter again while exporting and saved credentials will be used?

a) Yes, need to change ngbulkscan.ini

b) Not possible

c) Need to define “Setup :-> Preferences :-> Save Configuration” option in Omniscan window

d) Need to define “Setup :-> Preferences :-> Save New Job Configuration” option in Omniscan window

Q) Compression for color image??

- Jpeg
- g4
- Lzw
- none

Q) Can we have user defined job name in OmniScan?

- YES
- NO

Q) Meaning for carryforward for indexes in DataSection?

- carry forward index name in next job
- carry forward index value in next job
- carry forward index value in next record
- none

Q) In OS default option for folder name?

- Job No
- Operator Name
- Ini name

Q) Compression for gray image??

- Jpeg
- g4
- jpg
- Lzw

Q) Image functionality supported by omniscan??

- Deskew
- rotate

- despackle
- all

Q) Scan protocol supported by omniscan??

- Autoscan
- twain
- autodisplay
- simplex

Q) Barcode symbology to extract barcode??

- Findbarcode
- extractbarcode
- code128
- landscape

[JSP/Templates/CustomLinks](#)

5.

Which of the following name is used to map the Custom Form with Production workdesk:

1. wfdesktop
2. wfdesk
3. dataform
4. none of above.

6.
What class is required to be included to access WFSession

1.
 1. com.wfdesktop.session.OFSession
 2. com.newgen.session.ODSession
 3. com.wfdesktop.session.Session
 4. **com.newgen.wfdesktop.session.WFSession**
 5. newgen.com.wfdesktop.OFSession

7.
Which class contains the information about logged in user's name:

1. **WFSession**
2. WFApplication
3. WFUtility
4. ngfuserservlet

8.
Which is the folder structure where customized forms are located

1. **CustomForms**

2. CustomJobs
3. CustomizedForms
4. Forms

9.

User A registered a process with the name Process1, in the Cabinet OFCAB. Its Process definition id is 10, and designed to be processed by 10 activities. Select the folder naming location which is usually used to store the JSP forms.

1. Forms_Process1_10
2. Forms_10_OFCAB
3. OFCAB_Process1_10
4. **Forms_OFCAB_10**

10.

Name of JSP Form name should match the exact case of the NGF form which was used to associate on a particular workstep.

1. **True**
2. False

11.

It is mandatory to associate NGF form even if JSP form is being used in process.

1. **True**
2. False
3. In case of JSP form, NGF association is not required.

12. Through JSP forms, users can change the data even if no modify rights is provided.

1. True
2. False
3. **Data can also be updated using other APIs.**

13. Select the correct naming convention to map the fields to the data

1. **Name="Wdesk:Control1"**
2. Name="Control1"
3. Name="dataForm: Control1"
4. There is no such naming convention to map fields with the data. It supports each format.

14.

Which of the following data fields can be accessed in JSPs form:

1. External Table
2. Queue Variables
3. Complex Structure variables
4. **All of the above**

15.

Which of the following method can be used to know if the open Workitem is Read Only stage OR in Editable Stage:

1. **getViewMode()**
2. getWorkitemState()
3. getWorkitemMode()
4. getWorkitemCurrentMode()

16.

Which of the following method can be used to know if the open Workitem is Read Only stage OR in Editable Stage:

1. **getViewMode()**
2. getWorkitemState()
3. getWorkitemMode()
4. getWorkitemCurrentMode()

17. Frameset can be used in default workdesk view with customized template JSPs:

1. True
2. **False**

18. Select the correct folder naming convention which is usually used to customized the workdesk view:

1. **<cabinet name>_<process definition id>_<workstage id>**
2. <cabinet name>_<workstage id>_<process definition id>
3. <cabinet name>_<queue id>_<process definition id>
4. <cabinet name>_< process definition id >_< workstage id >

19. Which of the following objects can be accessed through JSP Form:

1. To do List
2. Document
3. Exception
4. **All of the above**

20. Which of the following attribute is used to launch the URL through Custom Link:

1. LaunchCustomURL
2. **LaunchURL**
3. LaunchIPURL
4. LaunchCustomPageURL

21. Which of the following Omniflow class is used to parse xmls:

1. com.wfdesktop.newgen.xmlapi
2. **com.newgen.wfdesktop.xmlapi**

3. `com.wdesktop.newgen.xmlapi`
4. `com.desktop.newgen.xmlInterface`

22.

Custom Links can only be possible in Webdesktop module:

1. True
2. **False**

JAVA

Which is the valid declaration within an interface definition? Marks:2

- `public double methoda();`
- `public final double methoda();`
- `static void methoda(double d1);`
- `protected void methoda(double d1);`

Which is a valid declaration of a String? Marks:2

- `String s1 = null;`
- `String s2 = 'null';`
- `String s3 = (String) 'abc';`
- `String s4 = (String) '\ufeed';`

OmniFlow

Entry settings are not defined for which workstep? Marks:2

•Introduction

- Standard Workdesk
- DMS Adaptor
- Exit Workstep

When is a process checked-In with 'Create new version' as an option: Marks:2

- - A new version of the process is created and the new process data is copied against this new version
 - Default queues for all the worksteps are created again for newly created version
 - All the existing versions of the process are deleted
 - All of the above

To undo the changes made to a checked out process, user should : Marks:2

- Check-In the process with 'Overwrite' option
- Check-out the process again
- Un-register the process and Register the process again

•Undo check out the process

Before calling CompleteWorkItem, what operation is needed Marks:1

- Work-item should be locked with same user
- Work-item should be opened

- No mandatory operation is needed
- None of the above

Maker-checker feature can be used on which operation? Marks:2

- Create External Table
- Process Enable/Disable
- Create Table

- New interface inclusion in Process

What is the name of class which initiates execution flow in ngfUser.jar? Marks:1

- ngfrmbld
- ngfUserInterface
- ngfUser
- None of the above

Rules cannot be associated with _____ Marks:2

- Exceptions
- Todo List
- Triggers
- Documents

Constant's name can be changed from? Marks:2

- For Registered Processes, open Constants dialog, select a constant, rename it and click modify.
- For Local Processes, open Constants dialog, select a constant, rename it and click modify.

- For Registered Processes, change them from Variable Alias option.
- None of the above

OmniFlow supports the following database/s: Marks:2

- MSSQL, ORACLE, and POSTGRESQL
- MSSQL only
- ORACLE only
- POSTGRESQL only

Which one of the following is correct? Marks:2

- Collect workstep can be used without any distribute workstep.
- Collect workstep used when atleast two distribute workstep present in the process.
- Collect workstep is used only if distribute workstep is used.
- None of the above.

Which of the following is the very first event of Form which is invoked after opening workitem: Marks:1

- Opening
- Load
- FieldValueBagSet
- Initialized

My Queue contains: Marks:2

- - the list of workitems pending for the user
 - the list of all the workitems of all the queues
 - the list of only those workitems on which user has rights
 - None of the above

Where is a registered template used? Marks:2

- In Launch Application Trigger
- In Data Entry Trigger
- In Set Trigger
- In Generate Response Trigger

getJSObject() method is used to get the: Marks:1

- - JSObject of current webpage in which applet is running
 - JSObject of all the webpages in the application
 - JSObject in case any custom webpage is designed
 - None of the above

Which one of the following is correct? Marks:2

- - Complex type variable is defined over queue variable
 - For complex type variables external table has to be defined

- •For complex type variable mapping and relation has to be defined
- •Both 1st & 2nd are correct

getUserName() method is used to get the: Marks:1

- •UserName of current logged in user of OmniFlow
- •Computer Name on which user is working
- •Domain user Name of machine
- •None of the above

OmniFlow API interface is based on: Marks:1

- •Java
- •XML
- •VB
- •None of the above

getWFProcessName() method is used to get the: Marks:1

- •Process Name on which form is associated
- •Process Name on which user is working
- •Currently enabled process name

- •None of the above

For List of Workitems from dynamic Queue which call to be used: Marks:1

- - WFFetchWorkItems
- •GetNextWorkitem
- •There is no API available
- •None of the above

Database

Which SQL statement is used to delete data from a database? Marks:2

- DELETE
- COLLAPSE
- REMOVE
- HACK

With SQL, how do you select all the columns from a table named "Persons"? Marks:2

- SELECT Persons
- SELECT * FROM Persons
- SELECT [all] FROM Persons
- SELECT *.Persons

With SQL, how do you select all the records from a table named "Persons" where the value of the column "FirstName" is "Peter"? Marks:2

- SELECT [all] FROM Persons WHERE FirstName='Peter'
- SELECT * FROM Persons WHERE FirstName='Peter'
- SELECT [all] FROM Persons WHERE FirstName LIKE 'Peter'
- SELECT * FROM Persons WHERE FirstName<>'Peter'

Which SQL statement is used to update data in a database? Marks:2

- •SAVE
- •UPDATE
- •MODIFY
- •SAVE AS

MDM

In MDM, which of the following is not included in Action Items tab? Marks:1

- Items modified by owner
- Items waiting for approval
- Items confirmed by owner
- None of the above

•

What does MDM stand for: Marks:1

- •Master Data Management

- •Master Database Manipulation
- •Master Database Management
- •Master Data Modification

Context Path of classifier is? Marks:1

- •classifier
- •mdm
- •Both of the above
- •None of the above

Which of these is one of the MDM constraints? Marks:1

- •Table should have atleast one foreign key
- •Table should have atleast one primary key
- •Table should have either a primary key or foreign key
- •None of the above

Audit log of operations in MDM signifies: Marks:1

- •Logging and history generation of operations
- •Enables user to view the history of operations done by him/her
- •Enables user to view history of table between some specific dates

- •All of the above

MDM can import: Marks:1

- - Only exported tables
 - Only tables created through MDM interface
 - Tables created through database as well as from MDM interface
 - None of the above

In MDM, which of the following user has all the rights on the table? Marks:1

- - Supervisors only
 - User which has supervisors rights
 - Normal User
 - Both 1st & 2nd options

Which constraint is imposed for tablename while adding table through MDM? Marks:1

- Table name should contain only numbers
- Table name should contain only alphanumeric letters
- Table name should contain only alphanumeric letters or hyphen with first letter starting with alphabets
- None of the above

[Others](#)

Which of these image types cannot be imported? Marks:2

- TIF
- JPEG
- DOC
- GIF

If the database's data has changed, you then need to reload the DataGrid control to display the new data. Which method will you use in VB.NET? Marks:1

- - Datagrid1.refresh()
 - Datagrid1.currencymanager.refresh()
 - DataGrid1.ResetCurrencyManager()
 - DataGrid1.ResetBindings()

CLR is : Marks:1

- - is an execution engine for all .net application
 - is similar to JVM as in Java
 - defines standard rules for defining .Net compliant languages
 - is a compiler

What does LDAP stands for: Marks:2

- - Light weight Directory access Protocol
 - Light weight Dictionary access Protocol
 - Light weight Directory access Permissions
 - Light weight Document access Protocol

WAR files are: Marks:2

- packaging of Web files
- packaging of EJBs
- Both of the above
- None of the above

What is CTS in .NET? Marks:1

- Describes a set of features that different languages have in common
- Defines a set of rules for all compilers to generate manage code for .NET
- Define rules concerning data types
- None of the above

Which of these is the root class in .NET? Marks:1

- - System.data
 - System. Drawing
 - System.linq
 - System.object

Which of the following is bind to objects in a collection and use it for navigation in VB .NET? Marks:1

-
- Binding Manager
- Currency Manager
- Binding Context
- None of the above

Calling API can be eased due to use of: Marks:1

-
- NGCallBroker
- WFShared.jar
- WFS_Ejb.jar
- None of the above

API are available under the license of : Marks:1

-
- Development
- Enterprise
- Testing
- None of the above

Which method of NGCallBroker is used for calling API: Marks:1

- - makecall
- •execute
- •returncall
- •None of the above

Web Services are capable of: Marks:1

- - A standard method for describing data
- •A standard message format for communicating request and response
- •A method to discover what Web Services are available at any site
- •All of the above

In VB.NET, which namespace contains classes that allow a compiler or tool to generate metadata and Microsoft intermediate language (MSIL)? Marks:1

- - System.Reflection
- •System.Reflection.Emit
- •System.Reflection.Assembly
- •System.Resources

Following is the sequence to allocate memory to global, local, static variables in .Net? Marks:1

- - global, local, static
- - static, global, local
- - local, static, global
- - global, static, local

Q. 1 What is the size limit for dataclass name in OmniDocs? Marks:2

- 256
- 128
- 64**
- Unlimited

Q. 2 Repeater is more closely related to: Marks:2

- Listview**
- Textbox
- Frame
- None of the above

Q. 3 Which is the valid declaration within an interface definition? Marks:2

- public double methoda();**

- public final double methoda();
 - static void methoda(double d1);
 - protected void methoda(double d1);
-

Q. 4 Which is/are true about Form Builder control? Marks:2

- Checkbox and option button are similar in functionality
 - Checkbox and option button are not similar in functionality**
 - Listview and listbox are same controls
 - None of the above
-

Q. 5 Which of these image types cannot be imported? Marks:2

- TIF
 - JPEG
 - DOC**
 - GIF
-

Q. 6 In which format Newgen forms can be saved? Marks:2

- Text format
 - Doc format
 - Ngf format**
 - None of the above
-

Q. 7 Entry settings are not defined for which workstep? Marks:2

•**Introduction**

- Standard Workdesk
 - DMS Adaptor
 - Exit Workstep
-

Q. 8 To undo the changes made to a checked out process, user should : Marks:2

- Check-In the process with 'Overwrite' option
 - Check-out the process again
 - Un-register the process and Register the process again
- Undo check out the process**
-

Q. 9 WAR files are: Marks:2

- packaging of Web files
 - packaging of EJBs
- Both of the above**
- None of the above
-

Q. 10 Choose the correct one: Marks:2

- It is possible to assign right for Dataclass**
- It is possible to assign right for Global Index
- Both of the above

- None of the above
-

Q. 11 Before calling CompleteWorkItem, what operation is needed Marks:1

- Work-item should be locked with same user**

- Work-item should be opened
 - No mandatory operation is needed
 - None of the above
-

Q. 12 Maker-checker feature can be used on which operation? Marks:2

- Create External Table
 - Process Enable/Disable
 - Create Table**
 - New interface inclusion in Process
-

Q. 13 Which is a valid declaration of a String? Marks:2

- String s1 = null;**
 - String s2 = 'null';
 - String s3 = (String) 'abc';
 - String s4 = (String) '\ufeed';
-

Q. 14 What is the name of class which initiates execution flow in ngfUser.jar? Marks:1

- ngfrmbld

•ngfUserInterface

•ngfUser

•None of the above

Q. 15 In BAM, if the user has been assigned Modify Report rights then: Marks:2

•user only able to modify the report

•user able to modify and delete the report

•user able to modify and generate the report

•**user able to modify ,generate and delete the report**

Q. 16 Add in section is defined in which of these INI? Marks:2

•NGAppSettings.ini

•NGBulkScan.ini

•**Job.ini**

•None of the above

Q. 17 Which SQL statement is used to delete data from a database? Marks:2

•**DELETE**

•COLLAPSE

•REMOVE

•HACK

Q. 18 How to get List of Groups in the System? Marks:1

- NGOGetGroupList
 - NGOGetGroupsListExt
 - NGOGetGroupsList
 - NGOGetGroupListExt**
-

Q. 19 In Form Builder, which of the control does not have zone property? Marks:2

- Listview
 - Frame**
 - Checkbox
 - None of the above
-

Q. 20 In MDM, which of the following is not included in Action Items tab? Marks:1

- Items modified by owner
 - Items waiting for approval
 - Items confirmed by owner**
 - None of the above
-

Q. 21 With SQL, how do you select all the columns from a table named "Persons"? Marks:2

- SELECT Persons
- SELECT * FROM Persons**
- SELECT [all] FROM Persons

- SELECT *.Persons
-

Q. 22 Which lowest version framework is required to run OmniScan? Marks:2

- NET framework 1.0
 - NET framework 2.0**
 - NET framework 3.0
 - NET framework 4.0
-

Q. 23 What is CTS in .NET? Marks:1

- Describes a set of features that different languages have in common
 - Defines a set of rules for all compilers to generate manage code for .NET
 - Define rules concerning data types**
 - None of the above
-

Q. 24 In which of the following cases a user can perform sharing of folder in OmniDocs?
Marks:2

- If user is an owner of the folder.
 - If user is a member of supervisor group.
 - If user is member of the group having assign right privilege.
 - In all of the above cases.**
-

Q. 25 Choose the correct one: Marks:2

- It is possible to associate Global Index to Folder only
- It is possible to associate Global Index to Folder & Document
- It is possible to associate Global Index to Document only**
- All the above are correct

Q. 26 Rules cannot be associated with _____ Marks:2

- Exceptions
- Todo List
- Triggers**
- Documents

Q. 27 Constant's name can be changed from? Marks:2

- For Registered Processes, open Constants dialog, select a constant, rename it and click modify.
- For Local Processes, open Constants dialog, select a constant, rename it and click modify.**
- For Registered Processes, change them from Variable Alias option.
- None of the above

Q. 28 With SQL, how do you select all the records from a table named "Persons" where the value of the column "FirstName" is "Peter"? Marks:2

- SELECT [all] FROM Persons WHERE FirstName='Peter'**

•**SELECT * FROM Persons WHERE FirstName='Peter'**

•SELECT [all] FROM Persons WHERE FirstName LIKE 'Peter'

•SELECT * FROM Persons WHERE FirstName<>'Peter'

Q. 29 Which one of the following is correct? Marks:2

•Collect workstep can be used without any distribute workstep.

•Collect workstep used when atleast two distribute workstep present in the process.

•**Collect workstep is used only if distribute workstep is used.**

•None of the above.

Q. 30 How to get list of Data Definition in the System? Marks:1

•**NGOGetDataDefListExt**

•NGOGetDataDefinitionListExt

•NGOGetDataDefinitionList

•NGOGetDataDefList

Q. 31 Which of the following is bind to objects in a collection and use it for navigation in VB .NET? Marks:1

•Binding Manager

•**Currency Manager**

•Binding Context

•None of the above

Q. 32 Which of the following is the very first event of Form which is invoked after opening workitem: Marks:1

•Opening

•**Load**

•FieldValueBagSet

•Initialized

Q. 33 My Queue contains: Marks:2

•**the list of workitems pending for the user**

•the list of all the workitems of all the queues

•the list of only those workitems on which user has rights

•None of the above

Q. 34 In OmniDocs, Supervisor can add folder at the following: Marks:2

•Root level

- Sub folder
- Both of the above**
- None of the above

Q. 35 Calling API can be eased due to use of: Marks:1

- NGCallBroker**
- WFSshared.jar
- WFS_Ejb.jar
- None of the above

Q. 36 What does MDM stand for: Marks:1

- Master Data Management**
- Master Database Manipulation
- Master Database Management
- Master Data Modification

Q. 37 A job in OmniScan is a: Marks:2

- Collection of images

•**Collection of records**

•Collection of database

•None of the above

Q. 38 What does LDAP stands for: Marks:2

•**Light weight Directory access Protocol**

•Light weight Dictionary access Protocol

•Light weight Directory access Permissions

•Light weight Document access Protocol

Q. 38 Which SQL statement is used to update data in a database? Marks:2

•SAVE

•**UPDATE**

•MODIFY

•SAVE AS

Q. 39 Can we change the display name of the fields in BAM: Marks:2

•Yes, while creating report

•Yes, while modifying report

•BAM do not provide such feature

•Both option 1st & 2nd

Q. 40 In OmniFlow Form Custom coding, NGF_GetMsgString() method is used to: Marks:1

•Override any localized message of FormApplet

- Show any error message on form
- Fetch message content and code of message
- None of the above

Q. 41 Where is a registered template used? Marks:2

- In Launch Application Trigger
- In Data Entry Trigger
- In Set Trigger
- In Generate Response Trigger

Q. 42 Which method of NGCallBroker is used for calling API: Marks:1

•makecall

- execute
- returncall
- None of the above

Q. 43 Which of the following statement is true about form height in Form Builder? Marks:2

- Its dimensions are in mm
 - Its dimensions are in pixels**
 - Its height cannot be more than a limit
 - It cannot be set at design time
- -----

Q. 44 Context Path of classifier is? Marks:1

- classifier**
 - mdm
 - Both of the above
 - None of the above
- -----

Q. 45 OmniFlow supports the following database/s: Marks:2

- MSSQL,ORACLE, and POSTGRESQL**
 - MSSQL only
 - ORACLE only
 - POSTGRESQL only
- -----

Q. 46 CLR is : Marks:1

- is an execution engine for all .net application
 - is similar to JVM as in Java
 - defines standard rules for defining .Net compliant languages**
 - is a compiler
-
-

Q. 47 Which of these is the root class in .NET? Marks:1

- System.data
 - System. Drawing
 - System.linq
 - System.object**
-
-

Q. 48 Which of these is one of the MDM constraints? Marks:1

- Table should have atleast one foreign key
 - Table should have atleast one primary key**
 - Table should have either a primary key or foreign key
 - None of the above
-
-

Q. 49 getJSObject() method is used to get the: Marks:1

•**JSObject of current webpage in which applet is running**

•JSObject of all the webpages in the application

•JSObject in case any custom webpage is designed

•None of the above

Q. 50 How to obtain id of a folder/document knowing only its name? Marks:1

•NGOGetIdForName

•**NGOGetIdFromName**

•NGOObtainIdFromName

•NGOObtainIdForName

Q. 51 Which one of the following is correct? Marks:2

•Complex type variable is defined over queue variable

•For complex type variables external table has to be defined

•**For complex type variable mapping and relation has to be defined**

•Both 1st & 2nd are correct

Q. 52 getUsername() method is used to get the: Marks:1

•**UserName of current logged in user of OmniFlow**

- Computer Name on which user is working
 - Domain user Name of machine
 - None of the above
-
-

Q. 53 How to achieve the functionality of locking and unlocking of document, folder or Cabinet?
Marks:1

- NGOGetSetLocks
 - NGOSetGetLocks
 - NGOPerformLocks
 - NGOProcessLocks**
-
-

Q. 54 Audit log of operations in MDM signifies: Marks:1

- Logging and history generation of operations
 - Enables user to view the history of operations done by him/her
 - Enables user to view history of table between some specific dates
 - All of the above**
-
-

Q. 55 Web Services are capable of: Marks:1

- A standard method for describing data
- A standard message format for communicating request and response**

- A method to discover what Web Services are available at any site
- All of the above

Q. 56 MDM can import: Marks:1

- Only exported tables
- Only tables created through MDM interface
- Tables created through database as well as from MDM interface**
- None of the above

Q. 57 getWFProcessName() method is used to get the: Marks:1

- Process Name on which form is associated**
- Process Name on which user is working
- Currently enabled process name
- None of the above

Q. 58 OmniFlow API interface is based on: Marks:1

- Java
- XML**
- VB

- None of the above

Q. 59 Which API to be used to delete/remove GlobalIndex from system? Marks:1

- NGORemoveGlobalIndex
- NGOModifyGlobalIndex
- NGODeleteGlobalIndex**
- Not Possible

Q. 60 In VB.NET, which namespace contains classes that allow a compiler or tool to generate metadata and Microsoft intermediate language (MSIL)? Marks:1

- System.Reflection**
- System.Reflection.Emit
- System.Reflection.Assembly
- System.Resources

Q. 61 Following is the sequence to allocate memory to global, local, static variables in .Net? Marks:1

- global, local, static
- static, global, local**
- local, static, global
- global, static, local

Q. 62 For List of Workitems from dynamic Queue which call to be used: Marks:1

- WFFetchWorkItems
 - GetNextWorkitem
 - There is no API available**
 - None of the above
- -----

Q. 63 What API would you use to dissociate globalindex from document Marks:1

- NGORemoveGlobalIndexFromDoc
 - NGODisAssociateGlobalIndexFromDocument
 - NGORemoveGlobalIndexFromDocument
 - NGODeleteGlobalIndexFromDocument**
- -----

Q. 64 In MDM, which of the following user has all the rights on the table? Marks:1

- Supervisors only
 - User which has supervisors rights
 - Normal User
 - Both 1st & 2nd options**
-

Q. 65 Which constraint is imposed for tablename while adding table through MDM? Marks:1

- Table name should contain only numbers
 - Table name should contain only alphanumeric letters
 - Table name should contain only alphanumeric letters or hyphen with first letter starting with alphabets**
 - None of the above
-

Q. 66 Which call is used to obtain the Log generated for the objects like user, group, document, folder etc? Marks:1

- NGOGetLog
 - NGOGetObjectLog
 - NGOFetchLog**
 - None
-

Q. 67 API are available under the license of : Marks:1

- Development**
 - Enterprise
 - Testing
 - None of the above
-

Q. 68 When is a process checked-In with 'Create new version' as an option: Marks:2

- A new version of the process is created and the new process data is copied against this new version
- Default queues for all the worksteps are created again for newly created version**
- All the existing versions of the process are deleted

- All of the above
-

Q. 69 If the database's data has changed, you then need to reload the DataGrid control to display the new data. Which method will you use in VB.NET? Marks:1

- Datagrid1.refresh ()
 - Datagrid1.currencymanager.refresh()
 - DataGrid1.ResetCurrencyManager()
 - DataGrid1.ResetBindings()**
-

OMNISCAN

Q1) In OmniScan, which type of identifier is not supported for folder identifier? Marks:1

Option C

Barcode

Barcode Sticker

Extract from Form

Blank Page

Q2) Which section is to be filled so as to allow distributed scanning? Marks:1 Option B

Export Features

Miscellaneous

Flow Section

User Defined Section

Q3) In OmniScan, how many document types can be defined in Doc Type section?

Marks:1 Option D

225

1000

255

Unlimited

Q4) Following feature is not provided in export to OmniFlow from OmniScan: Marks:1
Option A

Delete workitem

Create workitem

Move to next stage

Update workitem

Q5) In OmniScan, Addins section is defined in which ini? Marks:1 Option C

Job.ini

NGAppSettings.ini

NGBulkScan.ini

None of the above

Q6) In OmniScan, following is not the type available to export the records to DMS:
Marks:1 Option B

Export All

Export Previous

Export New

Export Current

Q7) What is/are the scanning protocols supported in OmniScan? Marks:1 Option A

TWAIN only

ISIS only

Both TWAIN and CT Scanning Protocol

Both TWAIN and ISIS

Q8) Which Scan Protocol is supported by OmniScan?

Marks:1

Option B

Auto Scan

Twain

Auto Display

Simplex

Q9) In which section of INI, user can define indexes?

Marks:1

Option A

DataClass Section

Job Section

Export Section

Data Section

Q10) Managed Code is used for which of these DLL type? Marks:1

Option B

VB

Dot NET

C++

None of the above

Q11) A job in OmniScan is a: Marks:1

Option B

Collection of images

Collection of records

Collection of database

None of the above

Q12) Is it possible to maintain OmniScan template at a centralized location and all scanning machine will download it from there? Marks:1 Option C

Yes, need to change ngbulkscan.ini

Not possible

Need to define "Setup :-> Preferences :-> INI Settings" option in OmniScan window

Need to define "Setup :-> Preferences :-> Download Settings" option in OmniScan window

Q13) Is it possible to run multiple instances of OmniScan? Marks:1 Option D

No, this feature is not available.

Yes, multiple instances can run by default.

While installing OmniScan, we define how many instances we need to run at a time

By configuring NGBulkScan.ini we can run multiple instances of OmniScan

Q14) Which type of external dll is not supported in OmniScan? Marks:1 Option C or D

Managed dll

COM dll

Flat dll

None of the above

Q15) Which type of compression should be set for Color Image? Marks:1 Option B

G4

JPEG

LZW

None of the above

Q16) In OmniScan which type of extraction is supported for document identifier? Marks:1
Option C

OCR

OMR

Extract from Form

HDD File Name

Q17) What is the optimized way of exporting document from OmniScan to OmniFlow and OmniDocs? Marks:1 Option B

Multi call export.

Single call export.

Both of the above take same time

None of the above

Q. 18 OmniScan uses which Database Management System to store information about all records and jobs? Marks:1 Option D

Microsoft SQL server

Oracle

MySQL

Microsoft Access

Q. 19 In OmniScan, which data field property user needs to set if he/she wants its value to be entered for single record and once saved, it should get reflected in all other records.

Marks:1 Option D

Global Index

Read Only

Update To all

Carry Forward

Q. 20 Which is not Scan Protocol? Marks:1 Option D

Twain

ISIS

Paper scanner

TCP

Q. 21 Which section is not a mandatory section to be filled while creation of template in OmniScan? Marks:1 Option D

Data Section

Data Class Section

Folder Section

Job Section

Q. 22 In OmniScan, which is the Barcode symbology used to extract the barcode? Marks:1
Option C

FindBarcode

ExtractBarcode

Code128

Landscape

Q. 23 Which of the following image format is not supported for exporting from OmniScan:

Marks:1 Option B

TIF

JPEG

PDF

PDF/A

Q. 24 In OmniScan, which Scan Type used to scan the images? Marks:1 Option A

Duplex

Double Scan

Fast Scan

Rotate Scan

Q. 25 What option to use to export the job just after creation of records in OmniScan?

Marks:1 Option C

Auto Upload

Auto Export

Export All

No such feature is available

Q. 26 Which lowest version framework is required to run OmniScan? Marks:1 Option B

NET framework 1.0

NET framework 2.0

NET framework 3.0

.Net framework 3.5

Q. 27 Delete Job after Export. What does it mean? Marks:1 Option C

Close the job after export

Close the Database and image after export

Delete the Database and Images after Export

Close OmniScan after export

Q. 28 In OmniScan, is it possible to save exporting credentials once entered and user will not be asked to enter again while exporting and saved credentials will be used? Marks:1 Option C

Yes, need to change ngbulkscan.ini

Not possible

Need to define "Setup :-> Preferences :-> Save Configuration" option in OmniScan window

Need to define "Setup :-> Preferences :-> Save New Job Configuration" option in OmniScan window

Q. 29

Under which selected condition in folder section an error folder is created while saving a document?

Marks:1 Option B

Selecting Option 1 and folder already exists

Selecting Option 2 and folder already exists

Selecting Option 1 and folder does not exists

Selecting Option 2 and folder does not exists

Q. 30

Choose the wrong statement : Option A

Marks:1

Multiple users cannot be assigned in different systems who can enhance image quality

OmniScan captures documents in a centralized system

In OmniScan user can remove speckles, deskew images, adjust page orientation and more

Organizations look for Centralized Bulk Scanning to optimize their scanning operations

Q. 31 By default which OCR engine is enabled in OmniScan? Marks:1 Option C

Kadmos

Caere

Tesseract

Abbyy

Q. 32 What is Ready for Export option in OmniScan? Marks:1 Option C

It asks for user confirmation before exporting to OmniDocs

It asks for user confirmation before exporting to OmniFlow

This feature allows user to move the job (mdb + image) to a local system folder for future export.

No such feature is available

Q. 33 In OmniScan, to select any particular field from the document which field is to be clicked?

Marks:1 Option A

Get Zone

Get Data

Set Zone

Any of the Above

OMNIDOCs

Q. 1 OmniDocs Server architecture is based on below platform: Marks:1

J2EE---correct

.Net

Both J2EE and .NET

J2ME

Q. 2 Which full text search engine we use for MS-SQL? Marks:1

Lucene---correct(shyad)

Microsoft Full-Text Engine for SQL Server (MSFTESQL)

FAST

None of the above

Q. 3 What is the timeout option in the OmniDocs Web API? Marks:1

This is the time in seconds, when the user is not using the application then after the specified time, session gets expired.--correct

This is the time limit in milliseconds within which the request should reach from the client to server.

This is the time in milliseconds, when the user is not using the application then after the specified time, session gets expired.

This is the time limit in seconds within which the request should reach from the client to server.

Q. 4 SMS in OmniDocs supports caching. Marks:1

Trues

False

Q. 5

What is OmniDocs?

Marks:1

A desktop based application for managing and viewing the documents stored

A web based application for managing and viewing the documents stored---correct

Both of the above

None of the above

Q. 6 A user wants to fetch information about the customer-related folders existing in the cabinet. In this case, the user will select the particular data class in the _____ report and generate the report.

Marks:1

Corporate skills

Enterprise Content

Folder Data

Product Knowledge

Q. 7 We can have more than one web-server in OmniDocs? Marks:1

True

False

Q. 8 Select the correct URL for registering the cabinet for the OmniDocs Admin. Marks:1

<dbname>/admin/main/register/registration.htm

<machinename>/admin/main/registration/register.htm

<servername>/admin/main/registration/registration.jsp---correct

<ip>/admin/register/registration.htm

Q. 9 Only ____ files can be used as an icon for Custom Tabs in OmniDocs? Marks:1

png

jpg

svg

tif

Q. 10 It is possible to have more than one web server for OmniDocs deployment. Marks:1

True

False

Q. 11

OmniDocs is built on:

Marks:1

J2EE--correct

VB

.Net

None of the above

Q. 12 Does OmniDocs Architecture support platform independence? Marks:1

NO

Yes--correct

Depends on how it is deployed

No, as it is purely desktop based application

Q. 13 In OmniDocs, a WebAPI can have following themes?

A. Classic

B. Professional

C. Oceanic

D. None of the Above

E. Any color can be chosen Marks:1

Only B, C

Only D

Only E

Only A, B, C

Q. 14 Using the OmniDocs Web API, a user can have the following advantages:

A. Create an application for configuring any external system for Image Enabling.

B. Configure the display functionality to customize the view to whether a single document or document list is to be displayed.

C. Generate and use the sample integration code to be used in the external application for carrying out the integration activity. Marks:1

Statement A & B are correct.

Statement B & C are correct.

Statement C & A are correct

All the above statements are correct.

Q. 15 What is OmniDocs Web API? Marks:1

Newgen created web based framework using which one create custom applications

Newgen created web based framework for running OmniDocs application

Newgen created web based framework for the integration of any external application with OmniDocs--correct

Newgen created web based framework for running Newgen created web applications

Q. 16 Even distribution of jobs and associated communications across the computing and networking resources is termed as _____ Marks:1

Distributed System

Fail Over

Load Balancing

Shared System

Q. 17 Multiples volumes can be created on a single site in OmniDocs. Marks:1

True--correct

False

Q. 18 In OmniDocs, in order to perform replication in such a way so that the data that is getting added at the Source should also get added at the replica site at the same time. Marks:1

Immediate Replication--correct

Delayed Replication

Both of the above

None of the above

Q. 19 In OmniDocs, Landing Page Configuration is applicable only for: Marks:1

System Tabs

Custom Tabs

Only for Document Search

Both the options 1st and 2nd

Q. 20 Volume is a _____ unit in OmniDocs. Marks:1

logical--correct

physical

methodical

basic

Q. 21 What is a Site? Marks:1

Location where application server is running

Location where OmniDocs is installed

Location Wrapper is running

Location where Image Files are stored and can be accessed thereafter--correct

Q. 22

OmniDocs is built using robust server-side _____ technologies

Marks:1

Java and J2EE--correct

C++

Java

Android

Q. 23 Each Image Volume has a _____. This is where the documents of that image volume get added by default. Marks:1

Default Site

Home Site---correct

Preferred Site

None of the above

Q. 24 Which component of OmniDocs is actually used by end user using browser?

Marks:1

OmniDocs Web component--correct

OmniDocs EJB component

Both Web and EJB components

None of the above

Q. 25 OmniDocs does not support following database: Marks:1

Oracle

MYSQL----correct

Postgre SQL

MS SQL

Q. 26 OmniDocs LDAP

services_____

Marks:1

integrates with directory services for user authentication to ensure maximum security to the user data--correct

that helps to import documents and indexes to OmniDocs cabinets

are component of OmniDocs suite of applications and is used for acquiring documents and files from various sources to OmniDocs

All of above

Q. 27 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

A. omnidocs.war

B. Custom.war

C. Opall.war

D. eworkstyle.ini

E. ComponentIntegration.xml Marks:1

Only B, C, E---correct(confirm once)

Only A, D

Only A, B, D, E

Only B, D

Q. 28

User can view the last login details in OmniDocs. It displays_____.

Marks:1

The last login time, Last Login Failure Time, Failure Attempt Count

The last login time, Last Login Failure Time

The last login time, Last Login Failure Time, Last Login Username

The last login time, Failure Attempt Count, Last Login Username--correct

Q. 29 During Configuring Search in OmniDocs Admin, if All Data Classes check-box option is selected then: Marks:1

User is not able to select any data class

User is able to select data class

It is choice of a user, whether to select data class or not

None of the above

Q. 30

An account of the operations that are performed on the specified object (viz. cabinet, folder or document) by any of the members of the cabinet is:

Marks:1

Notifications

Action Items

Audit Log----correct

None of the above

Q. 31 How many volumes can be associated in OmniDocs? Marks:1

10

Only 1

Unlimited

None of the above

Q. 32 Multiple site can be added in same OmniDocs installation having same IP address
Marks:1

True

False-correct

Q. 33

_____D_____ is a component of Image Server in OmniDocs which provides the actual storage and retrieval of Image Data.

Marks:1

Image Management Server

Database Server

Image Storage Server

Storage Management Server

Q. 34

In OmniDocs, a _____ is a notification that would be flashed / emailed to all the selected users

Marks:1

sms

message

reminder

alert

Q. 35 Metadata for OmniDocs documents are stored in database. Marks:1

True--correct

False

Q. 36 Is FTS available immediately after a document has been uploaded? Marks:1

Yes, FTS is available immediately after a document has been uploaded

No, admin has to explicitly trigger text extraction for that document for FTS to work

No, uploading user has to explicitly trigger text extraction for that document for FTS to work

No, text will be extracted and indexed automatically in the next extraction cycle---correct

Q. 37 In OmniDocs “Create Shortcut” feature creates: Marks:1

New document of same size

Create document reference only--correct

Both of the above

None of the above

Q. 38 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Marks:1

Yes--correct

No

Q. 39

OmniDocs is _____, _____, platform-independent solution

Marks:1

DMS, multi-tiered

Scalable, multi-tiered--correct

Scalable, single-tiered

ECM, single-tiered

Q. 40 Immediate replication as well as delayed replication terms are related to which OmniDocs component? Marks:1

Site

Image

Data

Volume--correct

Q. 41 What are the components of Image Server?

Marks:1

Image Cabinet and SMS---correct

JTS and SMS only

JTS only

SMS only

Q. 42 What is the security feature related to dual authorization in user/group operations in OmniDocs called?

Marks:1

User data class

Maker-Checker---correct

Audit Log

None of the above

Q. 43 Which types of image documents are supported? Marks:1

TIFF

Scanned PDF

Both of the above--correct

None of the above

Q. 44 Expand OSA: Marks:1

OmniDocs System Administration---correct

OmniDocs Server Administration

OmniDocs System Applications

OmniDocs Server Applications

Q. 45 In OmniDocs, custom operations are defined for ____.

A. Folder

B. Document

C. Filepart

D. Record Marks:1

Only A, C

Only B, C

Only A, B, C

All of the above

Q. 46 What are Action Items?Marks:1

Define an action taken on document.

Define an action taken on folders

Action Item facilitates to automate a workflow through OmniDocs Shared Cabinet.

No such feature available--correct(confirm once)

Q. 47

Which of the following is true about Supervisor Rights Control in OmniDocs?

Marks:1

The rights of the supervisor at the supreme level still exist and supervisor can control everything.

The rights of the supervisor are removed and are restricted as a normal user of supervisor group.

Once removed the power of the supervisor, cannot be restored again.

All of the above

Q. 48 Is OmniDocs Architecture Scalable? Marks:1

Yes, scalable horizontally

No, Not scalable

Yes, scalable vertically

It is scalable horizontally and vertically both--correct(confirm once)

Q. 49 During Search Configuration / making a Search in OmniDocs Admin, Include Full text Search is applied on: Marks:1

Only on Document Search but not on Folder Search

Only on Folder Search but not on Document Search

This feature does not exist during making a Search---correct

On both Document and Folder Search

Q. 50 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

A. omnidocs.war

B. Custom.war

C. Opall.war

D. eworkstyle.ini

E. ComponentIntegration.xmlMarks:1

Only B, C, E--correct

Only A, D

Only A, B, D, E

Only B, D

Q. 51 Which full text search engine we use for Oracle? Marks:1

FAST

Oracle Text

Lucene

None of the above

Q. 52

Rights in OmniDocs can be assigned to _____.

Marks:1

User and supervisors only

User and groups only

User, groups and role only--correct

Groups, and role only

Q. 53 OmniDocs uses connection pool. Marks:1

True---correct

False

Q. 1 Each Image Archive is logically divided into one or more _____

- ☒ Image Volumes
- ☐ Logical Site
- ☐ Home Site
- ☐ Site

Q. 2 Which component of OmniDocs is actually used by end user using browser?

- ☒ OmniDocs Web component
- ☐ OmniDocs EJB component
- ☐ Both Web and EJB components
- ☐ None of the above

Q. 3 In OmniDocs "Create Shortcut" feature creates:

- ☐ New document of same size
- ☒ Create document reference only
- ☐ Both of the above
- ☐ None of the above

Q. 4

OmniDocs allows users to manage image as well as electronic documents in a _____

- ☐ multiple database
- ☐ multiple compressed
- ☒ single centralized
- ☐ dual compressed

Q. 5

OmniDocs Admin is also known as:

- ☐ Cabinet Management
- ☒ Document Management
- ☐ Queue Management
- ☐ Process Management

Q. 6 Choose the correct option:

- ☐ Supervisor User cannot be deleted
- ☒ Supervisor User can be deleted
- ☐ Both of the above.
- ☐ None of the above.

Q. 7 Where to define omnidocs_logs folder location?

- ☐ server.xml
- ☐ configuration..properties
- ☐ odlogconfig.properties
- ☒ log4j.properties

Q. 8

Operations that can be performed in OmniDocs:

- ☐ Scanning
- ☐ Indexing
- ☐ Storage
- ☒ All of the above

Q. 9 In OmniDocs, Document Addition will only be possible when users have:

- ☐ Rights on Folder
- ☐ Rights on Group
- ☐ Rights on Data Class
- ☒ Rights on Folder and Data Class

Q. 10 One can create Web API that connects with OmniDocs:

- ☐ With an username and password

- ☐ With OmniDocs user session id
- ☒ Both options 1st & 2nd
- ☐ Web API does not have provision to connect with OmniDocs. An explicit connection needs to be established.

Q. 11 OmniDocs Server architecture is based on below platform:

- ☒ J2EE
- ☐ .Net
- ☐ Both J2EE and .NET
- ☐ J2ME

Q. 12 Which option is available under "View Search Result In" option of Web API?

- ☐ List View
- ☐ List Box
- ☒ List
- ☐ None of the above

Q. 14 Which API is used for connecting Cabinet in OmniDocs?

- ☐ NGOConnectDataBase
- ☒ NGOConnectCabinet
- ☐ NGOConnectServer
- ☐ NGConnectSystem

Q 15. Options for creating users, group and data classes are present/available under:

- ☒ System Administration
- ☐ Configure Desktop
- ☐ Service Management
- ☐ License Management

Q. 16 In OmniDocs, dataclass can be attached to:

- ☐ Groups
- ☐ Users
- ☐ Roles
- ☒ None of the above

Q. 17 Select which among below is not an option while creating dataclass field in OmniDocs?

- ☒ Useful
- ☐ Mandatory
- ☐ Unique
- ☐ Size

Q. 18 What API would you use to dissociate globalindex from document

- ☐ NGORemoveGlobalIndexFromDoc
- ☐ NGODisAssociateGlobalIndexFromDocument
- ☐ NGORemoveGlobalIndexFromDocument
- ☒ NGODeleteGlobalIndexFromDocument

Q.19 Is OmniDocs Architecture Scalable?

- ☒ Yes, scalable horizontally
- ☐ No, Not scalable
- ☐ Yes, scalable vertically
- ☐ It is scalable horizontally and vertically both

Q. 20 In OmniDocs, RIS Stands for:

- ☒ Remote image server

- ☐ Remote information system
- ☐ Rational informatic system
- ☐ None of the above

OmniDocs API's Sample Quiz

Q 1: Which API is used for connecting Cabinet? **NGOConnectCabinet**

Q 2: Which API is used to create folder in OmniDocs? **c. NGOAddFolder**

Q 3: NGOGetFolderIdForName API is used for? **b. To fetch Folder Index**

Q 4: API which is used to fetch list of DataClass available in cabinet? **NGOGetDataDefListExt**

Q 5: NGOIsAdmin validates? **c. whether the logged in user is a member of the Supervisor Group**

What API would you use to check whether a user is Admin or not? **NGOIsAdmin**

API are available under the license of : **Development**

Calling API can be eased due to use of: **NGCallBroker**

Which call is used to obtain the Log generated for the objects like user, group, document, folder etc? **NGOFetchLog**

Which call to be used to associate the keywords with a document? **NGOAddKeywordsToDoc**

Rules cannot be associated with? **Triggers**

How to achieve the functionality of locking and unlocking of document, folder or cabinet? **NGOProcessLock**

Which call to be used to associate the Keywords with a document? **NGOAddKeywordsToDoc**

How to get list of groups in the system? **NGOGetGroupListExt**

Which method of NGCallBroker is used for calling API: **makeCall**

If API returns error code in positive number then it means: **Warning**

How to fetch property of an OmniDocs Group? **NGOGetGroupProperty**

OmniDocs

What is the size limit for dataclass name in OmniDocs? Marks:2

- 256
- 128
- 64
- Unlimited

Q) Define jndi port for OD in:-

- Eworkstyle.ini
- Server.xml
- Admin.xml
- NgoClientdata.xml

Doc from underlying OD can be Imported in OF?

- Yes
- No

Multiple sites with same IP can be added in OD?

- Yes
- No

Choose the correct one: Marks:2

•It is possible to assign right for Dataclass

•It is possible to assign right for Global Index

•Both of the above

•None of the above

How to get List of Groups in the System? Marks:1

•NGOGetGroupList

•NGOGetGroupsListExt

•NGOGetGroupsList

•NGOGetGroupListExt

In which of the following cases a user can perform sharing of folder in OmniDocs? Marks:2

•If user is an owner of the folder.

•If user is a member of supervisor group.

•If user is member of the group having assign right privilege.

•In all of the above cases.

In OmniDocs, Supervisor can add folder at the following: Marks:2

- - Root level
- - Sub folder
- - Both of the above
- - None of the above

Choose the correct one: Marks:2

•It is possible to associate Global Index to Folder only

•It is possible to associate Global Index to Folder & Document

•It is possible to associate Global Index to Document only

•All the above are correct

1:- What is omnidocs

- A desktop based application for managing and viewing the documents stored
- A web based application for managing and viewing the documents stored
- Both A and B
- None of these

2:- Omnidocs supports document searching on

1:-Data class, Global index, Document Name, owner and Specific Date

2:-Data Class, Global index, Document Name and Date Range

3:-Data class, Document Name, Global index, Date Range and owner

- 5.
- 1 and 2
6. 1 and 3
7. 2 and 3
8. None of these

6.
3:-We can assign rights to supervisor from omnidocs admin

3. True
4. False

4:-Omnidocs support folder search on

1:-Data class, Name, owner and Specific Date

2:-Data Class, Name and Date Range and Full Text Search

3:-Data class, Name, Date Range and owner

- 1 and 2
- Only 2
- 2 and 3
- Only 3

5:-It is possible to create a new version a document in omnidocs

5. Yes, by using check –in check-out feature
6. Yes, download document, modify it and re-upload the document
7. Yes download document delete it from omnidocs, change in downloaded document and upload
8. No, document versioning is not possible.

6:-We can add document of types

5. All types defined in admin.ini files
6. All types defined in provision.ini file
7. All types defined in mime.conf file
8. All types defined in uploadmime.conf file

7:-Which option related to document is not present in omnidocs

5. Link
6. Duplicate

7. Forward

8. Order

8:- We can logout OD client session from

5. Master Desktop screen

6. Custom Desktop screen

7. Both

8. None of these

9:- Maker Checker Feature can be applied to

5. Data Class

6. Site

7. Volume

8. None of Above

10:- In omnidocs we can assign rights on cabinet level

3. True

4. False

11:- Rights can be assigned to data class

5. At time of creation of data class

6. After creation

7. Both

8. Not possible

12:-We can search folder from omnidocs admin

3. True

4. False

13:-What is a Site

5. Location where application server is running

6. Location where omnidocs is installed

7. Location Wrapper is running

8. Location where Image Files are stored and can be accessed thereafter

14:- Available Security levels in omnidocs are

1:-Cabinet Level

2:-Object Level

3:-No Security

5. 1 and 2

6. 1 and 3

7. 2 and 3

8. 1,2 and 3

15:- How many types of user are there in Omnidocs

5. 2

6. 3

7. 4

8. 5

16:-Options for creating users, group and data classes are present under

5.

System Administration

6. Configure Desktop

7. Service Management

8. License Management

17:- We can assign data class to a document from

5.

Omnidocs Admin

6. Omnidocs Client

7. Both

8. None of these

18:- We can assign data class to a folder from

5.

Omnidocs Admin

6. Omnidocs Client

7. Both

8. None of these

19:- Global index can be associated with

- 5. Document
- 6. Folder
- 7. Both
- 8. None of these

20:-Multiples volumes can be created on a single site

- 3. True
- 4. False

OmniDocs API

Q 1: Which API is used for connecting Cabinet?

- a. NGOConnectDataBase
- b. NGOConnectCabinet
- c. NGOConnectServer
- d. NGConnectSystem

Q 2: Which API is used to create folder in OmniDocs?

- a. NGOCreateFolder
- b. NGOInsertFolder
- c. NGOAddFolder
- d. None of these

Q 3: NGOGetFolderIdForName API is used for?

- a. To fetch Folder name

b.To fetch Folder Index

c.To fetch Folder properties

d. None of these

Q 4: API which is used to fetch list of DataClass available in cabinet?

a.NGOGetDataDefList

b.NGOGetDataClassList

c. NGOGetDataClassListExt

d. NGOGetDataDefListExt

Q 5: NGOIsAdmin validates?

a.whether the logged in user is a member of the public Group

b.whether the logged in user is a member of the Everyone Group

c. whether the logged in user is a member of the Supervisor Group

501.

None

Q 6: Which status Code will get return in case of successful execution of API

a. 1

b. 0

c. 11

d. None of these

Q 7: In which tag session ID will pass for API

a. <SessionID>

b. <UniqueID>

c. <UserDBID>

d. None of these

Q 8: Which tags are mandatory for all API

a. Option,CabinetName

b. CabinetName,TableName

c. IndexID,DataClassTag

d. All Tags Are Mandatory

Q 9:API Stands For

a. Application Programming Interface

b. Application Package Import

c. Application Package Information

d. All of the above

Q 10: From which call you can get Session ID?

a. NGOGetSessionID

b. NGOGetUserDBId

c. NGOConnectCabinet

d. None of the above

How to get list of Data Definition in the System? Marks:1

- **NGOGetDataDefListExt**
- NGOGetDataDefinitionListExt
- NGOGetDataDefinitionList
NGOGetDataDefList

9. **NGOGetGroupListExt** : To get list of groups in cabinet/system
10. **SetGlobalDateFormat()** : To set dateformat for all date types in one go
11. **NGOGetGroupProperty** :To get property of a group in omnidocs
12. **NGOGETDATADEFINITIONTEXT** : To get data definition list
13. **NGOProcessLocks** : The functionality of locking and unlocking of document, folder or Cabinet can be achieved using this transaction. By providing the VersionNo, any particular Version of a document can be locked.
14. **NGOgetidfromname()** : To get an objects index from name
15. **NGODELETEGLOBALINDEX()** : API used to remove global index from system
16. **NGODELETEGLOBALINDEXFromDocument()** : API used to dissociate global index from document.

How to obtain id of a folder/document knowing only its name? Marks:1

- **•NGOGetIdForName**
- **•NGOGetIdFromName**
- **•NGOObtainIdFromName**
- **•NGOObtainIdForName**

Which call is used to obtain the Log generated for the objects like user, group, document, folder etc?
Marks:1

- **•NGOGetLog**
- **•NGOGetObjectLog**
- **•NGOFetchLog**

- None

How to achieve the functionality of locking and unlocking of document, folder or Cabinet? Marks:1

-
- NGOGetSetLocks
- NGOSetGetLocks
- NGOPerformLocks
- NGOProcessLoc

OmniDocs Web API

1:- What is omnidocs web API

5. Newgen applications created web based framework using which we create custom applications
6. Newgen created web based framework for running omnidocs application
7. Newgen created web based framework for the integration of any external application with OmniDocs.
8. Newgen applications created web based framework for running newgen created web applications

2:- We can create web API that connects with omnidocs

5. With an username and password
6. With omnidocs user session id

7. Both of Above

8. Web API does not have provision to connect with OD. Explicit connection need to be established.

3:- We can

5. Add, modify and delete applications in web API

6. Add, modify but can't delete application

7. Add, delete but can't modify application

8. Only add application

4:-Which integration type is not available in Web API

5. Document View

6. Folder View

7. Document List

8. Folder List

5:-We can sort the document list by its type

4. True

5. False

6. Sorting is not allowed

6:- Which option is available under “View Search Result In” option of web API in omnidocs

- 5. List View
- 6. List Box
- 7. List
- 8. None of these

7:- Which search option is not available in Integration type Document List

- 5. Document Name
- 6. Data Class
- 7. Folder
- 8. None of these

8:- Time out in web API is defined in

- 5. Minutes
- 6. Seconds
- 7. Milliseconds
- 8. Nanoseconds

9:- It is mandatory to define criteria when data class search option is selected

- 3. True

4. False

10:- In web API

5. We create application and omnidocs provides its name
6. It is mandatory to provide the application name
7. Application name is user defined.
8. Application name is mandatory and can be only system defined.

5. 1 and 2
6. 2 and 3
7. 1, 3 and 4
8. 1, 2 and 4

OmniDocs Architecture Questions

2. OmniDocs Architecture is based on
 1. Model View Controller
 2. Model viewer container
 3. Mode view controller
 4. Model controlled view

3.
Does OmniDocs Architecture support platform independence

1. No
2. Yes
3. Depends on how it is deployed
4. No, as it is purely desktop based application

4.
OmniDocs Server architecture is based on below platform

1. J2EE
2. .net
3. Both j2ee and .net
4. J2ME

5.
How does OmniDocs achieves Platform independence

1. Using web services
2. Using .net API
3. Using file sharing approach
4. Using XML based API

6.
Is OmniDocs Architecture Scalable

1. Yes, scalable horizontally

2. No , Not scalable
3. Yes, Can be scaled horizontally
4. It is scalable horizontally and vertically both

7.
How does OmniDocs Server components in interact with SMS

1. Using web service passing SMS port as input to web service
2. Using xml based API mentioning SMS port
3. Using TCP/IP on SMS port
4. Using JNDI lookup on application server port

8.
How does OmniDocs web component interact with the server (EJB) component?

1. Using TCP/IP on port http port
2. Using JNDI lookup on Application Server port
3. Using xml based API and establishing connection using JNDI lookup
4. Using xml based API and establishing connection using TCP/IP on http port

9.
What components are deployed on Web server in distributed deployment of OmniDocs

1. EJB and war
2. Only EJB
3. EAR and EJB

4. Only WAR

10.

What components are deployed on Application server in distributed deployment of OmniDocs

1. EJB and war
2. Only EJB
3. EAR and EJB
4. Only WAR

11.

How does OmniDocs EJB components connect to database

1. Using ODBC bridge
2. Using JDBC-ODBC bridge
3. Using JDBC API
4. Using System DSN

12.

Which Component of the OmniDocs is actually used by End user using browser

1. OmniDocs Web component
2. OmniDocs EJB component
3. Both Web and EJB components
4. None of the above

13.

Which one is incorrect with respect to OmniDocs Architecture

1. OmniDocs web component directly interact with Database
2. OmniDocs web component never interacts with Database directly
3. OmniDocs EJB component directly interact with Database
4. OmniDocs web component interacts with Database via EJB component

14.

Where does the OmniDocs application stores the web session level information on Application Server and Web server

1. On EJB components
2. In Java Beans on EJB Components
3. In Web Components of OmniDocs
4. In Both EJB and Server components

15.

Which one is correct regarding OmniDocs deployment and functioning

1. OmniDocs need at-least on backend database for deployment and function
2. OmniDocs can run without any database
3. OmniDocs can run with database and without database also
4. OmniDocs maintains data in windows file system in SMS
5. None of the above
6. All of the above

16.

Can web browser directly interact with EJB components of OmniDocs

1. Yes
2. Yes, if EJB components are deployed on web server
3. No, only OmniDocs web components can be accessed directly via web browser.
4. None of the above

Newgen Online Test
Newgen Online Test

[Click here to see instructions...](#)

- All questions are mandatory.
- There is no negative marking. So attempt as many questions as you can!
- After time completion the test will be submitted automatically. You can also use the submit button to submit the test.
- Please do not press Alt+F4.
- All the best!!!!!!

Q. 13 In OmniScan, "Auto Blank Page Removal" works when:

Marks:1

- Doc Type identifier is blank page
- Folder identifier is blank page
- In case of Duplex scanning -correct
- In case of Simplex scanning

note:

1.5.4 [Scan]

The Scan section consists of the following fields:

Scanner Protocol - This field is mandatory and can have either 'T' or 'I' as values.

'T' Implies scanning using the TWAIN protocol.

'I' Implies scanning using the ISIS protocol.

ScanType - This field is mandatory and can have either 'S' or 'D' as values.

'S' Implies for simplex scanning.

'D' Implies for duplex scanning.

+If duplex scanning is not supported by the scanner then the key value must be set as 'S'.

AutoBlankPageRemoval - If value is set as 'Y' then blank page(s) are automatically removed while scanning/importing the file. If blank page is not to be removed automatically then key value must be set as 'N'.

Q. 10 In OmniScan, what is the recommended DPI level needed to extract a barcode from image?

Marks:1

- 100 DPI -na
- 200 DPI -na
- 250 DPI
- 300 DPI -Correct

Note:

Incase images need to be used for OCR then it is recommended that imaged be scanned at 300 DPI. However if images are used only for archival purpose then 100 DPI scanning is also enough, however it is recommended that images be scanned at 200 DPI for better image quality.

it - by default the view is associated to which user group?Marks:1
It is associated with 'Business Admin' group by default
It is associated with 'Dashboard Users' group by default
It is associated with 'Everyone' group by default -na
It is mandatory to associate a user group with a view while defining it ----
-correct

Q. 6 In iBPS, on clicking of queue, WorkItems can be fetched in order of: Marks:1
Priority
Turn Around Time
External Variable Value
Bothe the options 1st & 3rd

Q. 13 In iBPS, on which type(s) of process(s) Quick search can be performed?
Marks:1
Variant Process
Non Variant Process
Both of the above
None of the above

Q. 14 In iBPS, Import Service is dependent on: -d -correct
Initiation Agent service
File Uploader Service -na
WFExport Service
None of the above

Q. 17 For cabinet registration in MSSQL SERVER database where do the cabinet and
database entries go? Marks:1
mssql-ds.xml
server.xml and odcablist.ini
eworkstyle.ini
All of the above

Q. 19 In iBPS, can one change positioning of WorkItem list operations to show on
WorkItem list component instead of drop (...) menu? Marks:1
Yes, through WorkList Preferences.
Yes, through custom coding in client.js
Yes, through ini settings.
No

Q. 22 What are various field constraint supported on data class? -c -correct
Unique
Mandatory
All of the above
None of the above

Q. 23 In iBPS, which of the following type of queues cannot be made using Queue
Management? Marks:1

System Queue

FIFO

Introduction Queue

Both the options 1st & 3rd

Q. 29 For the visual mapping screen while defining views in iBPS, which of the following statements is INCORRECT? Marks:1

The height of each row can be adjusted by specifying the pixel size needed -na

The width of each column can be adjusted by specifying the pixel size needed --
--correct

Individual component instances can be dragged and moved around to adjust their respective positions on the UI -na

Multiple cells can be merged into a single cell if needed -na

Q. 32 Suppose User wants to make any Search as a Landing Page, What are the Prerequisites? -d -correct

Search has rights for everyone

Even if Search has not rights for everyone, it can be set during making Search as Landing Page

No rights concept applied before making any Search as Landing Page

Both the options 1st & 2nd

Q. 39 In WorkItem list component (wrt iBPS), for Reassign option to be enabled, which of the following conditions should be met? Marks:1

Queue Type should be WIP and AllowReassignment should be set to Y -correct

Queue Type should be FIFO and AllowReassignment should be set to Y

Queue Type can either be FIFO or WIP, No additional setting required.

Option is enabled by default.

Q. 44 In iBPS, how to set default Document Viewer to OpAll Viewer? Marks:1

Set IsOpAll to Y in webdesktop.ini

Set IsApplet to N in webdesktop.ini

Both of the above -maybe

None of the above

Q. 46 How can FTS work if it cannot use database inbuilt search engine? -c -
correct

There is no way FTS can work without database support

Write code to index text

Use a third party text engine like Lucene

None of the above

Q. 66 Suppose User makes Search A as Favorite Search and Search B as Landing Page and Search Module is Landing Page for that user. Which search will be Landing Page?
-a -correct

Search A

Search B

Search A & B

None of the above

5 -na

Q. 14 In iBPS (Application Designer), how to connect the default login form with the rest of the forms? Marks:1

Passing the navigation form name in RouteCriteria ----correct

By using dbLinking

Through WebService
None of the above

Q. 9 In iBPS, for list of Workitems from dynamic Queue which call is to be used?
Marks:1

WMFetchWorkItems -correct
GetNextWorkitem
There is no API available
None of the above

Q. 21 Which API can be used for Hiding Sheets of a Tab Marks:1

NGRemoveTabSheet
setSheetVisible
hideSheetFromTab
Both the option 1st & 2nd -correct

Q. 8 Which logs can be used to check the backend API execution time in iBPS?
Marks:1

query.log
transaction.log -correct
console.log
server.log

Q. 7 Log location for iBPS server is: -c -correct

Working directory \nglogs\cabinetNmae\of_server
Working directory \nglogs\TracsactionFree\of_server
Both of the above
None of the above

Q. 5 Which API can be used for getting RowCount of Grid Control Marks:1

getListViewRowCount -na
getLVWRowCount -correct
getNGListCount -na
None of the above -na

Q. 1

Under which selected condition in folder section an error folder is created while saving a document?

Marks:1

Selecting Option 1 and folder already exists
Selecting Option 2 and folder already exists
Selecting Option 1 and folder does not exists
Selecting Option 2 and folder does not exists

Q. 22 Which API can be used for getting Collapsible/Expanded Form of a Frame
Marks:1

getNGState(String FrameId)
getNGFrameState(String FrameId) -correct
getFrameState (String FrameId)
There is no such API -na

Q. 3 Which method of NGCallBroker is used for calling iBPS API? Marks:1

makecall -correct
execute
return call
None of the above

Q. 1 In iBPS (Application Designer), what is the implication of a tile group that

is mandatory? Marks:1
All the tiles must be selected
The default tile is to be selected -na
At least one tile should be selected -correct
None of the above

Q. 4 For getting QueueList, the iBPS API used is: Marks:1
WMGetQueueList -correct
WMGetQueueItem
WMGetQueueProperty
None of these

Q. 10 Which iBPS API can be used to lock a particular WorkItem and fetch its attributes Marks:1
WFGetWorkitemDataExt -correct
WFGetWorkitemData -na
WMGetWorkItem -na
None of the above -na

Q. 1 In iBPS, how can a Group be associated with Queue?

Using Queue Management Component

Using User Management Component

Using Process Designer

All of the above

Q. 2 In iBPS, WorkItem sharing can be done with how many users at a time?

One

Two

Three

Multiple

Q. 3 In iBPS, who can change save changes to a WorkItem while WorkItem is in shared mode?

Any user to whom WorkItem is shared

Any Supervisor user to whom WorkItem is shared

Owner of the WorkItem

Any supervisor user.

Q. 4 In OmniFlow, Messaging Agent is configured in:

Process Manager

Process Modeler

Configuration Server

Processing Server

Q. 5 Operations can only be reverted in MDM if:

If Maker-checker functionality is enabled

User didn't commit the operation

Both of the above

None of the above

Q. 6 As per BPMN standards which statement is correct:

Mile Stones can have milestones with in them.

Swimlanes can have swimlanes with in them.

Pools can have swimlanes with in them.

Mile Stones can have Pools with in them.

Q. 7 In iBPS (BAM), who can modify or delete the templates defined by other user?

Only supervisor

None other than who creates it

All the users

None of the above

Q. 8 Which of the following feature(s) are available for OmniApp views?

View can be maximize and minimize

Component instance can be resized, dragged and dropped

Component instances can be restored

All of the above

Q. 9 Which all events are available for a section in event configuration within iForm?

OnFocus

OnChange

Load

All of the above

Q. 10 Work-item list cannot have:

Process-Instance-Id, Entry-Date-time

Queue Variables

Raised Exception Names

None of the above

Q. 11 In iBPS, WorkItem sharing can be done with how many users at a time?

One

Two

Three

Multiple

Q. 12 In iBPS, Component View can be configured through which application?

Process Modeler

OmniApp

Webdesktop

BAM

Q. 13 In iBPS, Decision WorkStep is also known as:

Event based Gateway

Data based Gateway

Data based Exclusive Gateway

Data based Inclusive Gateway

Q. 14 In iBPS, which among the following is NOT an Object type?

Process Client Menu

PMWEB Menu Management

BAM General Rights

Create Report

Q. 15 In iBPS, Queue List Component is available in which Default View?

Business Admin View

User Desktop View

Supervisor View

Process Designer View

Q. 16 In iBPS(Process Designer), which of the following is not an artifact in process?

Group Box

Annotation

Message End

Data Object

Q. 17 Which feature of MDM enables to take the input of the column from other table?

Custom picklist

Data Picklist

Associated Picklist

None of the above

Q. 18 In OmniFlow, Message Agent is used for?

Process Workitem from one queue to another queue

Creating Workitem history

Sending e-mails to mail server

None of the above

Q. 19 Documents/Images in OmniFlow application are viewed using:

Newgen Applet Viewer

Irfan Viewer

Imaging Professional

Picture and Fax viewer

Q. 20 How do you configure tab indexing in iForms?

via iForm properties

via control properties

Not Applicable

Both the options 1st & 2nd

Q. 21 In iBPS, what privileges a member of supervisor group has?

As defined for the user

All the privileges

All when privileges are not defined for user and User defined when privileges defined for the user

Has no privileges

Q. 22 In iForm, zoning is associated with:

Frame

Text box

Table

Header

Q. 23 In iBPS(Process Designer), which operation is not performed on a registered process:

Check-Out

Check-In

Save as Local

Enable Process

Q. 24 In OmniFlow, Initiating Agent is used for _____.

Creating Workitem through Email

Completing existing Workitem on the event of receiving Email

Adding email's attachment as a document with Workitem

All of the above

Q. 25 Which of the following is not a BPMN term:

Mile Stone

Pool

Group Box

Swimlane

Q. 1 In iBPS(Process Designer), which operation is not performed on a registered process:

Check-Out

Check-In

Save as Local

Enable Process

Q. 2 In OmniFlow, Message Agent is used for?

Process Workitem from one queue to another queue

Creating Workitem history

Sending e-mails to mail server

None of the above

Q. 3 What is the purpose of custom control id in iForms?

For identification of controls used in forms

For custom coding

Both of the option 1st & 2nd

Not an option in iForms

Q. 4 In iBPS, a user inherits rights from Profiles, Groups and User-Object Rights. What rights does that user finally have?

Union of rights. From Profiles , Groups and Object Rights

Intersection of all the Profiles, Groups and Object Rights

Profiles rights overwritten by Groups and Group rights overwritten by Users

None of the above

Q. 5 In iBPS, Constraints on reports are defined in BAM for:

Availability and downloading of reports

Viewing of reports

Both of the above

None of the above

Q. 6 In iBPS, WorkItem sharing can be done with how many users at a time?

One

Two

Three

Multiple

Q. 7 In iBPS, how to checkout an activity?

Open a local process, right click on a activity and click checkout.

Open a registered process, right click on a activity and click checkout.

Checkout of activity not possible.

None of the above.

Q. 8 In iBPS, who can change save changes to a WorkItem while WorkItem is in shared mode?

Any user to whom WorkItem is shared

Any Supervisor user to whom WorkItem is shared

Owner of the WorkItem

Any supervisor user.

Q. 9 In iBPS, can we delete default generated queues in Queue Management component?

No

Yes, All the queues.

Yes, but not Default System Queues.

Yes, but not Introduction Queues.

Q. 10 Work-Item can be introduced in:

Any of the Queue

Any of the Queue on which user have rights

Queues of type Introduction

Queues of type Introduction with rights

Q. 11 In iBPS, which of the following cannot be set as priority of WorkItem?

High

Very High

Urgent Attention

Both the options 2nd & 3rd

Q. 12 In iBPS, Process Management component allows to do which of the following operations?

Enabling/Disabling of process

Define TAT of process.

Unregistering process.

Both the options 1st & 2nd

Q. 13 _____ are the basic unit or basic components on which work or operations are done in the workflow in OmniFlow.

Workflow

Workstep

Workitems

Queue

Q. 14 In iBPS(Process Designer), minimum number of activities required in any milestone in process is/are:

0

1

2

3

Q. 15 In iBPS, to which group(s), Rights Management component should be available by default:

BusinessAdmin

ProcessDesigner

WebDesktop

All of Above

Q. 16 Documents/Images in OmniFlow application are viewed using:

Newgen Applet Viewer

Irfan Viewer

Imaging Professional

Picture and Fax viewer

Q. 17 Operations can only be reverted in MDM if:

If Maker-checker functionality is enabled

User didn't commit the operation

Both of the above

None of the above

Q. 18 In iForm, Background color can be applied on below controls?

Combo box

Radio button

Check box

All of the above

Q. 19 As per BPMN standards which statement is correct:

Mile Stones can have milestones with in them.

Swimlanes can have swimlanes with in them.

Pools can have swimlanes with in them.

Mile Stones can have Pools with in them.

Q. 20 Each OmniApp View can be associated with _____ Group.

One

Two

Multiple

Unique

Q. 21 Which of the following is not a BPMN term:

Mile Stone

Pool

Group Box

Swimlane

Q. 22 What two options are available for label-input alignment in iForm?

Top-down, Left-right

Left-right, Bottom-up

No option is available

Both of the option 1st and 2nd

Q. 23 If the theme is applied from OmniApp Configuration, it will be applied for:

Supervisor User

ProcessDesigner User

Desktop User

All Users

Q. 24 Audit log of operations in MDM signifies:

Logging and history generation of operations

Enables user to view the history of operations done by him/her

Enables user to view history of table between some specific dates

All of the above

Q. 25 In OmniFlow, PFE utility is used for _____.

Sending email

Sending email with attachment

Creating Workitem history

Both (a) & (b)

Q. 1 Queue Management is done through:

Process Manager

Process Modeler

Configuration Server

Processing Server

Q. 2 MDM web logs folder can be located in server with the name?

CF_logs

mdm_web

OF_Server

Pmw_logs

Q. 3 In iForm, Background color can be applied on below controls?

Combo box

Radio button

Check box

All of the above

Q. 4 In iBPS, which of these WorkSteps cannot have incoming and outgoing links?

Query

Introduction

Receive type Introduction

Custom WorkDesk

Q. 5 In OmniFlow, Message Agent is used for?

Process Workitem from one queue to another queue

Creating Workitem history

Sending e-mails to mail server

None of the above

Q. 6 In iBPS, WorkItem sharing can be done with how many users at a time?

One

Two

Three

Multiple

Q. 7 In iBPS, how many objects can be associated with user for an object type?

One

Two

Depends on the Object Type

Multiple

Q. 8 BAM stands for

Business Administrative Module

Basic Architecture Management

Business Activity Management

Business Activity Monitor

Q. 9 In iBPS, who can change save changes to a WorkItem while WorkItem is in shared mode?

Any user to whom WorkItem is shared

Any Supervisor user to whom WorkItem is shared

Owner of the WorkItem

Any supervisor user.

Q. 10 Which of the following statements are correct?

i. WebDesktop can be run from OmniApp

ii. WebDesktop can be run standalone

Only (i) is correct.

Only (ii) is correct.

Both of the statements is correct.

None of the statements is correct.

Q. 11 This statement is wrt iBPS: Not All Object Types have Objects”.

True

False

Can't Say

Statement is Incomplete

Q. 12 Which combination is not as per BPMN:

Start – End

Parallel distribute – Parallel Collect

Inclusive distribute – Inclusive Collect

Receive – Reply

Q. 13 In OmniFlow, PFE utility is used for _____.

Sending email

Sending email with attachment

Creating Workitem history

Both (a) & (b)

Q. 14 A new workitem can be initiated only in:

Introduction Queue

FIFO Queue only

WIP Queue only

None of the above

Q. 15 Which feature of MDM enables to take the input of the column from other table?

Custom picklist

Data Picklist

Associated Picklist

None of the above

Q. 16 In iForm, zoning is associated with:

Frame

Text box

Table

Header

Q. 17 In iBPS, what types of methods are managed through Catalog Definition window?

External Functions

Method exposed as WebService

SAP functions

All of the above

Q. 18 In iBPS, which type of Viewer is currently supported in Webdesktop?

Applet Viewer

HTMLFormViewer

Both of the Above

None of the Above

Q. 19 Which of the following is not a BPMN term:

Mile Stone

Pool

Group Box

Swimlane

Q. 20 In iBPS, during WorkItem shared mode, how many users can simultaneously make changes in workitem?

One

Two

Three

Multiple

Q. 21 In iBPS (Process Designer), which WorkStep cannot be used to start/restart the process?

Introduction WorkStep

Receive WorkStep

Reply WorkStep

Message WorkStep

Q. 22 In OmniFlow, what flows from one queue to another?

WorkItem

Alert

Document

eMail

Q. 23 In iBPS, which one of the following options is not a standard interface?

To Do List

Exception

JMS Producer

Scan Tool

Q. 24 What two options are available for label-input alignment in iForm?

Top-down, Left-right

Left-right, Bottom-up

No option is available

Both of the option 1st and 2nd

Q. 25 Which of the following is not the default view available in OmniApp:

Business Admin

User Desktop

Supervisor

Process Designer

Q. 1 In iBPS, what is the use of query WorkStep in a process?

For searching any workitem

For searching any process

For searching any queue

None of the above

Q. 2 Which of the following files are not supported for uploading data into MDM tables?

Csv

Txt

Xls on Linux environment

All of the above

Q. 3 Each OmniApp View can be associated with _____ Group.

One

Two

Multiple

Unique

Q. 4 In iBPS, what does Rights Management do?

For giving rights on Process

For giving rights on Queue

For giving accessibility Rights to User

All of the above

Q. 5 In iBPS, a user inherits rights from Profiles, Groups and User-Object Rights. What rights does that user finally have?

Union of rights. From Profiles , Groups and Object Rights

Intersection of all the Profiles, Groups and Object Rights

Profiles rights overwritten by Groups and Group rights overwritten by Users

None of the above

Q. 6 Which combination is not as per BPMN:

Start – End

Parallel distribute – Parallel Collect

Inclusive distribute – Inclusive Collect

Receive – Reply

Q. 7 Workitem list cannot have:

Process-Instance-Id, Entry-Date-time

Queue Variables

Raised Exception Names

None of the above

Q. 8 Which feature of MDM enables to take the input of the column from other table?

Custom picklist

Data Picklist

Associated Picklist

None of the above

Q. 9 In iBPS, Process Management component allows to do which of the following operations?

Enabling/Disabling of process

Define TAT of process.

Unregistering process.

Both the options 1st & 2nd

Q. 10 The Queues in OmniFlow are similar to 'shared-in-baskets', which are available to multiple users for processing Workitems contained in them.

WorkInProgress Queue

Process Queue

Queue

None of the above

Q. 11 Which of the following is not a BPMN term:

Mile Stone

Pool

Group Box

Swimlane

Q. 12 In iForm, Background color can be applied on below controls?

Combo box

Radio button

Check box

All of the above

Q. 13 In iBPS, WorkItem sharing can be done with how many users at a time?

One

Two

Three

Multiple

Q. 14 In OmniFlow, Message Agent is used for?

Process Workitem from one queue to another queue

Creating Workitem history

Sending e-mails to mail server

None of the above

Q. 15 In OmniFlow, PFE utility is used for _____.

Sending email

Sending email with attachment

Creating Workitem history

Both (a) & (b)

Q. 16 In BAM (wrt iBPS), Manage Dashboard link is available to:

Normal and Design Mode of all users

Design Mode of all users

Normal and Design Mode of Supervisor users

Users having access to Dashboard users

Q. 17 In iBPS(Process Designer), report cannot be generated in which of the following format?

Doc

Html

pdf

odt

Q. 18 On the basis of what conditions, sheet handling is done in iForm?

Process Name

Activity Name

User Name

All of the above

Q. 19 As per BPMN standards which statement is correct:

Mile Stones can have milestones with in them.

Swimlanes can have swimlanes with in them.

Pools can have swimlanes with in them.

Mile Stones can have Pools with in them.

Q. 20 If the theme is applied from OmniApp Configuration, it will be applied for:

Supervisor User

ProcessDesigner User

Desktop User

All Users

Q. 21 _____ are the basic unit or basic components on which work or operations are done in the workflow in OmniFlow.

Workflow

Workstep

Workitems

Queue

Q. 22 In iBPS(Process Designer), which of the following can have duplicate name?

Start Event

Work Desk

Data Object

End Event

Q. 23 What are the different date types present in date picker within iForm?

Date picker and date time picker

Date time picker

Date picker and date time zone picker

All of the above

Q. 24 In iBPS, during WorkItem shared mode, how many users can simultaneously make changes in workitem?

One

Two

Three

Multiple

Q. 25 In iBPS, who can save the changes to a WorkItem while working in shared mode?

Any user to whom WorkItem is shared

Any Supervisor user to whom WorkItem is shared

Owner of the WorkItem if WorkItem is not in read-only mode

Any Supervisor user

Q. 1 In iBPS, how many type of layouts can be configured in WorkDesk?

Fixed, Editable Layouts

Editable Layout

No Layout is Defined

Multiple including Custom WorkDesk.

Q. 2 In iBPS, who can change save changes to a WorkItem while WorkItem is in shared mode?

Any user to whom WorkItem is shared

Any Supervisor user to whom WorkItem is shared

Owner of the WorkItem

Any supervisor user.

Q. 3 In iBPS, how can a Group be associated with Queue?

Using Queue Management Component

Using User Management Component

Using Process Designer

All of the above

Q. 4 Queue Management is done through:

Process Manager

Process Modeler

Configuration Server

Processing Server

Q. 5 MDM can import:

Only exported tables

Only tables created through MDM interface

Tables created through database as well as from MDM interface

None of the above

Q. 6 In OmniFlow, PFE utility is used for _____.

Sending email

Sending email with attachment

Creating Workitem history

Both (a) & (b)

Q. 7 In OmniFlow, Message Agent is used for?

Process Workitem from one queue to another queue

Creating Workitem history

Sending e-mails to mail server

None of the above

Q. 8 Which of the following statements are correct?

i. WebDesktop can be run from OmniApp

ii. WebDesktop can be run standalone

Only (i) is correct.

Only (ii) is correct.

Both of the statements is correct.

None of the statements is correct.

Q. 9 As per BPMN standards which statement is correct:

Mile Stones can have milestones with in them.

Swimlanes can have swimlanes with in them.

Pools can have swimlanes with in them.

Mile Stones can have Pools with in them.

Q. 10 In iBPS, how many objects can be associated with user for an object type?

One

Two

Depends on the Object Type

Multiple

Q. 11 In iForm, what is the default height and width of Image box?

H| 100, B| 100

H| 300, B| 300

H| 400, B| 400

None of the above

Q. 12 Which combination is not as per BPMN:

Start – End

Parallel distribute – Parallel Collect

Inclusive distribute – Inclusive Collect

Receive – Reply

Q. 13 In iBPS(Process Designer), CheckOut option is not available on which of the following?

Activity

Process

Project

Swim lane

Q. 14 In iBPS, WorkItem sharing can be done with how many users at a time?

One

Two

Three

Multiple

Q. 15 Which of the following statement is TRUE in context of Attach View functionality?

View must be present for mapping

Helps to map the table column with view column

Both of the above

None of the above

Q. 16 Documents/Images in OmniFlow application are viewed using:

Newgen Applet Viewer

Irfan Viewer

Imaging Professional

Picture and Fax viewer

Q. 17 In iBPS, how can we search workitems on based on registration number in Search component?

After selecting Process

After selecting Queue

After selecting Process and Queue

Without Selecting Process and Queue

Q. 18 In iBPS, what type associations can user have with groups/ profiles?

Permanent Assignment

Assignment till date

Both of the above

None of the above

Q. 19 Which all events are available for a section in event configuration within iForm?

OnFocus

OnChange

Load

All of the above

Q. 20 In iBPS(Process Designer), mandatory fields in defining the Mail Trigger are:

To

Cc

Priority

BCC

Q. 21 The property "label as a subsection" can be configured through which control in iForm?

Section Property

Theme Configuration

Label Property

None of the above

Q. 22 Which output formats are supported by iBPS (BAM)?

Xls, csv, pdf, txt, doc

Csv, xls, txt, pdf, html, xlsx

Pdf, xls, txt, pdf, html, jpg

Html, pdf, xls, csv, txt

Q. 23 The theme configured through OmniApp is specific to:

User Level Only

Group Level Only

Cabinet Level Only

Application Level Only

Q. 24 In iBPS (Process Designer), report cannot be generated in which of the following format?

Doc

Html

pdf

odt

Q. 25 How many times can a Work-Item be referred?

1

2

More than 3

None of the above

Q. 1 In iBPS(Process Designer), which of the following is not a type of priority level in the Requirements of any activity/process?

Critical

High

Medium

Low

Q. 2 In OmniFlow, PFE utility is used for _____.

Sending email

Sending email with attachment

Creating Workitem history

Both (a) & (b)

Q. 3

In OmniFlow exceptions are associated with different Worksteps through:

Raise Rights

Clear Rights

View Rights

All of the above

Q. 4 Within iBPS(BAM), Pop out button in Dashboard container helps to:

Open the report in new window

Open the container in new window

Open tab in new window

None of the above

Q. 5 The theme configured through OmniApp is specific to:

User Level Only

Group Level Only

Cabinet Level Only

Application Level Only

Q. 6 In iBPS, which component is used for setting WorkItem audit?

Audit Log

User Management

Process Management

Rights Management

Q. 7 In iBPS(Process Designer), for re-deployment of the process which of the following must to be modified

Process Name

Project Name

Registration No

Process Version

Q. 8 If the theme is applied from OmniApp Configuration, it will be applied for:

Supervisor User

ProcessDesigner User

Desktop User

All Users

Q. 9 How many date formats are available for date picker in iForm?

5

3

4

2

Q. 10 In iBPS, which among the following is not an Object type?

Process Client WorkList

PMWEB Menu Management

BAM General Rights

Create Report

Q. 11 What does MDM stand for?

Master Data Management

Master Database Manipulation

Master Database Management

Master Data Modification

Q. 12 Operations can only be reverted in MDM if:

If Maker-checker functionality is enabled

User didn't commit the operation

Both of the above

None of the above

Q. 13 What is the purpose of custom control id in iForms?

For identification of controls used in forms

For custom coding

Both of the option 1st & 2nd

Not an option in iForms

Q. 14 In iBPS, what type of rights can be given on the defined DocType?

View

Modify

Allow Addition

All of the above

Q. 15 In iForm, what is the default height and width of Image box?

H| 100, B| 100

H| 300, B| 300

H| 400, B| 400

None of the above

Q. 16 In OmniFlow, Message Agent is used for?

Process Workitem from one queue to another queue

Creating Workitem history

Sending e-mails to mail server

None of the above

Q. 17 In iBPS, during WorkItem shared mode, how many users can simultaneously make changes in workitem?

One

Two

Three

Multiple

Q. 18 In iBPS, who can change save changes to a WorkItem while WorkItem is in shared mode?

Any user to whom WorkItem is shared

Any Supervisor user to whom WorkItem is shared

Owner of the WorkItem

Any supervisor user.

Q. 19 _____ are the basic unit or basic components on which work or operations are done in the workflow in OmniFlow.

Workflow

Workstep

Workitems

Queue

Q. 20 Which of the following is not a BPMN term:

Mile Stone

Pool

Group Box

Swimlane

Q. 21 In iBPS, WorkItem sharing can be done with how many users at a time?

One

Two

Three

Multiple

Q. 22 How many times can a Work-Item be referred?

1

2

More than 3

None of the above

Q. 23 In iBPS, which one of the following options is not a standard interface?

To Do List

Exception

JMS Producer

Scan Tool

Q. 24 In iBPS, how can we create custom link in Web client?

As an external application component in omniapp.

As an internal application component in omniapp

Both of the above

None of the above

Q. 25 In iBPS, how many objects can be associated with user for an object type?

One

Two

Depends on the Object Type

Multiple

Q. 1 _____ are the basic unit or basic components on which work or operations are done in the workflow in OmniFlow.

Workflow

Workstep

Workitems

Queue

Q. 2 Each OmniApp View can be associated with _____ Group.

One

Two

Multiple

Unique

Q. 3 In User Management component of iBPS, users can be searched on which of the following criteria?

Filter on Process

Filter on Worksteps

Filter on Queue

Both the options 1st & 2nd

Q. 4 In OmniFlow, PFE utility is used for _____.

Sending email

Sending email with attachment

Creating Workitem history

Both (a) & (b)

Q. 5

In OmniFlow exceptions are associated with different Worksteps through:

Raise Rights

Clear Rights

View Rights

All of the above

Q. 6 Which of the following statement is TRUE in context of Attach View functionality?

View must be present for mapping

Helps to map the table column with view column

Both of the above

None of the above

Q. 7 In iBPS, how many objects can be associated with user for an object type?

One

Two

Depends on the Object Type

Multiple

Q. 8 In iBPS, how we can change value of dynamic constant defined in process?

Open Registered process in Process Designer and change.

Open Checked out process in Process Designer and change.

Through Process Management component in WebDesktop.

Both the options 2nd & 3rd

Q. 9 In iBPS, what privileges a member of supervisor group has?

As defined for the user

All the privileges

All when privileges are not defined for user and User defined when privileges defined for the user

Has no privilege

Q. 10 For multiple selection from a list, which control is used within iForm?

Combo Box

List Box

Text Box

None of the above

Q. 11 In iBPS, if one has associated all the WorkItem interfaces with activity then which of the following interfaces will be displayed by default in popup WorkItem?

Exception

Form, Document, Todo.

Form, Document.

Todo, Exception.

Q. 12 Within iBPS(BAM), Pop out button in Dashboard container helps to:

Open the report in new window

Open the container in new window

Open tab in new window

None of the above

Q. 13 As per BPMN standards which statement is correct:

Mile Stones can have milestones with in them.

Swimlanes can have swimlanes with in them.

Pools can have swimlanes with in them.

Mile Stones can have Pools with in them.

Q. 14 The property “label as a subsection” can be configured through which control in iForm?

Section Property

Theme Configuration

Label Property

None of the above

Q. 15 In iBPS, during WorkItem shared mode, how many users can simultaneously make changes in workitem?

One

Two

Three

Multiple

Q. 16 An Overlay gets opened for which of the control in iForm?

List View

Table

List Box

All of the above

Q. 17 In OmniFlow, Initiating Agent is used for _____.

Creating Workitem through Email

Completing existing Workitem on the event of receiving Email

Adding email's attachment as a document with Workitem

All of the above

Q. 18 In iBPS, what is the use of search variable?

For searching any process

For searching WorkItem

For searching variables

For searching queues

Q. 19 In OmniFlow, quick search can be made on:

Queue

Process-Instance-ID

Quick Search variables

All of the above

Q. 20 If the theme is applied from OmniApp Configuration, it will be applied for:

Supervisor User

ProcessDesigner User

Desktop User

All Users

Q. 21 Which combination is not as per BPMN:

Start – End

Parallel distribute – Parallel Collect

Inclusive distribute – Inclusive Collect

Receive – Reply

Q. 22 Which of the following is not a BPMN term:

Mile Stone

Pool

Group Box

Swimlane

Q. 23 In iBPS, which of these WorkSteps cannot have incoming and outgoing links?

Query

Introduction

Receive type Introduction

Custom WorkDesk

Q. 24 Which one of the following is NOT a feature of classifier?

Web based interface for database operations

Support for DDL operations

Support for DML operations

Support for developing reports

Q. 25 In iBPS, rule with Audit as an operation can be defined in _____?

WorkDesk

Distribute WorkStep

DataBased Exclusive WorkStep

None of the above

Q. 1 In iBPS, who can change save changes to a WorkItem while WorkItem is in shared mode?

Any user to whom WorkItem is shared

Any Supervisor user to whom WorkItem is shared

Owner of the WorkItem

Any supervisor user.

Q. 2 In iBPS, to which group(s), Rights Management component should be available by default:

Business Admin

Process Designer

Web Desktop

All of the above

Q. 3 Maker checker functionality enables:

Better control over data by enabling some users to perform table and data operations

Better control over data by authorizing supervisor user to approve the operation

User A to perform operation and User B to approve his/her operations

All of the above

Q. 4 On the basis of what conditions, sheet handling is done in iForm?

Process Name

Activity Name

User Name

All of the above

Q. 5 In iBPS, how can we search workitems that are at end event WorkStep?

By selecting All WorkItem option in Search Workitem options

By selecting In Process option in Search Workitem options

Not feasible

None of the above

Q. 6 In iBPS, each View can be associated with _____ Group.

One

Two

Multiple

Unique

Q. 7 In iForm, what is the default height and width of Image box?

H| 100, B| 100

H| 300, B| 300

H| 400, B| 400

None of the above

Q. 8 The Queues in OmniFlow are similar to 'shared-in-baskets', which are available to multiple users for processing Workitems contained in them.

WorkInProgress Queue

Process Queue

Queue

None of the above

Q. 9 In iBPS(Process Designer), which of the following can be placed outside swim lane?

Start Event

Work Desk

Text annotation

End Event

Q. 10 Which of the following files are not supported for uploading data into MDM tables?

Csv

Txt

Xls on Linux environment

All of the above

Q. 11 As per BPMN standards which statement is correct:

Mile Stones can have milestones with in them.

Swimlanes can have swimlanes with in them.

Pools can have swimlanes with in them.

Mile Stones can have Pools with in them.

Q. 12 How do you configure tab indexing in iForms?

via iForm properties

via control properties

Not Applicable

Both the options 1st & 2nd

Q. 13 Queue Management is done through:

Process Manager

Process Modeler

Configuration Server

Processing Server

Q. 14 In iBPS (BAM), filter criteria on report helps:

To filter the data of the report on report generation

To filter the columns of the report on report generation

Both of the above

None of the above

Q. 15 In iBPS, how many objects can be associated with user for an object type?

One

Two

Depends on the Object Type

Multiple

Q. 16 In iBPS(Process Designer), which operation is not performed on a registered process:

Check-Out

Check-In

Save as Local

Enable Process

Q. 17 In iBPS, which all formats are available in WebDesktop to save WorkItem History?

txt

xls

csv

All of the Above

Q. 18 Which of the following statements are correct?

i. WebDesktop can be run from OmniApp

ii. WebDesktop can be run standalone

Only (i) is correct.

Only (ii) is correct.

Both of the statements is correct.

None of the statements is correct.

Q. 19 In OmniFlow, Initiating Agent is used for _____.

Creating Workitem through Email

Completing existing Workitem on the event of receiving Email

Adding email's attachment as a document with Workitem

All of the above

Q. 20 In iBPS, how can we enable collaborative chat on a WorkItem?

Enabled by default for all workitems

Enabled on sharing workitem

Collaboration server must be running

Both the options 2nd & 3rd

Q. 21 In OmniFlow, PFE utility is used for _____.

Sending email

Sending email with attachment

Creating Workitem history

Both (a) & (b)

Q. 22 In OmniFlow, quick search can be made on:

Queue

Process-Instance-ID

Quick Search variables

All of the above

Q. 23 In iBPS(Process Designer), which of the following is not an option while saving the process:

Save as Same Version

Save as Major Version

Save as Previous version

Save as Minor Version

Q. 24 Which of the following is not a BPMN term:

Mile Stone

Pool

Group Box

Swimlane

Q. 25 In iBPS, during WorkItem shared mode, how many users can simultaneously make changes in workitem?

One

Two

Three

Multiple

Q. 1 SMS in OmniDocs supports caching.

Trues

False

Q. 2 OmniDocs is a desktop application

True

False

Q. 3 It is possible to have more than one web server for OmniDocs deployment.

True

False

Q. 4 We can have more than one web-server in OmniDocs?

True

False

Q. 5 OmniDocs supports following database cabinet:

Oracle

MS SQL

MySQL

Only option 1st & 2nd

Q. 6 Is FTS available immediately after a document has been uploaded?

Yes, FTS is available immediately after a document has been uploaded

No, admin has to explicitly trigger text extraction for that document for FTS to work

No, uploading user has to explicitly trigger text extraction for that document for FTS to work

No, text will be extracted and indexed automatically in the next extraction cycle

Q. 7 Choose the correct one:

It is possible to associate Dataclass to Folder only

It is possible to associate Dataclass to Folder & Document

It is possible to associate Dataclass to Document only

All the above are correct

Q. 8 In OmniDocs, custom operations are defined for ____.

A. Folder

B. Document

C. Filepart

D. Record

Only A, C

Only B, C

Only A, B, C

All of the above

Q. 9 How to add Custom Tab in OmniDocs?

Via Admin Console

Via ComponentIntegration.xml

Via OSA

via eworkstyle.ini

Q. 10 Choose the correct option:

User can be created at OmniDocs Admin

User can be created at OmniDocs Web/Client

Both of the above

None of the above

Q. 11 Does OmniDocs Architecture support platform independence?

NO

Yes

Depends on how it is deployed

No, as it is purely desktop based application

Q. 12 The authentication of the user's login attempts to Newgen application will be validated against domain authentication. This is the Newgen enhanced security feature:

Active Directory

Single Sign On

OmniDocs Authentication Manager (LDAP)

None of the above

Q. 13 In OmniDocs, the default admin port of SMS is:

2811

8080

900

10000

Q. 14

Which of the following is FALSE wrt to Newgen document archival solutions:

Post processing documents can be archived to external content server

Post processing archive documents is done automatically

Does not support archive to SAP archive link based content repository

None of the above is False

Q. 15 During volume creation in OmniDocs, size of Volume block represents:

Max size of the volume

Min size of the volume

Min Size of a PN file

Max Size of a PN file

Q. 16 OmniDocs Document viewer is built using which technology?

HTML-Ajax

Ajax-Json

Applet

None of the above

Q. 17 One can logout OmniDocs client session from:

Master Desktop screen

Custom Desktop screen

Both of the above

None of the above

Q. 18 Can web browser directly interact with EJB components of OmniDocs?

Yes

Yes, if EJB components are deployed on web server

No, only OmniDocs web components can be accessed directly via web browser.

None of the above

Q. 19 OmniDocs LDAP services_____

integrates with directory services for user authentication to ensure maximum security to the user data

that helps to import documents and indexes to OmniDocs cabinets

are component of OmniDocs suite of applications and is used for acquiring documents and files from various sources to OmniDocs

All of above

Q. 20 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

One has to write integration code.

Use Webservice

Use web-api

Not possible

Q. 1 Does OmniDocs Architecture support platform independence?

NO

Yes

Depends on how it is deployed

No, as it is purely desktop based application

Q. 2 Which one of the following is incorrect with respect to OmniDocs Architecture?

OmniDocs web component directly interact with Database

OmniDocs web component never interacts with Database directly

OmniDocs EJB component directly interact with Database

OmniDocs web component interacts with Database via EJB component

Q. 3 Bulk Upload to OmniDocs is:

TIFF based

TXT based

XLSX based

CSV based

Q. 4 What is the limit of document storage in OmniDocs?

10 GB

100 GB

1 TB

Unlimited

Q. 5 During Configuring Search in OmniDocs Admin, if All Data Classes check-box option is selected then:

User is not able to select any data class

User is able to select data class

It is choice of a user, whether to select data class or not

None of the above

Q. 6 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

One has to write integration code.

Use Webservice

Use web-api

Not possible

Q. 7 OmniDocs supports following browsers:

Internet Explorer

Netscape

Safari

Opera

Q. 8 Metadata for OmniDocs documents are stored in database.

True

False

Q. 9 Documents in OmniDocs can be classified in _____ types and they are_____.

Only Image Document, Only Data Documents & Image/Data Documents.

Image/Data Documents, Non Image Documents.

Non Image Documents, Single Page Documents & MultiPage Documents.

Image Documents & Non-Image Documents.

Q. 10 SMS in OmniDocs supports caching.

Trues

False

Q. 11

What is OmniDocs?

A desktop based application for managing and viewing the documents stored

A web based application for managing and viewing the documents stored

Both of the above

None of the above

Q. 12 OmniDocs is a desktop application

True

False

Q. 13

What would be the security level, to restrict Access Rights validation at folder and document level in OmniDocs?

Cabinet Level

No Security

Object Level

None of the above

Q. 14 Method of communication between web tier and middle tier:

socket connection

xml based

file read write

shared buffer

Q. 15 How to add Custom Tab in OmniDocs?

Via Admin Console

Via ComponentIntegration.xml

Via OSA

via eworkstyle.ini

Q. 16

Set of indexes that can be associated with the document or folder by providing the unique entity to them is:

Global Index

Data Class

Keywords

None of the above

Q. 17 Which full text search engine we use for Oracle?

FAST

Oracle Text

Lucene

None of the above

Q. 18 Multiple site can be added in same OmniDocs installation having same IP address

True

False

Q. 19 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

A. omnidocs.war

B. Custom.war

C. Opall.war

D. eworkstyle.ini

E. ComponentIntegration.xml

Only B, C, E

Only A, D

Only A, B, D, E

Only B, D

Q. 20 Choose the correct one:

It is possible to associate Dataclass to Folder only

It is possible to associate Dataclass to Folder & Document

It is possible to associate Dataclass to Document only

All the above are correct

Q. 1 What to do if a User wants to make document visible only to the owner or the supervisor?

Mark as Private

Inherited

Shared

Both 2nd & 3rd

Q. 2

Document Management Systems [DMS] helps an Organization to better manage _____
_____ of electronic documents.

Creation, Revision, and Approval

Creation, Revision, and Consumption

Creation, Revision, Approval, and Consumption

Creation, Approval, and Retrieval

Q. 3 By default the folders in OmniDocs have _____ sharing rights.

Public

Private

Inherited

Shared

Q. 4 Available Security levels in OmniDocs are:

i. Cabinet Level

ii. Object Level

iii. No Security

(i) and (ii)

(i) and (iii)

(ii) and (iii)

(i), (ii) and (iii)

Q. 5 A _____ is the site from where the user would wish to retrieve his documents

Preferred Site

Home Site

Default Site

Logical Site

Q. 6 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Yes

No

Q. 7 Which option related to document is not present in OmniDocs?

Link

Duplicate

Forward

Order

Q. 8 During Configuring Search in OmniDocs Admin, if All Data Classes check-box option is selected then:

User is not able to select any data class

User is able to select data class

It is choice of a user, whether to select data class or not

None of the above

Q. 9 In OmniDocs, Custom Actions are defined for which module?

OmniProcess

Repository

Search

Reports

Q. 10 One can logout OmniDocs client session from:

WebDesktop screen

Custom Desktop screen

Both of the above

None of the above

Q. 11 What is OmniDocs Web API?

Newgen created web based framework using which one create custom applications

Newgen created web based framework for running OmniDocs application

Newgen created web based framework for the integration of any external application with OmniDocs

Newgen created web based framework for running Newgen created web applications

Q. 12

To which of the following features would you associate OmniDocs with?

Complex tool for Document Scanning, Indexing and Storage

Vague reports for monitoring

No rights at document level for sharing

Configurable password policies

Q. 14 We can have more than one web-server in OmniDocs?

True

False

Q. 15 OmniDocs uses connection pool.

True

False

Q. 16 OmniDocs is a desktop application

True

False

Q. 17 Which full text search engine we use for Oracle?

FAST

Oracle Text

Lucene

None of the above

Q. 18 What are the available replication types in OmniDocs?

Delayed

Immediate

Both of the above

None of the above

Q. 19 How does OmniDocs EJB components connect to database

Using ODBC bridge

Using JDBC-ODBC bridge

Using JDBC API

Using System DSN

Q. 20

OmniDocs Image Server is responsible for:

Changing image compression only

Storage and retrieval of documents

Scanning of images only

All of the above

Q. 1 OmniDocs uses connection pool.

True

False

Q. 2 Multiple site can be added in same OmniDocs installation having same IP address

True

False

Q. 3 A Volume in OmniDocs:

Cannot be replicated

Can be replicated across multiple sites

Can be replicated across only one site

None of the above

Q. 4

Main features of OmniDocs are:

Filing of folders/images

Indexing, Processing and searching

Various monitoring reports like usage reports, audit reports, etc

All of the above

Q. 5 _____ is a logical storage structure in OmniDocs such as a physical file which can contain multiple documents.

Folder

Data Class

SMS

Directory

Q. 6 SMS in OmniDocs supports caching.

Trues

False

Q. 7 Is OmniDocs Architecture Scalable?

Yes, scalable horizontally

No, Not scalable

Yes, scalable vertically

It is scalable horizontally and vertically both

Q. 8 In OmniDocs, Landing Page Configuration is applicable only for:

System Tabs

Custom Tabs

Only for Document Search

Both the options 1st and 2nd

Q. 9 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

One has to write integration code.

Use Webservice

Use web-api

Not possible

Q. 10 Documents in OmniDocs can be classified in _____ types and they are _____.

Only Image Document, Only Data Documents & Image/Data Documents.

Image/Data Documents, Non Image Documents.

Non Image Documents, Single Page Documents & MultiPage Documents.

Image Documents & Non-Image Documents.

Q. 11 In OmniDocs, a WebAPI can have following themes?

A. Classic

B. Professional

C. Oceanic

D. None of the Above

E. Any color can be chosen

Only B, C

Only D

Only E

Only A, B, C

Q. 12 What is OmniDocs Web API?

Newgen created web based framework using which one create custom applications

Newgen created web based framework for running OmniDocs application

Newgen created web based framework for the integration of any external application with OmniDocs

Newgen created web based framework for running Newgen created web applications

Q. 13

OmniDocs supports document searching on:

- i. Data class, Global Index, Document Name, Owner and Specific Date
- ii. Data Class, Global index, Document Name and Date Range
- iii. Data class, Document Name, Global index, Date Range and owner

Marks:1

(i) and (ii)

(i) and (iii)

(ii) and (iii)

None of the above

Q. 14

Rights in OmniDocs can be assigned to _____.

User and supervisors only

User and groups only

User, groups and role only

Groups, and role only

Q. 15 In OmniDocs, RIS Stands for:

Remote image server

Remote information system

Rational informatic system

None of the above

Q. 16 OmniDocs does not support following database:

Oracle

MYSQL

Postgre SQL

MS SQL

Q. 17 Inherit Ownership option available at:

Cabinet Level and Folder Level

Folder Level

Data Class Level

User & Group Level

Q. 18 Metadata for OmniDocs documents are stored in database.

True

False

Q. 19 In OmniDocs, what does the PN file consist of?

Images

Metadata

Both of the above

None of the above

Q. 20 Can FTS be combined with index search?

Search is always combined

Search is combined if user gives parameters on both

Search can never be combined

None of the above

Q. 1 Choose the correct interaction sequence.

OmniDocs <---> JTS <---> Database

OmniDocs <---> Database <---> JTS

Database <---> JTS <---> OmniDocs

None of the above

Q. 2 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

One has to write integration code.

Use Webservice

Use web-api

Not possible

Q. 3 Expand SMS:

Storage Management Server

System Management Server

Storage Monitoring Server

System Monitoring Server

Q. 4 Metadata for OmniDocs documents are stored in database.

True

False

Q. 5

In OmniDocs, _____ search on the basis of the words contained in a document is optionally available.

Dataclass

Word Text

Full Text

Easy

Q. 6

Main features of OmniDocs are:

Filing of folders/images

Indexing, Processing and searching

Various monitoring reports like usage reports, audit reports, etc

All of the above

Q. 7 Does Full Text Search give a relevancy ranking?

It gives number of occurrences of the word

It gives an indication of how relevant the search string is

It gives no ranking

Documents are ranked based on their usefulness

Q. 8 What is OmniDocs Web API?

Newgen created web based framework using which one create custom applications

Newgen created web based framework for running OmniDocs application

Newgen created web based framework for the integration of any external application with OmniDocs

Newgen created web based framework for running Newgen created web applications

Q. 9 OmniDocs Server architecture is based on below platform:

J2EE

.Net

Both J2EE and .NET

J2ME

Q. 10 Which streaming server is supported by OmniDocs?

VLC Player

Wowza

Any Streaming Server

Xuggler

Q. 11 What is volume block in OmniDocs?

It is the physical storage area of the document.

It is the logical storage area of the document.

It signifies the path of the document

None of the above

Q. 12 _____ is a logical storage structure in OmniDocs such as a physical file which can contain multiple documents.

Folder

Data Class

SMS

Directory

Q. 13 Multiple site can be added in same OmniDocs installation having same IP address

True

False

Q. 14 What are the available replication types in OmniDocs?

Delayed

Immediate

Neither

Both option 1st and 2nd

Q. 15 Only _____ files can be used as an icon for Custom Tabs in OmniDocs?

png

jpg

svg

tif

Q. 16 It is possible to have more than one web server for OmniDocs deployment.

True

False

Q. 17 Options for creating users, group and data classes are present/available under:

System Administration

Configure Desktop

Service Management

License Management

Q. 18 SMS in OmniDocs supports caching.

Trues

False

Q. 19 One can logout OmniDocs client session from:

WebDesktop screen

Custom Desktop screen

Both of the above

None of the above

Q. 20 How to apply keyword on folder in OmniDocs?

Open a folder. On properties tab - Add keyword Option is visible. Click on that. Add keyword and click on save

Keywords are not supported on folder

Open a folder. On properties tab - Add keyword Option is visible. Click on that. Add keyword

None of the above

Q. 1 Is FTS available immediately after a document has been uploaded?

Yes, FTS is available immediately after a document has been uploaded

No, admin has to explicitly trigger text extraction for that document for FTS to work

No, uploading user has to explicitly trigger text extraction for that document for FTS to work

No, text will be extracted and indexed automatically in the next extraction cycle

Q. 2 Only _____ files can be used as an icon for Custom Tabs in OmniDocs?

png

jpg

svg

tif

Q. 3

Which of the following statements is correct for Volume in OmniDocs

There is no limit on the physical storage occupied by an image volume

Every volume has to be given different volume path

Volume cannot be replicated

All of the above

Q. 4

Which of the following is valid volume replication type in OmniDocs?

Delayed

Postponed

Logical

Physical

Q. 5 In OmniDocs, a WebAPI can have following themes?

A. Classic

B. Professional

C. Oceanic

D. None of the Above

E. Any color can be chosen

Only B, C

Only D

Only E

Only A, B, C

Q. 6 SMS in OmniDocs supports caching.

Trues

False

Q. 7 Choose the correct interaction sequence.

OmniDocs <---> JTS <---> Database

OmniDocs <---> Database <---> JTS

Database <---> JTS <---> OmniDocs

None of the above

Q. 8 We can have more than one web-server in OmniDocs?

True

False

Q. 9 How many types of user are there in OmniDocs?

2

3

4

5

Q. 10 Metadata for OmniDocs documents are stored in database.

True

False

Q. 11 How to add Custom Tab in OmniDocs?

Via Admin Console

Via ComponentIntegration.xml

Via OSA

via eworkstyle.ini

Q. 12 In OmniDocs, what does the PN file consist of?

Images

Metadata

Both of the above

None of the above

Q. 13 How does OmniDocs EJB components connect to database

Using ODBC bridge

Using JDBC-ODBC bridge

Using JDBC API

Using System DSN

Q. 14 Which OmniDocs service is responsible to create Documents Thumbnail?

Wrapper

SMS

Thumbnail

OSA

Q. 15 Even distribution of jobs and associated communications across the computing and networking resources is termed as _____

Distributed System

Fail Over

Load Balancing

Shared System

Q. 16 Options for creating users, group and data classes are present/available under:

System Administration

Configure Desktop

Service Management

License Management

Q. 17

_____ is a component of Image Server in OmniDocs which provides the actual storage and retrieval of Image Data.

Image Management Server

Database Server

Image Storage Server

Storage Management Server

Q. 18 While making any data class field secure in OmniDocs, we can perform following operation

Data Class Field can be marked secure only on creation.

Data Class Field can be marked un-secure any time.

Data Class Field can be marked secure any time.

Only secure global index can be part of Data Class.

Q. 19

OmniDocs is _____, _____, platform-independent solution

DMS, multi-tiered

Scalable, multi-tiered

Scalable, single-tiered

ECM, single-tiered

Q. 20 Multiples volumes can be created on a single site in OmniDocs.

True

False

Q. 2 Only _____ files can be used as an icon for Custom Tabs in OmniDocs?

png

jpg

svg

tif

Q. 3

Which of the following statements is correct for Volume in OmniDocs

There is no limit on the physical storage occupied by an image volume

Every volume has to be given different volume path

Volume cannot be replicated

All of the above

Q. 4

Which of the following is valid volume replication type in OmniDocs?

Delayed

Postponed

Logical

Physical

Q. 5 In OmniDocs, a WebAPI can have following themes?

A. Classic

B. Professional

C. Oceanic

D. None of the Above

E. Any color can be chosen

Only B, C

Only D

Only E

Only A, B, C

Q. 6 SMS in OmniDocs supports caching.

True

False

Q. 7 Choose the correct interaction sequence.

OmniDocs <---> JTS <---> Database

OmniDocs <---> Database <---> JTS

Database <---> JTS <---> OmniDocs

None of the above

Q. 8 We can have more than one web-server in OmniDocs?

True

False

Q. 9 How many types of user are there in OmniDocs?

2

3

4

5

Q. 10 Metadata for OmniDocs documents are stored in database.

True

False

Q. 11 How to add Custom Tab in OmniDocs?

Via Admin Console

Via ComponentIntegration.xml

Via OSA

via eworkstyle.ini

Q. 12 In OmniDocs, what does the PN file consist of?

Images

Metadata

Both of the above

None of the above

Q. 13 How does OmniDocs EJB components connect to database

Using ODBC bridge

Using JDBC-ODBC bridge

Using JDBC API

Using System DSN

Q. 14 Which OmniDocs service is responsible to create Documents Thumbnail?

Wrapper

SMS

Thumbnail

OSA

Q. 15 Even distribution of jobs and associated communications across the computing and networking resources is termed as _____

Distributed System

Fail Over

Load Balancing

Shared System

Q. 16 Options for creating users, group and data classes are present/available under:

System Administration

Configure Desktop

Service Management

License Management

Q. 17 _____ is a component of Image Server in OmniDocs which provides the actual storage and retrieval of Image Data.

Image Management Server

Database Server

Image Storage Server

Storage Management Server

Q. 19 OmniDocs is _____, _____, platform-independent solution

DMS, multi-tiered

Scalable, multi-tiered

Scalable, single-tiered

ECM, single-tiered

Q. 20 Multiples volumes can be created on a single site in OmniDocs.

True

False

Q. 1 In OmniDocs, one can assign data class to a document from:

OmniDocs Admin

OmniDocs Client

Both of the above

None of the above

Q. 2

OmniDocs is supported on:

English & Arabic

English & Japanese

English & Chinese

All of the above

Q. 3 Multiples volumes can be created on a single site in OmniDocs.

True

False

Q. 4 In latest version of OmniDocs, special character used for file convention name is:

\$

@

%

#

Q. 5 Which of the following options are true in OmniDocs?

One site and multiple volume can exists in single cabinet

Multiple site and multiple volume can exists in single cabinet

One site and one volume can exists in single cabinet

None of the above

Q. 6 In OmniDocs, which of the following information is required while creating labels:

Label Name

Location of Media

Both of the above

None of the above

Q. 7 In OmniDocs, what would be the security level, to restrict Access Rights validation at folder and document level? Is it

Cabinet Level

No Security

Object Level

None of the above

Q. 8 SMS in OmniDocs supports caching.

Trues

False

Q. 9 What is the default group created in OmniDocs?

Public

Private

Protected

Restricted

Q. 10

Users can search documents in OmniDocs on the basis of _____.

Keywords

Folder

picklist

indexes

Q. 11 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Yes

No

Q. 12 In OmniDocs, a WebAPI can have following themes?

A. Classic

B. Professional

C. Oceanic

D. None of the Above

E. Any color can be chosen

Only B, C

Only D

Only E

Only A, B, C

Q. 13 What is OmniDocs Web API?

Newgen created web based framework using which one create custom applications

Newgen created web based framework for running OmniDocs application

Newgen created web based framework for the integration of any external application with OmniDocs

Newgen created web based framework for running Newgen created web applications

Q. 14 Can web browser directly interact with EJB components of OmniDocs?

Yes

Yes, if EJB components are deployed on web server

No, only OmniDocs web components can be accessed directly via web browser.

None of the above

Q. 15 Metadata for OmniDocs documents are stored in database.

True

False

Q. 16 In Data Class of OmniDocs, following field type only can be marked secure:

Date

Float

Text

Integer

Q. 17 In OmniDocs, Custom Actions are defined for which module?

OmniProcess

Repository

Search

Reports

Q. 18 What is volume block in OmniDocs?

It is the physical storage area of the document.

It is the logical storage area of the document.

It signifies the path of the document

None of the above

Q. 19 Can FTS be combined with index search?

Search is always combined

Search is combined if user gives parameters on both

Search can never be combined

None of the above

Q. 20 In OmniDocs, a _____ is a notification that would be flashed / emailed to all the selected users

sms

message

reminder

alert

Q. 1 In latest version of OmniDocs, file convention is mandatory for:

Document type configuration

Folder type configuration

Both of the above

None of the above

Q. 3 OmniDocs provides integration adapter for:

Microsoft Project

Notepad

SAP

SVN

Q. 5 Which one of the following is incorrect with respect to OmniDocs Architecture?

OmniDocs web component directly interact with Database

OmniDocs web component never interacts with Database directly

OmniDocs EJB component directly interact with Database

OmniDocs web component interacts with Database via EJB component

Q. 6 Only _____ files can be used as an icon for Custom Tabs in OmniDocs?

png

jpg

svg

tif

Q. 7 Choose the correct option wrt OmniDocs

A single Volume is divided into several Volume blocks.

A single Volume is divided into several Labels.

A single Volume is divided into several Cabinets.

None of the above.

Q. 8 In OmniDocs, dataclass can be attached to:

Groups

Users

Action Items

None of the above

Q. 9 Even distribution of jobs and associated communications across the computing and networking resources is termed as _____

Distributed System

Fail Over

Load Balancing

Shared System

Q. 10 Does OmniDocs Architecture support platform independence?

NO

Yes

Depends on how it is deployed

No, as it is purely desktop based application

Q. 11 SMS in OmniDocs supports caching.

Trues

False

Q. 12

Which type of Document(s) is supported by OmniDocs?

Image Documents

Non-image Documents

Both of the above

None of the above

Q. 13 OmniDocs uses connection pool.

True

False

Q. 14 Select which among below is not an option while creating dataclass field in OmniDocs?

Useful

Mandatory

Unique

Size

Q. 15 Multiple site can be added in same OmniDocs installation having same IP address

True

False

Q. 16 In Data Class of OmniDocs, following field type only can be marked secure:

Date

Float

Text

Integer

Q. 17 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

One has to write integration code.

Use Webservice

Use web-api

Not possible

Q. 18 What to do if a User wants to make document visible only to the owner or the supervisor?

Mark as Private

Inherited

Shared

Both 2nd & 3rd

Q. 19 OmniDocs is a desktop application

True

False

Q. 20

Which of the following is true about Supervisor Rights Control in OmniDocs?

The rights of the supervisor at the supreme level still exist and supervisor can control everything.

The rights of the supervisor are removed and are restricted as a normal user of supervisor group.

Once removed the power of the supervisor, cannot be restored again.

All of the above

Q. 1 OmniDocs is a desktop application

True

False

Q. 2 We can have more than one web-server in OmniDocs?

True

False

Q. 3 To enable PCI Compliance, which KMS can be supported by OmniDocs:

AWS-KMS

Azure Key-Vault

All KMS

Hadoop KMS

Q. 4 Audit Trails are available at:

Cabinet Level

Folder Level

Object Level

All of the above

Q. 5 Once dataclass is added in OmniDocs, how to add another field to it?

By edit option

By modify option

By renaming

Not possible

Q. 6

To which of the following features would you associate OmniDocs with?

Complex tool for Document Scanning, Indexing and Storage

Vague reports for monitoring

No rights at document level for sharing

Configurable password policies

Q. 7 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

A. omnidocs.war

B. Custom.war

C. Opall.war

D. eworkstyle.ini

E. ComponentIntegration.xml

Only B, C, E

Only A, D

Only A, B, D, E

Only B, D

Q. 8

OmniDocs allows users to manage image as well as electronic documents in a _____ repository.

multiple database

multiple compressed

single centralized

dual compressed

Q. 9 Choose the correct option wrt OmniDocs:

By default security at cabinet is Object level

By default security at cabinet is Cabinet level

By default security at cabinet is No security

By default security at cabinet is Inherited

Q. 10 Which one of the following is correct regarding OmniDocs deployment and functioning?

OmniDocs need at-least one backend database for deployment and function

OmniDocs can run without any database

OmniDocs can run with database and without database also

OmniDocs maintains data in windows file system in SMS

Q. 11

Default batch size for document listing in OmniDocs is:

15

20

10

All documents will be shown

Q. 12 Which full text search engine we use for MS-SQL?

Lucene

Microsoft Full-Text Engine for SQL Server (MSFTESQL)

FAST

None of the above

Q. 13 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Yes

No

Q. 14 Multiple site can be added in same OmniDocs installation having same IP address

True

False

Q. 15 It is possible to create a new version of a document in OmniDocs

Yes, by using check –in check-out feature.

Yes, download document, modify it and re-upload the document.

Yes, download document delete it from OmniDocs, change in downloaded document and upload.

No, document versioning is not possible.

Q. 16 What is the limit of document storage in OmniDocs?

10 GB

100 GB

1 TB

Unlimited

Q. 17 Only _____ files can be used as an icon for Custom Tabs in OmniDocs?

png

jpg

svg

tif

Q. 18 In OmniDocs, the default client port for SMS is:

900

10000

9003

9080

Q. 19 API stands for:

Application Programming Interface

Application Package Import

Application Package Information

All of the above

Q. 20 In OmniDocs, one can assign data class to a document from:

OmniDocs Admin

OmniDocs Client

Both of the above

None of the above

Q. 1 Multiple site can be added in same OmniDocs installation having same IP address

True

False

Q. 2

Which of the following statements is correct for Volume in OmniDocs

There is no limit on the physical storage occupied by an image volume

Every volume has to be given different volume path

Volume cannot be replicated

All of the above

Q. 3 OmniDocs uses connection pool.

True

False

Q. 4 Each Image Volume has a _____. This is where the documents of that image volume get added by default.

Default Site

Home Site

Preferred Site

None of the above

Q. 5 OmniDocs is a desktop application

True

False

Q. 6 OmniDocs Application server layer is built on which architecture?

UDDI

SOA

SOA-advanced

JTS

Q. 7 Only _____ files can be used as an icon for Custom Tabs in OmniDocs?

png

jpg

svg

tif

Q. 8 Which one of the following is correct regarding OmniDocs deployment and functioning?

OmniDocs need at-least one backend database for deployment and function

OmniDocs can run without any database

OmniDocs can run with database and without database also

OmniDocs maintains data in windows file system in SMS

Q. 9 During Configuring Search in OmniDocs Admin, if All Data Classes check-box option is selected then:

User is not able to select any data class

User is able to select data class

It is choice of a user, whether to select data class or not

None of the above

Q. 10

OmniDocs Admin is also known as:

Cabinet Management

Document Management

Queue Management

Process Management

Q. 11 The core business logic is implemented in which tier?

Database Storage tier

Database Server

Application Server

OmniDocs Web Server

Q. 12 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

A. omnidocs.war

B. Custom.war

C. Opall.war

D. eworkstyle.ini

E. ComponentIntegration.xml

Only B, C, E

Only A, D

Only A, B, D, E

Only B, D

Q. 13 Which full text search engine we use for Oracle?

FAST

Oracle Text

Lucene

None of the above

Q. 14 Which OmniDocs service is responsible to create Documents Thumbnail?

Wrapper

SMS

Thumbnail

OSA

Q. 15 During Search Configuration / making a search in OmniDocs Admin, is selecting a Data Class and Global Index mandatory?

Selecting a Data Class is mandatory but not Global Index

Selecting a Global Index is mandatory but not Data Class

Selecting both is mandatory

All the above given options are INCORRECT

Q. 16

OmniDocs works on all _____ operating systems, _____ databases, application servers and web servers.

Intel based, standard

Window-based, content

Open source, relational

Major, industry-standard

Q. 17 In OmniDocs, custom operations are defined for _____.

A. Folder

B. Document

C. Filepart

D. Record

Only A, C

Only B, C

Only A, B, C

All of the above

Q. 18

A user wants to fetch information about the customer-related folders existing in the cabinet. In this case, the user will select the particular data class in the _____ report and generate the report.

Corporate skills

Enterprise Content

Folder Data

Product knowledge

Q. 19 Multiples volumes can be created on a single site in OmniDocs.

True

False

Q. 20

In OmniDocs, _____ search on the basis of the words contained in a document is optionally available.

Dataclass

Word Text

Full Text

Easy

Q. 1 How to add Custom Tab in OmniDocs?

Via Admin Console

Via ComponentIntegration.xml

Via OSA

via eworkstyle.ini

Q. 2 Multiple site can be added in same OmniDocs installation having same IP address

True

False

Q. 3 OmniDocs uses connection pool.

True

False

Q. 4 Available Security levels in OmniDocs are:

i. Cabinet Level

ii. Object Level

iii. No Security

(i) and (ii)

(i) and (iii)

(ii) and (iii)

(i), (ii) and (iii)

Q. 5 Immediate replication as well as delayed replication terms are related to which OmniDocs component?

Site

Image

Data

Volume

Q. 6 A document management system is used for

Document Archival

Document Retrieval

Both of the above

None of the above

Q. 7 Metadata for OmniDocs documents are stored in database.

True

False

Q. 8 Choose the correct option wrt OmniDocs:

By default security at cabinet is Object level

By default security at cabinet is Cabinet level

By default security at cabinet is No security

By default security at cabinet is Inherited

Q. 9 OmniDocs Architecture is based on:

Model View Controller

Model Viewer Container

Mode View Controller

Model Controlled View

Q. 10 Every volume in OmniDocs has a default volume path, which is a _____ on SMS

site

label

volume

path

Q. 11 In OmniDocs, Custom Actions are defined for which module?

OmniProcess

Repository

Search

Reports

Q. 12 Which streaming server is supported by OmniDocs?

VLC Player

Wowza

Any Streaming Server

Xuggler

Q. 13 What is OmniDocs Web API?

Newgen created web based framework using which one create custom applications

Newgen created web based framework for running OmniDocs application

Newgen created web based framework for the integration of any external application with OmniDocs

Newgen created web based framework for running Newgen created web applications

Q. 14 In OmniDocs, what is the default admin port for JTS?

3333

9999

900

10000

Q. 15

You want to perform replication in such a way in OmniDocs so that the data that is getting added at the Source should also get added at the replica site at the same time.

Immediate Replication

Delayed Replication

Instantaneous Replication

Immediate Adding Replication

Q. 16 Which full text search engine we use for MS-SQL?

Lucene

Microsoft Full-Text Engine for SQL Server (MSFTESQL)

FAST

None of the above

Q. 17 SMS in OmniDocs supports caching.

Trues

False

Q. 18

OmniDocs Admin is also known as:

Cabinet Management

Document Management

Queue Management

Process Management

Q. 19 Even distribution of jobs and associated communications across the computing and networking resources is termed as _____

Distributed System

Fail Over

Load Balancing

Shared System

Q. 20

Document Management Systems[DMS] helps an Organization to better manage _____
_____ of electronic documents.

Creation, Revision, and Approval

Creation, Revision, and Consumption

Creation, Revision, Approval, and Consumption

Creation, Approval, and Retrieval

Q. 13 How to change OmniDocs logo, which appears top right corner of every OmniDocs page?

OmniDocs-Admin --> Configure Desktop-->Desktop Settings --> Change Logo

OmniDocs-Admin --> Configure Desktop --> Change Logo

OmniDocs-Admin --> Change Logo

OmniDocs is proprietary product of Newgen. And logo removal is not possible.

Q. 5 Image Server Admin operations are:

Add Document, View Document, and Download document

Replication and Compaction

Replication, Compaction, and Move VolBlock

Move VolBlock only

Q. 6 What is the security feature related to dual authorization in user/group operations in OmniDocs called?

User data class

Maker-Checker

Audit Log

None of the above

Q. 15 Select the correct URL for registering the cabinet for the OmniDocs Admin.Marks:1

<databasename>/admin/main/register/registration.htm

<machinename>/admin/main/registration/register.htm

<servername>/admin/main/registration/registration.jsp

<ip>/admin/register/registration.htm

Q. 1 Efficient use of bandwidth is achieved in OmniDocs Document viewer because it.. Marks:1

fetches document byte by byte

fetches document in synchronised stream

fetches document in asynchronised stream

fetches document page by page

Q. 9 Expand OSA: Marks:1

OmniDocs System Administration

OmniDocs Server Administration

OmniDocs System Applications

OmniDocs Server Applications

Q. 11 To enable PCI Compliance, which KMS is provided by OmniDocs by default? Marks:1

AWS-KMS

Azure Key-Vault

All KMS

Hadoop KMS

Q. 13 In OmniDocs, user can be member of: Marks:1

One group

More than one group

Both of the above

None of the above

OmniScan MCQs

- 1) A job in OmniScan is a
 - a) Collection of images
 - b) Collection of records**
 - c) Collection of database
 - d) None of the above
- 2) What option is used to create a new template or to update an existing one
 - a) Create Template
 - b) Update Template
 - c) Manage Template**
 - d) Modify Template
- 3) Which data field property user need to set if he wants its value to be entered for single record and once saved, should get reflected in all other records.
 - a) Global Index
 - b) Read Only
 - c) Update To all
 - d) Carry Forward**
- 4) What kind of Data Extraction is not supported in Omniscan
 - a) OMR**
 - b) MICR
 - c) OCR
 - c) Barcode
- 5) What option is not available in Omniscan as Folder Identifier
 - a) Blank Page
 - b) Barcode
 - c) Extract from the defined document**
 - c) Fix page
- 6) What option to use to export the job just after creation of records.
 - a) Auto Upload**
 - b) Auto Export
 - c) Export All
 - c) No such feature available
- 7) What is **Ready for Export** option in Omniscan.
 - a) It asks for user confirmation before exporting to OD
 - b) It asks for user confirmation before exporting to OF
 - c) This feature allows user to move the job (mdb + image) to a local system folder for future export.**
 - d) No such feature available
- 8) Which section is not a mandatory section to be filled while creation of template in OmniScan.
 - a) Data Section
 - b) Data Class Section
 - c) Folder Section
 - d) Job Section**
- 9) Which lowest version framework is required to run OmniScan.
 - a) NET framework 1.0
 - b) NET framework 2.0**
 - c) NET framework 3.0
 - d) .Net framework 3.5

- 10) Which exe to run to launch Omniscan.
 a) **NGBulkScan.exe** c) NGOmniscan.exe
 b) Omniscan.exe d) Bulkscan.exe
- 11) Addins section is defined in which ini.
 a) **Job.ini** c) NGAppSettings.ini
 b) NGBulkScan.ini d) None of these
- 12) Which of these image types cannot be imported?
 a) TIF b) JPEG c) **DOC** d) GIF
- 13) Which section to fill to allow distributed scanning?
 a) Export Features b) Miscellaneous c) **Flow Section** d) User Defined Section
- 14) What is the maximum length of a string a text field?
 a) 255 b) 8000 c) 32000 d) **64000**
- 15) While exporting the record, which option is not available?
 a) Export All b) Export New c) Export Current d) **Export Previous**
- 16) Is it possible to run multiple instances of Omniscan?
 a) No This feature is not available.
 b) Yes multiple instances can run by default.
 c) While installing Omniscan, we define how many instances we need to run at a time.
 c) **By configuring NGBulkScan.ini we can run multiple instances of Omniscan**
- 17) What database Mgt system Omniscan use to store information about all records and jobs.
 a) Microsoft SQL server b) Oracle c) MySql d) **Microsoft Access**
- 18) Is it possible to maintain Omniscan template at a centralized location and all Scanning machine will download it from there?
 a) Yes, need to change ngbulkscan.ini
 b) Not possible
 c) **Need to define "Setup :-> Preferences :-> INI Settings" option in Omniscan window**
 d) Need to define "Setup :-> Preferences :-> Download Settings" option in Omniscan window
- 19) Is it possible to save any template as default template and same will be opened without prompting user to select one when he clicks on new?
 a) Yes, need to change ngbulkscan.ini
 b) Not possible
 c) Need to define "Setup :-> Preferences :-> Save Configuration" option in Omniscan window
 d) **Need to define "Setup :-> Preferences :-> Save New Job Configuration" option in Omniscan window**
- 20) Is it possible to save exporting credentials once entered and user will not be asked to enter again while exporting and saved credentials will be used?
 a) Yes, need to change ngbulkscan.ini
 b) Not possible
 c) **Need to define "Setup :-> Preferences :-> Save Configuration" option in Omniscan window**
 d) Need to define "Setup :-> Preferences :-> Save New Job Configuration" option in Omniscan window

Omniscan Sample Quiz

Q 1: Which of the identifier is not used as Folder identifier?

a. Fix Page

- b. Barcode
- c. Barcode Sticker
- d. Extract from defined Document

Q 2: In document Section which is not used in Saved Image type?

- a. Halftone
- b. Millions of Colors
- c. Grayscale 8-bit
- d. Color 8 bit

Q 3: Which of the compression scheme cannot be applied on color images?

- a. G4
- b. JPEG
- c. LZW
- d. PackBits

Q 4: Image cannot be exported in Image Format from OmniScan?

- a. TIFF
- b. PDF
- c. JPEG
- d. PDF/A

Q 5: Which is not a type of Data Extract in Data Section?

- a. OCR
- b. ICR
- c. HDD File Name
- d. Image Assisting data entry

Q 6: Which version of Dot Net framework is not supported by OmniScan ?

- a. Dot Net framework 1.0
- b. Dot Net framework 2.0
- c. Dot Net framework 3.0
- d. Dot Net framework 3.5

Q 7: MDB stands for?

- a. Microsoft Access Database
- b. Master Database
- c. Multiple Access Database
- d. Microsoft Excel Database.

Q 8: What is ManageTemplate?

- a. To manage OmniScan Exporting.
- b. To manage and create OmniScan template.
- c. To manage image importing process.
- d. To manage Scanner Interface.

Q 9: Which section is not available in ManageTemplate GUI?

- a. Data Section
- b. Folder Section
- c. DataClass Section
- d. Importing Section

Q 10: Which ScanType is supported in OmniScan?

- a. Simplex
- b. Duplex.
- c. Both a and b
- d. None of these

Q 11: Which is not a valid data type in Data section in OmniScan?

- a. Float
- b. Boolean**
- c. String
- d. DateTime

Q 12: Which type of File format cannot be imported in OmniScan?

- a. Docx**
- b. DCX
- c. TIF
- d. Pdf

Q 13: How can we register cabinet through OmniScan?

- a. By using TCP
- b. By using HTTP
- c. By using FTP
- d. Both a and b**

Q 14: Image editing in OmniScan possible or not?

- a. True**
- b. False

Q 15: Can we create new DataClass in OmniDocs through OmniScan?

- a. True**
- b. False

ANSWERS:

- 1. d
- 2. b
- 3. a
- 4. c
- 5. b
- 6. a
- 7. a
- 8. b
- 9. d
- 10. c
- 11. b
- 12. a
- 13. d
- 14. a
- 15. a

Q. 3 What is the optimized way of exporting document from OmniScan to OmniFlow and OmniDocs? Marks:1

- Multi call export.
- Single call export.**
- Both of the above take same time
- None of the above

Q. 6 In OmniScan, single call export feature is available for which of these DMS? Marks:1

- OmniDocs
- SAP

- OmniFlow
 - SharePoint
- Q. 7 Which Scan Protocol is supported by OmniScan? Marks:1
- Auto Scan
 - Twain
 - Auto Display
 - Simplex
- Q. 12 Which SharePoint version is supported by OmniScan? Marks:1
- SharePoint Online
 - SharePoint On premises
 - SharePoint WebServices
 - All of the above
- Q. 15 In which section of INI, user can define indexes? Marks:1
- DataClass Section
 - Job Section
 - Export Section
 - Data Section
- Q. 4 In OmniScan, how many document types can be defined in Doc Type section? Marks:1
- 225
 - 1000
 - 255
 - Unlimited
- Q. 14 Delete Job after Export. What does it mean? Marks:1
- Close the job after export
 - Close the Database and image after export
 - Delete the Database and Images after Export
 - Close OmniScan after export
- Q. 8 In OmniScan, user can associate Function key with: Marks:1
- Dataclass
 - Doc Type
 - Index
 - Folder
- Q. 14 OmniScan can export to: Marks:1
- OmniFlow
 - OmniDocs
 - FTP
 - All of the above
- Q. 15 Production grade scanning capability is supported by which product? Marks:1
- OmniXtract
 - OmniOMS
 - OmniScan
 - OmniFlow
- Q. 4 In OmniScan, which short cut key is available for getting GUI to create INI? Marks:1
- Ctrl M
 - Ctrl C
 - Ctrl G

- Ctrl A

Q. 8 By default which OCR engine is enabled in OmniScan? Marks:1

- Kadmos
- Caere
- Tesseract
- Abbyy

Q. 6 Under which selected condition in folder section an error folder is created while saving a document?

- Selecting Option 1 and folder already exists
- Selecting Option 2 and folder already exists
- Selecting Option 1 and folder does not exist
- Selecting Option 2 and folder does not exist

5 OmniScan can export images using:

- HTTP
- HTTPS
- TCP/IP
- All of the above

6 Which compression apply on grey image?

- JPEG
- G4
- JPG
- LZW

12 If the document with the same name already exists in OmniDocs then what is appended to the name of the Document?

- Version
- Timestamp
- Always overwrites the document
- None of the above

1

Which third party OCR engines are integrated in OmniScan3.x ?

- Caere and Kadmos OCR.
- Caere and Abbyy OCR.
- Caere and Tesseract OCR.
- Kadmos and Tesseract OCR

7 By default OmniScan Export Document is for which Workflow?

- Share Point
- K2.Net
- Window WorkFlow (WWF)
- OmniFlow

13 What is/are the scanning protocols supported in OmniScan?

- TWAIN only
- ISIS only
- Both TWAIN and CT Scanning Protocol
- Both TWAIN and ISIS

Q. 1 In OmniScan, following is not the type available to export the records to DMS:

- ☐ Export All

- ☐ Export Previous
 - ☐ Export New
 - ☐ Export Current
- Q. 2 Which section is not a mandatory section to be filled while creation of template in OmniScan?
- ☐ Data Section
 - ☐ Data Class Section
 - ☐ Folder Section
 - ☒ Job Section
- Q. 3 What is the optimized way of exporting document from OmniScan to OmniFlow and OmniDocs?
- ☐ Multi call export.
 - ☒ Single call export.
 - ☐ Both of the above take same time
 - ☐ None of the above
- Q. 4 In OmniScan, which of the following is not the default option provided for folder name?
- ☐ Job no
 - ☐ Operator name
 - ☒ INI name
 - ☐ Location
- Q. 5 What option is not available in OmniScan as Folder Identifier?
- ☐ Blank Page
 - ☐ Barcode
 - ☒ Extract from the defined document
 - ☐ Fix page
- Q. 6 In OmniScan, single call export feature is available for which of these DMS?
- ☐ OmniDocs
 - ☐ SAP
 - ☒ OmniFlow
 - ☐ SharePoint
- Q. 7 Which Scan Protocol is supported by OmniScan?
- ☐ Auto Scan
 - ☒ Twain
 - ☐ Auto Display
 - ☐ Simplex
- Q. 8 Managed Code is used for which of these DLL type?

- ☐ VB
 - ☒ Dot NET
 - ☐ C++
 - ☐ None of the above
- Q. 9 Which section is to be filled so as to allow distributed scanning?
- ☐ Export Features
 - ☐ Miscellaneous
 - ☒ Flow Section
 - ☐ User Defined Section
- Q. 10 In OmniScan which type of extraction is supported for document identifier?
- ☒ OCR
 - ☐ OMR
 - ☐ Extract from Form
 - ☐ HDD File Name
- Q. 11 Managed Code is used for which of these DLL type?
- ☐ VB
 - ☒ Dot Net
 - ☐ C
 - ☐ None of the above
- Q. 12 Which SharePoint version is supported by OmniScan?
- ☐ SharePoint Online
 - ☐ SharePoint On premises
 - ☐ SharePoint WebServices
 - ☒ All of the above
- Q. 13 An image exported from OmniScan to any DMS is in which format?
- ☐ PDF
 - ☐ PDFA
 - ☐ TIFF
 - ☒ Any of the above
- Q. 14
- What is an ADF in a Scanner?
- ☐ Automatically Defined Function
 - ☐ Alternative Display Facility
 - ☒ Automatic Document Feeder

• ☐ Allocation & distribution of File

Q. 15 In which section of INI, user can define indexes?

- ☐ DataClass Section
- ☐ Job Section
- ☐ Export Section
- ☒ Data Section

Q. 3 OmniScan uses which Database Management System to store information about all r

- ☐ Microsoft SQL server
- ☐ Oracle
- ☐ MySQL
- ☒ Microsoft Access

Q. 4 In OmniScan, how many document types can be defined in Doc Type section?

- ☐ 225
- ☐ 1000
- ☐ 255
- ☒ Unlimited

Q. 4 In OmniScan, how many document types can be defined in Doc Type section?

- ☐ 225
- ☐ 1000
- ☐ 255
- ☒ Unlimited

Q. 7 What is Ready for Export option in OmniScan?

- ☐ It asks for user confirmation before exporting to OmniDocs
- ☐ It asks for user confirmation before exporting to OmniFlow
- ☒ This feature allows user to move the job (mdb + image) to a local system folder for future export.
- ☐ No such feature is available

Q. 8 Which type of external dll is not supported in OmniScan?

- ☐ Managed dll
- ☐ COM dll
- ☒ Flat dll
- ☐ None of the above

Q. 9 What is the optimized way of exporting document from OmniScan to OmniFlow and

- ☐ Multi call export.

- ☒ Single call export.
- ☐ Both of the above take same time
- ☐ None of the above

Q. 10 In OmniScan which type of extraction is supported for document identifier?

- ☒ OCR
- ☐ OMR
- ☐ Extract from Form
- ☐ HDD File Name

What is a duplex scanner?

- ☐ A scanner with a feature where each document is scanned 2 times for better image quality
- ☐ A scanner with a feature where a duplicate copy of each document is created while scanning

- ☒ A scanner with a feature where both sides of the document are scanned simultaneously

- ☐ A scanner with a feature consisting of document scanning as well as document indexing

2 In which section of INI, user can define indexes?

- ☐ DataClass Section
- ☐ Job Section
- ☐ Export Section
- ☒ Data Section

Q. 13 Which option is present in OmniScan to generate ini file?

- ☒ Manage Template
- ☐ Generate INI
- ☐ Save INI
- ☐ Create INI

Q. 14 Delete Job after Export. What does it mean?

- ☐ Close the job after export
- ☐ Close the Database and image after export
- ☒ Delete the Database and Images after Export
- ☐ Close OmniScan after export

Q. 2 In OmniScan, which short cut key is available for Scanning?

- ☐ Ctrl A
- ☐ Ctrl C
- ☒ Ctrl S
- ☐ Ctrl G

Q. 8 In OmniScan, user can associate Function key with:

- ☐ Dataclass
- ☐ Doc Type
- ☒ Index
- ☐ Folder

Q. 10 Which type of Image can be exported into DMS

- ☒ tif->pdf
- ☐ tif->jpeg
- ☐ doc->jpeg
- ☐ doc->pdf

Q. 12 Following feature is not provided in export to OmniFlow from OmniScan:

- ☒ Delete workitem
- ☐ Create workitem
- ☐ Move to next stage
- ☐ Update workitem

Q. 14 OmniScan can export to:

- ☐ OmniFlow
- ☐ OmniDocs
- ☐ FTP
- ☒ All of the above

Q. 15 Production grade scanning capability is supported by which product?

- ☐ OmniXtract
- ☐ OmniOMS
- ☒ OmniScan
- ☐ OmniFlow

Q. 4 In OmniScan, which short cut key is available for getting GUI to create INI?

- ☒ Ctrl M
- ☐ Ctrl C
- ☐ Ctrl G
- ☐ Ctrl A

Q. 8 By default which OCR engine is enabled in OmniScan?

- ☐ Kadmos
- ☐ Caere
- ☒ Tesseract
- ☐ Abbyy

Q. 11 Following feature is not provided in export to OmniFlow from OmniScan:

- ☐ Delete workitem
- ☐ Create workitem
- ☐ Move to next stage
- ☐ Update workitem

Q. 14 In OmniScan, what option is used to create a new template or to update an existing

- ☐ Create Template
- ☐ Update Template
- ☐ Manage Template
- ☐ Modify Template

Q. 15

Choose the **wrong** statement :

- ☐ Multiple users cannot be assigned in different systems who can enhance image quality
- ☐ OmniScan captures documents in a centralized system
- ☐ In OmniScan user can remove speckles, deskew images, adjust page orientation and more
- ☐ Organizations look for Centralized Bulk Scanning to optimize their scanning operations

. 4 In OmniScan, to select any particular field from the document which field is to be clicked?

- ☐ Get Zone
- ☐ Get Data
- ☐ Set Zone
- ☐ Any of the Above

. 5 OCR means

- ☐ Optical Character Recognition
- ☐ Optional Character Recognition
- ☐ Optical Character Reader
- ☐ Only Character Recognition

Q. 6

Under which selected condition in folder section an error folder is created while saving a c

- ☐ Selecting Option 1 and folder already exists
- ☐ Selecting Option 2 and folder already exists
- ☐ Selecting Option 1 and folder does not exists
- ☐ Selecting Option 2 and folder does not exists

. 7 In OmniScan, which data field property user needs to set if he/she wants its value to be reflected in all other records.

- ☐ Global Index

- ☐ Read Only
- ☐ Update To all
- ☐ Carry Forward

14 Which identifier is used in OmniScan to separate the Documents on the basis of given

- ☐ Barcode
- ☐ Barcode Sticker
- ☐ Fix Page
- ☐ Standard Form

15 In OmniScan, which short cut key is available for getting GUI to create INI?

- ☐ Ctrl M
- ☐ Ctrl C
- ☐ Ctrl G
- ☐ Ctrl A

5 OmniScan can export images using:

- ☐ HTTP
- ☐ HTTPS
- ☐ TCP/IP
- ☐ All of the above

6 Which compression apply on grey image?

- ☐ JPEG
- ☐ G4
- ☐ JPG
- ☐ LZW.

12 If the document with the same name already exists in OmniDocs then what is appended to the Document?

- ☐ Version
- ☐ Timestamp
- ☐ Always overwrites the document
- ☐ None of the above

13 Delete Job after Export. What does it mean?

- ☐ Close the job after export
- ☐ Close the Database and image after export
- ☐ Delete the Database and Images after Export
- ☐ Close OmniScan after export

1 Which third party OCR engines are integrated in OmniScan3.x ?

- ☐ Caere and Kadmos OCR.
- ☐ Caere and Abbyy OCR.
- ☒ Caere and Tesseract OCR.
- ☐ Kadmos and Tesseract OCR.

6 Which section is to be filled so as to allow distributed scanning?

- ☐ Export Features
- ☐ Miscellaneous
- ☒ Flow Section
- ☐ User Defined Section

7 Which SharePoint version is supported by OmniScan?

- ☐ SharePoint Online
- ☐ SharePoint On premises
- ☐ SharePoint WebServices
- ☒ All of the above

1 Following feature is not provided in export to OmniFlow from OmniScan:

- ☒ Delete workitem
- ☐ Create workitem
- ☐ Move to next stage
- ☐ Update workitem

6 What option to use to export the job just after creation of records in OmniScan?

- ☒ Auto Upload
- ☐ Auto Export
- ☐ Export All
- ☐ No such feature is available

7 By default OmniScan Export Document is for which Workflow?

- ☐ Share Point
- ☐ K2.Net
- ☐ Window WorkFlow (WWF)
- ☒ OmniFlow

8 Which of the following image format is not supported for exporting from OmniScan:

- ☐ TIG
- ☒ JPEG
- ☐ PDF
- ☐ PDF/A

11 Which Symbology is used for 2D Barcode Extraction?

- ☐ Code128
- ☐ USS39
- ☐ Smart
- ☒ PDF417

2 What option is not available in OmniScan as Folder Identifier?

- ☐ Blank Page
- ☐ Barcode
- ☒ Extract from the defined document
- ☐ Fix page

2 In OmniScan, which of the following is not the default option provided for folder name?

- ☐ Job no
- ☐ Operator name
- ☒ INI name
- ☐ Location

5 What is the optimized way of exporting document from OmniScan to OmniFlow and Om

- ☐ Multi call export.
- ☒ Single call export.
- ☐ Both of the above take same time
- ☐ None of the above

Q. 8

Choose the **wrong** statement :

- ☒ Multiple users cannot be assigned in different systems who can enhance image quality
- ☐ OmniScan captures documents in a centralized system
- ☐ In OmniScan user can remove speckles, deskew images, adjust page orientation and more
- ☐ Organizations look for Centralized Bulk Scanning to optimize their scanning operations

13 What is/are the scanning protocols supported in OmniScan?

- ☐ TWAIN only
- ☐ ISIS only
- ☐ Both TWAIN and CT Scanning Protocol
- ☒ Both TWAIN and ISIS

6 In OmniScan, to select any particular field from the document which field is to be clicked?

- ☒ Get Zone
- ☐ Get Data
- ☐ Set Zone

- ☐ Any of the Above

9 In OmniScan, which data field property user needs to set if he/she wants its value to be reflected in all other records.

- ☐ Global Index
- ☐ Read Only
- ☐ Update To all
- ☐ Carry Forward

13 A job in OmniScan is a:

- ☐ Collection of images
- ☐ Collection of records
- ☐ Collection of database
- ☐ None of the above

Q. 1 Following feature is not provided in export to OmniFlow from OmniScan:

Delete workitem

Create workitem

Move to next stage

Update workitem

Q. 2 OmniScan uses which Database Management System to store information about all records and jobs?

Microsoft SQL server

Oracle

MySQL

Microsoft Access

Q. 3 Managed Code is used for which of these DLL type?

VB

Dot Net

C

None of the above

Q. 4 What is Ready for Export option in OmniScan?

It asks for user confirmation before exporting to OmniDocs

It asks for user confirmation before exporting to OmniFlow

This feature allows user to move the job (mdb + image) to a local system folder for future export.

No such feature is available

Q. 5 In OmniScan, is it possible to save exporting credentials once entered and user will not be asked to enter again while exporting and saved credentials will be used?

Yes, need to change ngbulkscan.ini

Not possible

Need to define "Setup :-> Preferences :-> Save Configuration" option in OmniScan window

Need to define "Setup :-> Preferences :-> Save New Job Configuration" option in OmniScan window

Q. 6 Delete Job after Export. What does it mean?

Close the job after export

Close the Database and image after export

Delete the Database and Images after Export

Close OmniScan after export

Q. 7 In OmniScan, how many document types can be defined in Doc Type section?

225

1000

255

Unlimited

Q. 8 What option is not available in OmniScan as Folder Identifier?

Blank Page

Barcode

Extract from the defined document

Fix page

Q. 9 In OmniScan, what option is used to create a new template or to update an existing one?

Create Template

Update Template

Manage Template

Modify Template

Q. 10 Which Scan Protocol is supported by OmniScan?

Auto Scan

Twain & Check Scanner

Auto Display

Simplex

Scan types: simplex, duplex

Scan preferences: page by page, do scanning, both

Q. 11

What does OCR correspond to?

Optical Character Recognition

Optional Character Recognition

Only Character Recognition

Other Character Recognition

Q. 12 In OmniScan, following is not the type available to export the records to DMS:

Export All

Export Previous

Export New

Export Current

Q. 13 Which is not Scan Protocol?

Twain

ISIS

Paper scanner

TCP

Q. 14 Managed Code is used for which of these DLL type?

VB

Dot NET

C++

None of the above

Q. 15 In OmniScan, user can associate Function key with:

Dataclass

Doc Type

Index

Folder

Q. 1 Managed Code is used for which of these DLL type?

VB

Dot NET

C++

None of the above

Q. 2 In OmniScan, following is not the type available to export the records to DMS:

Export All

Export Previous

Export New

Export Current

Q. 3 Following feature is not provided in export to OmniFlow from OmniScan:

Delete workitem

Create workitem

Move to next stage

Update workitem

Q. 4

What is a duplex scanner?

A scanner with a feature where each document is scanned 2 times for better image quality

A scanner with a feature where a duplicate copy of each document is created while scanning

A scanner with a feature where both sides of the document are scanned simultaneously

A scanner with a feature consisting of document scanning as well as document indexing

Q. 5 In which section of INI, user can define indexes?

DataClass Section

Job Section

Export Section

Data Section

Q. 6 In OmniScan, single call export feature is available for which of these DMS?

OmniDocs

SAP

OmniFlow

SharePoint

(Can be exported to OD and OF)

Q. 7 Managed Code is used for which of these DLL type?

VB

Dot Net

C

None of the above

Q. 8 Which identifier is used in OmniScan to separate the Documents on the basis of given page:

Barcode

Barcode Sticker

Fix Page

Standard Form

Q. 9 Which compression apply on grey image?

JPEG

G4

jpg

LZW

Q. 10 In which section of INI, user can define indexes?

DataClass Section

Job Section

Export Section

Data Section

Q. 11 Which section is not a mandatory section to be filled while creation of template in OmniScan?

Data Section

Data Class Section

Folder Section

Job Section

DocType

Q. 12 The concept of Workitem and process is in which of the following BPM?

OmniDocs

SAP

OmniFlow

CSV

Q. 13 Which of these image types cannot be imported in OmniScan?

TIF

JPEG

DOC

GIF

Q. 14 Production grade scanning capability is supported by which product?

OmniXtract

OmniOMS

OmniScan

OmniFlow

Q. 15 Under which selected condition in folder section an error folder is created while saving a document?

Selecting Option 1 and folder already exists

Selecting Option 2 and folder already exists

Selecting Option 1 and folder does not exists

Selecting Option 2 and folder does not exists

Q. 1 In OmniScan, following is not the type available to export the records to DMS:

Export All

Export Previous

Export New

Export Current

Q. 2 OmniScan can export images using:

HTTP

HTTPS

TCP/IP

All of the above

Q. 3 Which type of external dll is not supported in OmniScan?

Managed dll

COM dll

Flat dll

None of the above

Q. 4 Which section is not a mandatory section to be filled while creation of template in OmniScan?

Data Section

Data Class Section

Folder Section

Job Section

Q. 5 In OmniScan, is it possible to save any template as default template and same will be opened without prompting user to select one when he/she clicks on new?

Yes, need to change ngbulkscan.ini

Not possible

Need to define "Setup :-> Preferences :-> Save Configuration" option in OmniScan window

Need to define "Setup :-> Preferences :-> Save New Job Configuration" option in OmniScan window

Q. 6 In OmniScan, Addins section is defined in which ini?

Job.ini

NGAppSettings.ini

NGBulkScan.ini

None of the above

(template_name.ini)

Q. 7 What is the optimized way of exporting document from OmniScan to OmniFlow and OmniDocs?

Multi call export.

Single call export.

Both of the above take same time

None of the above

Q. 8 In OmniScan, how many document types can be defined in Doc Type section?

225

1000

255

Unlimited

Q. 9 Which identifier is used in OmniScan to separate the Documents on the basis of given page:

Barcode

Barcode Sticker

Fix Page

Standard Form

Q. 10 Managed Code is used for which of these DLL type?

VB

Dot NET

C++

None of the above

Q. 11 If the document with the same name already exists in OmniDocs then what is appended to the name of the Document?

Version *(have to enable option)*

Timestamp

Always overwrites the document

None of the above

Q. 12 In OmniScan, is it possible to save exporting credentials once entered and user will not be asked to enter again while exporting and saved credentials will be used?

Yes, need to change ngbulkscan.ini

Not possible

Need to define "Setup :-> Preferences :-> Save Configuration" option in OmniScan window

Need to define "Setup :-> Preferences :-> Save New Job Configuration" option in OmniScan window

Q. 13 In OmniScan, which type of identifier is not supported for folder identifier?

Barcode

Barcode Sticker

Extract from Form

Blank Page

Q. 14 Following feature is not provided in export to OmniFlow from OmniScan:

Delete workitem

Create workitem

Move to next stage

Update workitem

Q. 15 OCR means_____.

Optical Character Recognition

Optional Character Recognition

Ordinary Character Recognition

Only Character Recognition

Q. 1 In OmniScan, is it possible to save any template as default template and same will be opened without prompting user to select one when he/she clicks on new?

Yes, need to change ngbulkscan.ini

Not possible

Need to define "Setup :-> Preferences :-> Save Configuration" option in OmniScan window

Need to define "Setup :-> Preferences :-> Save New Job Configuration" option in OmniScan window

Q. 2 Following feature is not provided in export to OmniFlow from OmniScan:

Delete workitem

Create workitem

Move to next stage

Update workitem

Q. 3 Managed Code is used for which of these DLL type?

VB

Dot Net

C

None of the above

Q. 4 Which option is present in OmniScan to generate ini file?

Manage Template

Generate INI

Save INI

Create INI

Q. 5 Which type of external dll is not supported in OmniScan?

Managed dll

COM dll

Flat dll

None of the above

Q. 6 In OmniScan, how many document types can be defined in Doc Type section?

225

1000

255

Unlimited

Q. 7 What option is not available in OmniScan as Folder Identifier?

Blank Page

Barcode

Extract from the defined document

Fix page

Q. 8 Production grade scanning capability is supported by which product?

OmniXtract

OmniOMS

OmniScan

OmniFlow

Q. 9 OCR means

Optical Character Recognition

Optional Character Recognition

Optical Character Reader

Only Character Recognition

Q. 10 In OmniScan, single call export feature is available for which of these DMS?

OmniDocs

SAP

OmniFlow

SharePoint

Q. 11 The concept of Workitem and process is in which of the following BPM?

OmniDocs

SAP

OmniFlow

CSV

Q. 12 What option to use to export the job just after creation of records in OmniScan?

Auto Upload

Auto Export

Export All

No such feature is available

Q. 13 In OmniScan, which of the following is not the default option provided for folder name?

Job no

Operator name

INI name

Location

<All data fields>

Q. 14 In OmniScan, to select any particular field from the document which field is to be clicked?

Get Zone

Get Data

Set Zone

Any of the Above

Q. 15 Which Imaging Functionality is supported in OmniScan:

Deskew

Rotate

Despeckle

All of the above

Q. 1 In OmniScan, which type of identifier is not supported for folder identifier?

Barcode

Barcode Sticker

Extract from Form

Blank Page

Q. 2 In OmniScan, single call export feature is available for which of these DMS?

OmniDocs

SAP

OmniFlow

SharePoint

Q. 3 Which option is present in OmniScan to generate ini file?

Manage Template

Generate INI

Save INI

Create INI

Q. 4 Choose the wrong statement :

Multiple users cannot be assigned in different systems who can enhance image quality

OmniScan captures documents in a centralized system

In OmniScan user can remove speckles, deskew images, adjust page orientation and more

Organizations look for Centralized Bulk Scanning to optimize their scanning operations

Q. 5 In OmniScan, what option is used to create a new template or to update an existing one?

Create Template

Update Template

Manage Template

Modify Template

Q. 6 In OmniScan, which short cut key is available for getting GUI to create INI?

Ctrl+M

Ctrl+C

Ctrl+G

Ctrl+A

Q. 7 What is Ready for Export option in OmniScan?

It asks for user confirmation before exporting to OmniDocs

It asks for user confirmation before exporting to OmniFlow

This feature allows user to move the job (mdb + image) to a local system folder for future export.

No such feature is available

Q. 8 Is it possible to run multiple instances of OmniScan?

No, this feature is not available.

Yes, multiple instances can run by default.

While installing OmniScan, we define how many instances we need to run at a time

By configuring NGBulkScan.ini we can run multiple instances of OmniScan

Q. 9 Managed Code is used for which of these DLL type?

VB

Dot NET

C++

None of the above

Q. 10 Managed Code is used for which of these DLL type?

VB

Dot Net

C

None of the above

Q. 11 In OmniScan, how many document types can be defined in Doc Type section?

225

1000

255

Unlimited

Q. 12 In OmniScan, following is not the type available to export the records to DMS:

Export All

Export Previous

Export New

Export Current

Q. 13 In OmniScan, which Scan Type used to scan the images?

Duplex

Double Scan

Fast Scan

Rotate Scan

Q. 14 OmniScan can export images using:

HTTP

HTTPS

TCP/IP

All of the above

Q. 15 In OmniScan, how many document types can be defined in Doc Type section?

225

1000

255

Unlimited

15 Which Symbology is used for 2D Barcode Extraction? Marks:1

Code128

USS39

Smart

PDF417

Q. In OmniScan, which is the Barcode symbology used to extract the barcode?

FindBarcode

ExtractBarcode

Code128

Landscape

Q. 7 Which SharePoint version is supported by OmniScan?

SharePoint Online

SharePoint On premises

SharePoint WebServices

All of the above

Q. 10 In OmniScan which type of extraction is supported for document identifier?

OCR

OMR

Extract from Form

HDD File Name

Q. 11 In OmniScan, which is the Barcode symbology used to extract the barcode?

FindBarcode

ExtractBarcode

Code128

Landscape

Q. 12 Is it possible to maintain OmniScan template at a centralized location and all scanning machine will download it from there?

Yes, need to change ngbulkscan.ini

Not possible

Need to define "Setup :-> Preferences :-> INI Settings" option in OmniScan window

Need to define "Setup :-> Preferences :-> Download Settings" option in OmniScan window

Q. 6 By default OmniScan Export Document is for which Workflow?

Share Point

K2.Net

Window WorkFlow (WWF)

OmniFlow

Q. 11 Which type of Image can be exported into DMS.

tif->pdf

tif->jpeg

doc->jpeg

doc->pdf

Q. 12 Which section is to be filled so as to allow distributed scanning?

Export Features

Miscellaneous

Flow Section

User Defined Section

Q. 8 In OmniScan, which short cut key is available for Scanning?

Ctrl+A

Ctrl+C

Ctrl+S

Ctrl+G

Q. 15 In OmniScan, which data field property user needs to set if he/she wants its value to be entered for single record and once saved, it should get reflected in all other records.

Global Index

Read Only

Update To all

Carry Forward

Q. 3 Which lowest version framework is required to run OmniScan?

NET framework 1.0

NET framework 2.0

NET framework 3.0

.Net framework 3.5

Q. 4 A job in OmniScan is a:

Collection of images

Collection of records

Collection of database

None of the above

Q. 1 Purging of workitem data and workitem documents can:

- ☒ Purge the data from the source cabinet only
- ☐ Purge the data from source cabinet and export it to target cabinet
- ☐ Purging the data from target cabinet only
- ☐ Purging of workitem data and workitem documents is not available

Q. 2 In iBPS, during WorkItem shared mode, how many users can simultaneously make changes in workitem?

- ☒ One
- ☐ Two
- ☐ Three
- ☐ Multiple

Q. 3 In iForm, line break is used for what purpose?

- ☐ To create space between controls
- ☒ To shift the control to next line
- ☐ To create row space between controls
- ☐ None of the above

Q. 2 In iBPS, how to checkout an activity?

- ☐ Open a local process, right click on a activity and click checkout.
- ☐ Open a registered process, right click on a activity and click checkout.
- ☒ Checkout of activity not possible.
- ☐ None of the above.

Q. 3 In iBPS(Process Designer), which of the following can have duplicate name?

- ☐ Start Event
- ☐ Work Desk

- ☒ Data Object
- ☐ End Event

Q. 5 In iBPS(Process Designer), Save as Local feature allows user to:

- ☐ Saving local process as a new process in registered repository
- ☒ Saving registered process as a new process in local repository
- ☐ Saving local process as a new process in local repository
- ☐ Saving registered process as a new process in registered repository

Q. 6 How do you configure tab indexing in iForms?

- ☐ via iForm properties
- ☒ via control properties
- ☐ Not Applicable
- ☐ Both the options 1st & 2nd

Q. 1 Can we change the font style and font size from theme configuration within iForm?

- ☒ Yes
- ☐ No

Q. 2 In iBPS(Process Designer), which of the following is not an artifact in process?

- ☐ Group Box
- ☐ Annotation
- ☒ Message End
- ☐ Data Object

Q. 3 In iBPS, which WorkStep type can be used to Integrate with BRMS rules:

- ☒ BRMS WorkStep
- ☐ BRT WorkStep
- ☐ Service WorkStep
- ☐ BRMS Service WorkStep

Q. 4 As per BPMN standards which statement is correct:

- ☐ Mile Stones can have milestones with in them.
- ☐ Swimlanes can have swimlanes with in them.
- ☒ Pools can have swimlanes with in them.
- ☐ Mile Stones can have Pools with in them.

Q. 5 In iBPS(Process Designer), for re-deployment of the process which of the following must to be modified

- ☐ Process Name
- ☐ Project Name
- ☐ Registration No
- ☐ Process Version

6 Which of the following is not a BPMN term:

- ☐ Mile Stone
- ☐ Pool
- ☒ Group Box
- ☐ Swimlane

8 In iBPS Process Designer, maker-checker feature can be used on which operation?

- ☐ Create External Table
- ☒ Process Enable/Disable

- ☐ Create Table
- ☐ New interface inclusion in Process

Q. 9 What does BPMN stands for:

- ☐ Business Process Modeling Notion
- ☐ Business Process Modeling Notation
- ☒ Business Process Model Notation
- ☐ Business Processing Modeling Notation

Q. 10 In iBPS(Process Designer), which operation is not performed on a registered process:

- ☐ Check-Out
- ☒ Check-In
- ☐ Save as Local
- ☐ Enable Process

Q. 11 How many queue variables are present in iBPS?

- ☐ 46
- ☒ 26
- ☐ 18
- ☐ 36

2 Which combination is not as per BPMN:

- ☒ Start – End
- ☐ Parallel distribute – Parallel Collect
- ☐ Inclusive distribute – Inclusive Collect
- ☐ Receive – Reply

. 13 In iBPS(Process Designer), which option will be prompted to user while trying to delete a local process?

- ☐ Want to delete current version
- ☒ Want to delete all versions
- ☐ Want to delete minor version
- ☐ Want to delete major version

Q. 14 Can all the controls be uploaded and downloaded in iForm?

- ☒ Yes
- ☐ No

15 In iForm, what is the default height and width of Image box?

- ☐ H|100, B|100
- ☒ H|300, B|300
- ☐ H|400, B|400
- ☐ None of the above

16 In iBPS, rule with Audit as an operation can be defined in_____?

- ☐ WorkDesk
- ☐ Distribute WorkStep
- ☐ DataBased Exclusive WorkStep
- ☒ None of the above

Q. 17 In iBPS, where is registered template used?

- ☐ In Launch Application Trigger
- ☐ In Data Entry Trigger
- ☐ In Set Trigger
- ☒ In Generate Response Trigger

. 18 In iBPS(Process Designer), Process Icon is used to distinguish between various types of processes. Which of the following have same icon in tree?

- ☐ Enabled and disabled processes
- ☐ Registered and checked-in process
- ☐ Local and registered process
- ☒ Registered and checked-out process

Q. 19 What are the different date types present in date picker within iForm?

- ☒ Date picker and date time picker
- ☐ Date time picker
- ☐ Date picker and date time zone picker
- ☐ All of the above

Q. 20 In iForm, what is the maximum number for column layout?

- ☒ 12
- ☐ 10
- ☐ 16
- ☐ 9

Q. 1 Can web browser directly interact with EJB components of OmniDocs?

- ☐ Yes
- ☐ Yes, if EJB components are deployed on web server
- ☐ No, only OmniDocs web components can be accessed directly via web browser.
- ☐ None of the above

Q. 2 Each Image Archive is logically divided into one or more _____

- ☒ Image Volumes

- ☐ Logical Site
- ☐ Home Site
- ☐ Site

Q. 3 SAP linking feature in OmniScan is available with following DMS:

- ☒ SAP
- ☐ OmniFlow
- ☐ OmniDocs
- ☐ CSV

Q. 4 In iBPS (BAM), who can modify or delete the templates defined by other user?

- ☐ Only supervisor
- ☐ None other than who creates it
- ☐ All the users
- ☐ None of the above

Q. 5 In iBPS, which of the following is incorrect for Swim Lane?

- ☐ Swimlane can have a default Queue associated to it
- ☒ Swimlane can have an inner swimlane
- ☐ Worksteps can't be dropped outside swimlanes
- ☐ A name to a swimlane can be given

Q. 6 Which component of OmniDocs is actually used by end user using browser?

- ☒ OmniDocs Web component
- ☐ OmniDocs EJB component
- ☐ Both Web and EJB components
- ☐ None of the above

Q. 7 In OmniDocs "Create Shortcut" feature creates:

- ☐ New document of same size
- ☒ Create document reference only
- ☐ Both of the above
- ☐ None of the above

Q. 8 Which of these is not a type to register cabinet?

- ☐ UDP
- ☐ TCP
- ☒ HTP
- ☐ None of the above

Q. 9

OmniDocs allows users to manage image as well as electronic documents in a _____

- ☐ multiple database
- ☐ multiple compressed
- ☒ single centralized
- ☐ dual compressed

10 iBPS supported database is/are:

- ☐ Oracle
- ☐ MS-SQL
- ☐ Postgres
- ☒ All of the above

Q. 11 In iBPS(Process Designer), for sending a mail, which activity is used?

- ☒ Email

- ☐ Work desk
- ☐ Start Event
- ☐ End Event

Q. 12

OmniDocs Admin is also known as:

- ☐ Cabinet Management
- ☒ Document Management
- ☐ Queue Management
- ☐ Process Management

Q. 13 iBPS-Mobile is ?

- ☐ Native based Application
- ☐ Hybrid based Application
- ☐ Phonegap based Application
- ☒ NEMP based Application

Q. 14 Which is not Scan Protocol?

- ☐ Twain
- ☐ ISIS
- ☐ Paper scanner
- ☒ TCP

. 15 In iBPS(Process Designer), renaming operation is not possible on:

- ☐ Project
- ☒ Process
- ☐ Activity
- ☐ Swimlane

Q. 16 Rich Text is available in which control of iForms?

- ☐ Text Box
- ☒ Text Area
- ☐ Both of the above
- ☐ None of the above

. 17 In OmniFlow, quick search can be made on:

- ☐ Queue
- ☐ Process-Instance-ID
- ☐ Quick Search variables
- ☒ All of the above

Q. 18 Choose the correct option:

- ☐ Supervisor User cannot be deleted
- ☒ Supervisor User can be deleted
- ☐ Both of the above.
- ☐ None of the above.

Q. 19 Where to define omnidocs_logs folder location?

- ☐ server.xml
- ☐ configuration..properties
- ☐ odlogconfig.properties
- ☒ log4j.properties

Q. 20 In iForm, zoning is associated with:

- ☐ Frame

- ☐ Text box
- ☐ Table
- ☐ Header

Q. 21

Operations that can be performed in OmniDocs:

- ☐ Scanning
- ☐ Indexing
- ☐ Storage
- ☒ All of the above

22 In OmniDocs, Document Addition will only be possible when users have:

- ☐ Rights on Folder
- ☐ Rights on Group
- ☐ Rights on Data Class
- ☒ Rights on Folder and Data Class

Q. 23 Which of the following feature(s) are available for OmniApp views?

- ☐ View can be maximize and minimize
- ☐ Component instance can be resized, dragged and dropped
- ☐ Component instances can be restored
- ☒ All of the above

Q. 24 Which default screen can be set in iBPS mobile?

- ☐ My queue
- ☐ Dashboard
- ☐ Reminders
- ☒ All of the above

Q. 25 One can create Web API that connects with OmniDocs:

- ☐ With an username and password
- ☐ With OmniDocs user session id
- ☒ Both options 1st & 2nd
- ☐ Web API does not have provision to connect with OmniDocs. An explicit connection needs to be established.

Q. 28 Which of these is the license key file of OmniScan?

- ☐ OmniCapture.lic
- ☐ OmniScan.lic
- ☒ BulkScan.lic
- ☐ None of the above

Q. 29 Queues in Queue Management can be classified into:

- ☒ Shared Queue and My Queue.
- ☐ FIFO Queue and My Queue.
- ☐ WIP Queue and My Queue.
- ☐ All of the above.

Q. 30 My Queue contains:

- ☒ The list of workitems pending for the user
- ☐ The list of all the workitems of all the queues
- ☐ The list of only those workitems on which user has rights
- ☐ None of the above

Q. 31 The property "label as a subsection" can be configured through which control in iForm?

- ☐ Section Property
- ☐ Theme Configuration
- ☒ Label Property
- ☐ None of the above

Q. 33 Which section is not a mandatory section to be filled while creation of template in OmniScan?

- ☐ Data Section
- ☐ Data Class Section
- ☐ Folder Section
- ☒ Job Section

Q. 34 How many times can a Work-Item be referred?

- ☐ 1
- ☐ 2
- ☒ More than 3
- ☐ None of the above

Q. 1 In iBPS (Process Designer), Rule with a Distribute as an operation can be defined in:

- ☐ WorkDesk
- ☒ Distribute WorkStep
- ☐ DataBased Exclusive WorkStep
- ☐ None of these

Q. 2 OmniDocs Server architecture is based on below platform:

- ☒ J2EE
- ☐ .Net
- ☐ Both J2EE and .NET

- ☐ J2ME

Q. 3 Which of the following is not the default view available in OmniApp:

- ☐ Business Admin
- ☐ User Desktop
- ☒ Supervisor
- ☐ Process Designer

Q. 4 Which option is available under "View Search Result In" option of Web API?

- ☐ List View
- ☐ List Box
- ☒ List
- ☐ None of the above

Q. 5 iBPS can be deployed on which Application Server?

- ☐ JBoss EAP
- ☐ WebLogic
- ☐ WebSphere
- ☒ All of the above

Q. 6 Which Option a User should Click in Job section if he/she is a first time user of OmniScan?

- ☐ New
- ☐ Open
- ☐ Import
- ☒ Manage Template

Q. 7 A new workitem can be initiated only in:

- ☒ Introduction Queue
- ☐ FIFO Queue only
- ☐ WIP Queue only
- ☐ None of the above

Q. 8 Which of the following is not a BPMN term:

- ☐ Mile Stone
- ☐ Pool
- ☒ Group Box
- ☐ Swimlane

Q. 10 In iForm, what is the default height and width of Image box?

- ☐ H|100, B|100
- ☒ H|300, B|300
- ☐ H|400, B|400
- ☐ None of the above

Q. 11 Even distribution of jobs and associated communications across the computing and

-
- ☐ Distributed System
 - ☐ Fail Over
 - ☒ Load Balancing
 - ☐ Shared System

Q. 12 The concept of Workitem and process is in which of the following BPM?

- ☐ OmniDocs
- ☐ SAP
- ☒ OmniFlow

- ☐ CSV

Q. 13 In iBPS(Process Designer), which of the following is not an option while saving the

- ☐ Save as Same Version
- ☐ Save as Major Version
- ☒ Save as Previous version
- ☐ Save as Minor Version

Q. 14 Is case management available on iBPSPMobile?

- ☐ Yes, in iBPS3.0 SP1
- ☐ Yes, in iBPS3.0 SP2
- ☐ No
- ☐ Yes, in iBPS4.0

. 15 To upgrade a cabinet from previous version to latest version of OmniDocs, which order is CORRECT?

- 1). Associate old cabinet in OSA
- 2) Compile all procedures.
- 3) Upgrade Cabinet.

- ☐ 1,2,3
- ☒ 1,3,2
- ☐ 3,2,1
- ☐ In any order

Q. 16 In OmniFlow, the administrator can configure Process Variable Mapping for any of the

- ☐ 24
- ☐ 25
- ☒ 26
- ☐ 27

Q. 17 OmniApp Application can be registered in:

- ☐ Secure mode only
- ☒ Secure and insecure mode (both http & https)
- ☐ Only Insecure mode (http only)
- ☐ Insufficient options

Q. 18 Which of the following tasks are logged?

- ☐ Cabinet level operations only
- ☐ Process level Operations only
- ☐ Queue related Operations and User Operations
- ☒ All of the above

Q. 19 In iBPS, WorkItem sharing can be done with how many users at a time?

- ☒ One
- ☐ Two
- ☐ Three
- ☒ Multiple

Q. 20 What are the different date types present in date picker within iForm?

- ☒ Date picker and date time picker
- ☐ Date time picker
- ☐ Date picker and date time zone picker
- ☐ All of the above

Q. 21 In OmniScan, following is not the type available to export the records to DMS:

- ☐ Export All

- ☒ Export Previous
- ☐ Export New
- ☐ Export Current

Q. 24 Which API is used for connecting Cabinet in OmniDocs?

- ☐ NGOConnectDataBase
- ☒ NGOConnectCabinet
- ☐ NGOConnectServer
- ☐ NGConnectSystem

Q. 26 In iForm, what is the maximum number for column layout?

- ☒ 12
- ☐ 10
- ☐ 16
- ☐ 9

Q. 27 In BAM (wrt iBPS), which of the following can add/modify/delete reports from group dashboard?

- ☒ Group Members
- ☐ Controller
- ☐ Supervisor users
- ☐ Both the options 2nd & 3rd

Q. 28 Which type of external dll is not supported in OmniScan?

- ☐ Managed dll
- ☒ COM dll
- ☐ Flat dll
- ☐ None of the above

Q. 29 In iBPS, what does Manage Logger do?

- ☐ Allows to access logs of same server
- ☐ Allows to access logs of different server running services (iBPS)
- ☐ Allows to access logs of any server
- ☒ Both the options 1st & 2nd

Q. 30 Managed Code is used for which of these DLL type?

- ☒ VB
- ☐ Dot NET
- ☒ C++
- ☐ None of the above

Q. 31 In OmniDocs, Landing Page Configuration is applicable only for:

- ☐ System Tabs
- ☐ Custom Tabs
- ☐ Only for Document Search
- ☒ Both the options 1st and 2nd

Q. 33 Which section is to be filled so as to allow distributed scanning?

- ☐ Export Features
- ☐ Miscellaneous
- ☐ Flow Section
- ☐ User Defined Section

Q. 34 How many default groups are created in OmniDocs during installation?

- ☐ 2

- ☒ 3
- ☐ 4
- ☐ 5

Q. 35 In OmniScan, how many document types can be defined in Doc Type section?

- ☐ 225
- ☐ 1000
- ☒ 255
- ☐ Unlimited

Q. 36 Within iBPS(BAM), Pop out button in Dashboard container helps to:

- ☐ Open the report in new window
- ☐ Open the container in new window
- ☐ Open tab in new window
- ☐ None of the above

Q. 37 OmniDocs is built using which technology?

- ☒ J2EE
- ☐ DOTNET
- ☐ C
- ☐ PHP

Q. 38 In iBPS, what types of methods are managed through Catalog Definition window?

- ☐ External Functions
- ☐ Method exposed as WebService
- ☐ SAP functions
- ☒ All of the above

Q. 39 In iBPS, Forward and Reverse mapping tabs are not present in _____ WorkStep

- ☐ Sub-process
- ☐ Web Service
- ☒ Exit WorkStep
- ☐ None of the above

Q. 40 Options for creating users, group and data classes are present/available under:

- ☒ System Administration
- ☐ Configure Desktop
- ☐ Service Management
- ☐ License Management

Q. 41 In iBPS(Process Designer), which of the following can have duplicate name?

- ☐ Start Event
- ☐ Work Desk
- ☒ Data Object
- ☐ End Event

Q. 42 OmniDocs native view can be used to view:

- ☐ Image files
- ☐ Multimedia files
- ☐ MS Office files
- ☒ All of the above

Q. 43 In OmniDocs, dataclass can be attached to:

- ☐ Groups

- ☐ Users
- ☐ Roles
- ☒ None of the above

Q. 45 After login to Web client which queue is shown:

- ☐ Dynamic Queue
- ☒ My Queue
- ☐ Search Queue
- ☐ None of the above

Q. 46 Select which among below is not an option while creating dataclass field in OmniDocs?

- ☒ Useful
- ☐ Mandatory
- ☐ Unique
- ☐ Size

Q. 47 What API would you use to dissociate globalindex from document

- ☐ NGORemoveGlobalIndexFromDoc
- ☐ NGODisAssociateGlobalIndexFromDocument
- ☐ NGORemoveGlobalIndexFromDocument
- ☒ NGODeleteGlobalIndexFromDocument

. 48 What two options are available for label-input alignment in iForm?

- ☐ Top-down, Left-right
- ☐ Left-right, Bottom-up
- ☐ No option is available
- ☐ Both of the option 1st and 2nd

Q. 49

You want to perform replication in such a way in OmniDocs so that the data that is getting added at the Source should also get added at the replica site at the same time.

- ☒ Immediate Replication
- ☐ Delayed Replication
- ☐ Instantaneous Replication
- ☐ Immediate Adding Replication

Q. 50 What is the name of the exe file of OmniScan?

- ☐ NGOmniScan.exe
- ☒ NGBulkScan.exe
- ☐ NGOmniCapture.exe
- ☐ NGBulkCapture.exe

Q. 1 In iForm, Background color can be applied on below controls?

- ☐ Combo box
- ☐ Radio button
- ☐ Check box
- ☐ All of the above

Q. 3 A priority of the workitem can be classified into:

- ☐ Low and High only
- ☒ Low, Medium, and High only
- ☐ Low, High, and Very High only
- ☐ Low, Medium, High, and Very High

Q. 4 During Search Configuration / making a Search in OmniDocs Admin,

Include Full text Search is applied on:

- ☒ Only on Document Search but not on Folder Search
- ☐ Only on Folder Search but not on Document Search
- ☐ This feature does not exist during making a Search
- ☐ On both Document and Folder Search

. 5 Is OmniDocs Architecture Scalable?

- ☒ Yes, scalable horizontally
- ☐ No, Not scalable
- ☐ Yes, scalable vertically
- ☐ It is scalable horizontally and vertically both

Q. 6 In OmniScan, which of these files is not present in common Dll folder?

- ☐ ImgSrv.dll
- ☐ Thumbnail.dll
- ☐ PanComp.dll
- ☐ GUIInterface.dll

Q. 7 In OmniDocs, using Opallviewer, which type of documents can be viewed?

- ☐ .png , .xls
- ☒ .jpg, .png , .tif, .pdf, .bmp
- ☐ .tif, .ppt ,.doc
- ☐ .xls

Q. 8 In iBPS(Process Designer), mandatory fields in defining the Mail Trigger are:

- ☒ To
- ☐ Cc
- ☐ Priority

- ☐ BCC

Q. 11 In iBPS (BAM), output format of the scheduled report could be:

- ☐ pdf
- ☐ xlsx
- ☐ txt and HTML
- ☒ All of the above

Q. 12 In OmniScan, which short cut key is available for Scanning?

- ☐ Ctrl A
- ☐ Ctrl C
- ☒ Ctrl S
- ☐ Ctrl G

Q. 14 In iBPS, who can change save changes to a WorkItem while WorkItem is in shared mode?

- ☒ Any user to whom WorkItem is shared
- ☐ Any Supervisor user to whom WorkItem is shared
- ☐ Owner of the WorkItem
- ☐ Any supervisor user.

Q. 15 Following feature is not provided in export to OmniFlow from OmniScan:

- ☒ Delete workitem
- ☐ Create workitem
- ☐ Move to next stage
- ☐ Update workitem

Q. 16 Which option is available under "View Search Result In" option of Web API?

- ☐ List View
- ☐ List Box
- ☒ List
- ☐ None of the above

Q. 17 To configure Alarm mailer which of the following file needs to be configured?

- ☐ AlarmMailer.ini
- ☐ MailClient.ini
- ☐ Alarm.ini
- ☐ AlarmService.ini

Q. 18 On the basis of what conditions, sheet handling is done in iForm?

- ☐ Process Name
- ☒ Activity Name
- ☒ User Name
- ☒ All of the above

Q. 20 In OmniDocs, RIS Stands for:

- ☒ Remote image server
- ☐ Remote information system
- ☐ Rational informatic system
- ☐ None of the above

. 21 A new workitem can be initiated only in:

- ☒ Introduction Queue
- ☐ FIFO Queue only
- ☐ WIP Queue only
- ☐ None of the above

Q. 23 iBPS supported database is/are:

- ☐ Oracle
- ☐ MS-SQL
- ☐ Postgres
- ☒ All of the above

Q. 24 How does OmniDocs EJB components connect to database

- ☐ Using ODBC bridge
- ☐ Using JDBC-ODBC bridge
- ☐ Using JDBC API
- ☐ Using System DSN

Q. 25 Which option is present in OmniScan to generate ini file?

- ☐ Manage Template
- ☐ Generate INI
- ☐ Save INI
- ☒ Create INI

Q. 27 Process Manager is?

- ☐ User friendly desktop for administration and monitoring of all business processes.
- ☐ Web based tool used for monitoring the status of workitems, worksteps etc.
- ☐ Web based tool using which clients can perform the workflow operations.
- ☐ Both options 1st & 2nd

Q. 29 In iBPS, which among the following is not an Object type?

- ☐ Process Client WorkList
- ☐ PMWEB Menu Management
- ☐ BAM General Rights
- ☒ Create Report

Q. 30 Which call to be used to associate the Keywords with a document?

- ☒ NGOAddKeywordsToDoc
- ☐ NGOAddKeywordsToDocument
- ☐ NGOAttachKeywordsToDoc
- ☐ NGOAddKeywordToDocument

Q. 1 In iBPS, how many type of layouts can be configured in WorkDesk?

Marks:1

Fixed, Editable Layouts

Editable Layout

No Layout is Defined

Multiple including Custom WorkDesk.

Q. 2 Which feature of MDM enables to take the input of the column from other table? Marks:1

Custom picklist

Data Picklist

Associated Picklist

None of the above

Q. 3 OmniApp Application can be registered in: Marks:1

Secure mode only

Secure and insecure mode (both http & https)-----

Only Insecure mode (http only)

Insufficient options

Q. 4 Rules in iBPS (BAM) helps to Marks:1

Apply the color coding of the data when some rule condition satisfies

Send the mail to group or users when some rule condition satisfies

Sends the mail to some specific mail ids when some condition satisfies

All of the above

. 5 In iBPS, what privileges a member of supervisor group has? Marks:1

As defined for the user

All the privileges -----

All when privileges are not defined for user and User defined when privileges defined for the user

Has no privileges

Q. 6 In BAM (wrt iBPS), Manage Dashboard link is available to: Marks:1

Normal and Design Mode of all users

Design Mode of all users

Normal and Design Mode of Supervisor users

Users having access to Dashboard users-----

Q. 7 In iBPS, how can we capture report data over a period of time in BAM? Marks:1

Through Alerts

Using Report Trends

Through Scheduler

None of the above

Q. 9 In iBPS, BAM Reports are categorized into following Marks:1

General Reports only

Administrative Reports only

Hidden Reports & Custom Category only

General Reports, Hidden Reports and Custom Category only-----

Q. 10 In iBPS (BAM), to make the report hidden signifies that: Marks:1

The report is not available in General Report category list-----

The report is available in general category list but cannot be generated

The report is hidden from the users other than the one who created it

None of the above

Q. 11 In iBPS, which of the following is/are not the component(s) of WebDesktop? Marks:1

Audit Log

Process Management

Rights Management

Both the options 2nd & 3rd

Q. 12 In iBPS (BAM) reports can be generated in following types: Marks:1

Tabular

Graphical

Matrix

All of the above-----

Q. 13 What does MDM stand for? Marks:1

Master Data Management-----

Master Database Manipulation

Master Database Management

Master Data Modification

Q. 14 MDM can import: Marks:1

Only exported tables

Only tables created through MDM interface

Tables created through database as well as from MDM interface-----

None of the above

Q. 15 In iBPS, how can we enable collaborative chat on a WorkItem? Marks:1

Enabled by default for all workitems

Enabled on sharing workitem

Collaboration server must be running

Both the options 2nd & 3rd

Q. 16 In iBPS, what type associations can user have with groups/ profiles? Marks:1

Permanent Assignment

Assignment till date

Both of the above

None of the above

Q1. Name the Mode where user can design and modify reports.

Ans: [Design Mode](#)

Share the path where License.txt file is placed in BAM. [Jboss directory\bin\crwebconfig](#)

What kinds of reports are available in BAM : [General Reports and Hidden reports](#)

One can design report in BAM using

1. Only using Query Wizard
2. Only executing Stored Procedure
3. Only using query execution
4. [All of above](#)

What is correct syntax to declare input params in BAM. '[\\${Param Name}\\$](#)'

What option is not available in BAM in Report Field Property window . [Count](#)

What link option does in BAM [It links a second report with a particular column of base report](#)

How user can enter values in Input field.

1. Manually can insert values.
2. Can select values from drop down
3. Can select value from calendar in case of Date field
4. [All of above](#)

Which feature allow user to use already configured reports. No need to configure again and again [Export/Import Reports](#)

OmniDocs API's Sample Quiz

Q 1: Which API is used for connecting Cabinet? [NGOConnectCabinet](#)

Q 2: Which API is used to create folder in OmniDocs?c. [NGOAddFolder](#)

Q 3: NGOGetFolderIdForName API is used for?b. To fetch Folder Index

Q 4: API which is used to fetch list of DataClass available in cabinet?NGOGetDataDefListExt

Q 5: NGOIsAdmin validates?c. whether the logged in user is a member of the Supervisor Group

What API would you use to check whether a user is Admin or not? NGOIsAdmin

API are available under the license of : Development

Calling API can be eased due to use of:NGCallBroker

Which call is used to obtain the Log generated for the objects like user, group, document, folder etc?NGOFetchLog

Which call to be used to associate the keywords with a document?NGOAddKeywordsToDoc

Rules cannot be associated with? Triggers

How to achieve the functionality of locking and unlocking of document, folder or cabinet?NGOProcessLock

Which call to be used to associate the Keywords with a document?NGOAddKeywordsToDoc

How to get list of groups in the system?NGOGetGroupListExt

Which method of NGCallBroker is used for calling API:makeCall

If API returns error code in positive number then it means:Warning

How to fetch property of an OmniDocs Group?NGOGetGroupProperty

In MDM, Maker-Checker feature cannot be enabled on the following operation:Import table

1) BAM stands for -- Business Activity Monitor

Name the Mode where user can design and modify reports
Design Mode

Share the path where License.txt file is placed in BAM.
Jboss directory\bin\crwebconfig

What kinds of reports are available in BAM General Reports and Hidden reports

One can design report in BAM using All of above

What is correct syntax to declare input params in BAM. `'${Param Name}$'`

What option is not available in BAM in Report Field Property window. `Count`

What link option does in BAM.

`It links a second report with a particular column of base report`

How user can enter values in Input field.

1. Manually can insert values.
2. Can select values from drop down
3. Can select value from calendar in case of Date field
4. `All of above`

Which feature allow user to use already configured reports. No need to configure again and again
`Export/Import Reports`

In BAM, if the user has been assigned Modify Report rights then: Marks:2 `user able to modify and generate the report`

Can we change the display name of the fields in BAM: Marks:2 `Both` option 1st & 2nd
[Hook](#)

1) Hook can be implemented for

a) OmniFlow APIs

b) Omnidocs APIs

`c) Both of the above`

d) None of above

2) Hook can alter Input XML `c) Yes but only for API for which Hook is being implemented`

3) To implement PreHook we need to write code in function `a) executeIn`

4) To implement PostHook we need to write code in function `2) executeOut`

5)After deploying OFhook.jar, entry must be done in **b)Hookdata.xml**

6)Naming convention of class file for which hook is being implemented must be

a)First 3 characters of API should be replaced with 'HOOK'

Form Builder

1.What is the shortcut key for Properties window in form builder?**F4**

2.Among the following components of Form Builder, which component can be used as a container for other components?**Frame**

3.In Form Builder, which of the control does not have zone property?**Frame**

4.Which component of Form Builder is used for displaying an image on the form?**Picture** **Box**

5.Which date format is not present in the default date formats of a date picker?**yyyy/dd/MM**

6.A form can be saved into which format?**NGF**

7."Columns" property can be set for which of the following form control?**List** **View**

8."Locked" property can be set for which of the following form control?**Combo** **Box**

9.Which of the following statement is true about form height in Form Builder?**Its dimensions are in pixels**

10.void NGFPropInterface.setNGLocked(String arg0, boolean arg1) method is used for performing which task on Textbox?**Making** **a form control read only / editable**

11.From which of the following newgen product Form builder can be accessed?**Process** **Modeler**

12. Which of the following is true regarding Grid:

1. We can select Multiple rows by setting MultiSelect Property as True
2. We can hide a control by setting the width of a column as 0 while mapping with the Grid
3. **Both** **a and b are correct**
4. Both are incorrect.

13. Which is true regarding formObject.setNGValue("ControlName", "Changed_Value") method in NGFUser custom code? **Text box value can be changed and Label can be changed**

14. How can we restrict adding of null value while Adding and Modifying a row in the Grid?

- Not Possible
- By adding validation in ngfUser.jar.
- By Unchecking the checkbox of Allow Null while adding the mapping of the field on Form Builder?
- **Both b and c are correct**

15. Which property is used for aligning the text while Adding or modifying the field in the Grid? **TextAlign**

16. How to add a default value in ComboBox?

- **By setting the List Index**
- By adding the value in Default section property of ComboBox in formbuilder.
- The first value is set as default automatically.
- Not Possible

17. What is the function of Collapsible property of Frame?

1. Frame can be hidden on by double clicking on the Frame.
2. Frame size will become changable
3. **Frame will become collapsable**

4. None of the above

18. How to set the Casing of the text entered in a Text box as All Upper?

- By setting AllUpper in CharacterCasing property of textbox
- By setting Upper in CharCasing property of textbox
- By setting Upper in CharacterCasing property of textbox
- By setting AllUpper in CharCasing property of textbox

19. What is the tabindex of the first control added in the form?

1. 1
2. 2
3. 3
4. 4

20. How to enter date manually in DatePicker?

- By setting its property Editable as True
- By setting its property Editable as Yes
- By setting its property Editable as Manual
- By setting its property Editable as Both

21. Which property is used to set Multi Select option in ComboBox?

1. MultiSelect
2. MultipleSelect
3. MultiSelection
4. **ComboBox** **don't have Multi Select option.**

22. void NGFPropInterface.NGAddItem(String arg0, String arg1) method is used for performing which task?

1. **Adding a value in a Combo Box**
2. **Adding a value in a List Box**
3. Adding a value into a Gri
4. None of the above

23: How to clear List values in a ComboBox?

- **formObject.NGClear("ControlName")**
- formObject.setNGClear("ControlName","")
- formObject.NGClearList("ControlName")
- formObject.setNGClearList("ControlName")

24. Which method is invoked in the ngfUser Class on formLoad?

- `public void fieldValueBagSet(){}`

- `public String fieldValueBagSet(){}`
- `public String fieldsValueBagSet(){}`
- `protected String fieldValueBagSet(){}`

25. How to set the checkbox value as checked?

1. `formObject.setNGValue("ControlName", true)`
2. `formObject.setNGValue("ControlName", "checked")`
3. `formObject.setNGValue("ControlName", "true")`
4. `formObject.setNGValue("ControlName", 0)`

26. How we can disable a checkbox on form using NGFUser custom code?

- `formObject.setNGLocked("ControlName","false")`
- `formObject.setNGLocked("ControlName",false)`
- `formObject.setNGEnable("ControlName","false")`
- `formObject.setNGEnable("ControlName",false)`

27. Which method of NGFUser is invoked on click of Done after ngfUser_Validation method?

- `public void NGF_SaveNGFData(String pEvent) {}` with pEvent as 'D'
- `public int NGF_SaveNGFData(String pEvent) {}` with pEvent as 'Done'
- `public int NGF_SaveNGFData(char pEvent) {}` with pEvent as 'D'

- `public int NGF_SaveNGFData(String pEvent) {}` with pEvent as 'D'

28. Which method is used for adding validations for Mandatory fields in NGFUser.jar method?

1. `public int ngfUser_Validation(String pEvent) {}`
2. `public void ngfUser_Validation(String pEvent) {}`
3. `public boolean ngfUser_Validation(int pEvent) {}`
4. `public boolean ngfUser_Validation(String pEvent) {}`

29. Which command is used to modify a selected row in a grid in NGFUser custom code on click Event?

1. `formObject.ExecuteExternalCommand("NGModifyRow","GRID_NAME")`
2. `formObject.ExecuteExternalCommand("ModifyRow","GRID_NAME")`
3. `formObject.ExecuteExternalCommand("NGUpdateRow","GRID_NAME")`
4. `formObject.ExecuteExternalCommand("UpdateRow","GRID_NAME")`

30: Which method is used to Execute Select Query in NGFUser custom code?

1. `formObject.getNGDataFromDataSource("Query","ColumnCount","ControlName","ColSequence")`
2. `formObject.executeNGDataFromDataSource("Query","ColumnCount","ControlName","ColSequence")`
3. `formObject.fetchNGDataFromDataSource("Query","ColumnCount","ControlName","ColSequence")`
4. `formObject.selectNGDataFromDataSource("Query", "ColumnCount","ControlName","ColSequence")`

31. Which method is used to Execute Insert, Update and Delete Query in NGFUser custom code?

1. formObject.insertNGDataIntoDataSource(List_of_Queries)
2. formObject.saveNGDataIntoDataSource(List_of_Queries)
3. formObject.executeNGDataIntoDataSource(List_of_Queries)
4. formObject.saveNGDataFromDataSource(List_of_Queries)

32. How to setFocus on a particular control?

- formObject.NGFocus("Control_Name")
- formObject.setNGFocus("Control_Name")
- formObject.CTRLFocus("Control_Name")
- formObject.setCTRLFocus("Control_Name")

33. What is the purpose of using the method NGF_GetMsgString in NGFUser custom coding?

- To get the Message string for the control.
- To provide the custom error messages in place of the default error message provided by the application.
- To get the error messages String to be displayed on occurrence of an error.
- None of these

34. Which method is used to hide a control on the form?

1. `formObject.setNGVisible("Control_Value", true)`
2. `formObject.setNGVisible("Control_Value", "true")`
3. `formObject.setVisible("Control_Value", true)`
4. `formObject.setVisible("Control_Value", "true")`

35. What all events can be applied on Frames?

- GOTFOCUS
- LOSTFOCUS
- CLICK
- None of the above.

Repeater is more closely related to: Marks:2

•Listview

•Textbox

•Frame

•None of the above

Which is/are true about Form Builder control? Marks:2

•Checkbox and option button are similar in functionality

•Checkbox and option button are not similar in functionality

•Listview and listbox are same controls

•None of the above

In which format Newgen forms can be saved? Marks:2

- Text format
- Doc format
- Ngf format
- None of the above

In OmniFlow Form Custom coding, NGF_GetMsgString() method is used to: Marks:1

- Override any localized message of FormApplet
- Show any error message on form
- Fetch message content and code of message
- None of the above

OmniDocs

What is the size limit for dataclass name in OmniDocs? Marks:2

- 256
- 128
- 64
- Unlimited

Q)Define jndi port for OD in:-

- Eworkstyle.ini
- Server.xml
- Admin.xml

- `NgoClientdata.xml`

Doc from underlying OD can be Imported in OF?

- `Yes`
- No

Multiple sites with same IP can be added in OD?

- Yes
- `No`

Choose the correct one: Marks:2

- `It is possible to assign right for Dataclass`
- It is possible to assign right for Global Index
- Both of the above
- None of the above

How to get List of Groups in the System? Marks:1

- `NGOGetGroupList`
- `NGOGetGroupsListExt`
- `NGOGetGroupsList`
- `NGOGetGroupListExt`

In which of the following cases a user can perform sharing of folder in OmniDocs? Marks:2

- If user is an owner of the folder.

- If user is a member of supervisor group.
- If user is member of the group having assign right privilege.
- In all of the above cases.

In OmniDocs, Supervisor can add folder at the following: Marks:2

- - Root level
- - Sub folder
- - Both of the above
- - None of the above

Choose the correct one: Marks:2

- It is possible to associate Global Index to Folder only
- It is possible to associate Global Index to Folder & Document
- It is possible to associate Global Index to Document only
- All the above are correct

1:- What is omnidocs

- - A desktop based application for managing and viewing the documents stored
- - A web based application for managing and viewing the documents stored
- - Both A and B
- - None of these

2:- Omnidocs supports document searching on

1:-Data class, Global index, Document Name, owner and Specific Date

2:-Data Class, Global index, Document Name and Date Range

3:-Data class, Document Name, Global index, Date Range and owner

1. 1 and 2
2. 1 and 3
3. 2 and 3
4. None of these

5.

3:-We can assign rights to supervisor from omnidocs admin

1. True
2. False

4:-Omnidocs support folder search on

1:-Data class, Name, owner and Specific Date

2:-Data Class, Name and Date Range and Full Text Search

3:-Data class, Name, Date Range and owner

- 1 and 2
- Only 2
- 2 and 3
- Only 3

5:-It is possible to create a new version a document in omnidocs

1. Yes, by using check –in check-out feature
2. Yes, download document, modify it and re-upload the document

3. Yes download document delete it from omnidocs, change in downloaded document and upload
4. No, document versioning is not possible.

6:-We can add document of types

1. All types defined in admin.ini files
2. All types defined in provision.ini file
3. All types defined in mime.conf file
4. All types defined in uploadmime.conf file

7:-Which option related to document is not present in omnidocs

1. Link
2. Duplicate
3. Forward
4. Order

8:- We can logout OD client session from

1. Master Desktop screen
2. Custom Desktop screen
3. Both
4. None of these

9:- Maker Checker Feature can be applied to

1. Data Class
2. Site
3. Volume
4. None of Above

10:- In omnidocs we can assign rights on cabinet level

1. True
2. False

11:- Rights can be assigned to data class

1. At time of creation of data class
2. After creation
3. Both
4. Not possible

12:-We can search folder from omnidocs admin

1. True
2. False

13:-What is a Site

1. Location where application server is running
2. Location where omnidocs is installed

3. Location Wrapper is running
4. Location where Image Files are stored and can be accessed thereafter

14:- Available Security levels in omnidocs are

1:-Cabinet Level

2:-Object Level

3:-No Security

1.
1 and 2
2. 1 and 3
3. 2 and 3
4. 1,2 and 3

15:- How many types of user are there in Omnidocs

1.
2
2. 3
3. 4
4. 5

16:-Options for creating users, group and data classes are present under

1.
System Administration
2. Configure Desktop
3. Service Management
4. License Management

17:- We can assign data class to a document from

1. Omnidocs Admin
2. Omnidocs Client
3. Both
4. None of these

18:- We can assign data class to a folder from

1. Omnidocs Admin
2. Omnidocs Client
3. Both
4. None of these

19:- Global index can be associated with

1. Document
2. Folder
3. Both
4. None of these

20:-Multiples volumes can be created on a single site

1. True
2. False

OmniDocs API

Q 1: Which API is used for connecting Cabinet?

- a. NGOConnectDataBase
- b. NGOConnectCabinet**
- c. NGOConnectServer
- d. NGConnectSystem

Q 2: Which API is used to create folder in OmniDocs?

- a. NGOCreateFolder
- b. NGOInsertFolder
- c. NGOAddFolder**
- d. None of these

Q 3: NGOGetFolderIdForName API is used for?

- a. To fetch Folder name
- b. To fetch Folder Index**
- c. To fetch Folder properties
- d. None of these

Q 4: API which is used to fetch list of DataClass available in cabinet?

- a. NGOGetDataDefList
- b. NGOGetDataClassList
- c. NGOGetDataClassListExt
- d. NGOGetDataDefListExt**

Q 5: NGOIsAdmin validates?

- a. whether the logged in user is a member of the public Group
- b. whether the logged in user is a member of the Everyone Group
- c. whether the logged in user is a member of the Supervisor Group

500.

None

Q 6: Which status Code will get return in case of successful execution of API

- a. 1
- b. 0
- c. 11
- d. None of these

Q 7: In which tag session ID will pass for API

- a. <SessionID>
- b. <UniqueID>
- c. <UserDBID>
- d. None of these

Q 8: Which tags are mandatory for all API

- a. Option, CabinetName
- b. CabinetName, TableName
- c. IndexID, DataClassTag
- d. All Tags Are Mandatory

Q 9: API Stands For

- a. Application Programming Interface
- b. Application Package Import

c. Application Package Information

d. All of the above

Q 10: From which call you can get Session ID?

a. NGOGetSessionID

b. NGOGetUserDBId

c. NGOConnectCabinet

d. None of the above

How to get list of Data Definition in the System? Marks:1

- NGOGetDataDefListExt
 - NGOGetDataDefinitionListExt
 - NGOGetDataDefinitionList
NGOGetDataDefList
-
1. NGOGetGroupListExt : To get list of groups in cabinet/system
 2. SetGlobalDateFormat() : To set dateformat for all date types in one go
 3. NGOGetGroupProperty :To get property of a group in omnidocs
 4. NGOGETDATADEFLISTEXT : To get data definition list
 5. NGOProcessLocks : The functionality of locking and unlocking of document, folder or Cabinet can be achieved using this transaction. By providing the VersionNo, any particular Version of a document can be locked.
 6. NGOgetidfromname() : To get an objects index from name
 7. NGODELETEGLOBALINDEX() : API used to remove global index from system
 8. NGODELETEGLOBALINDEXFromDocument() : API used to dissociate global index from document.

How to obtain id of a folder/document knowing only its name? Marks:1

- `•NGOGetIdForName`
- `•NGOGetIdFromName`
- `•NGOObtainIdFromName`
- `•NGOObtainIdForName`

Which call is used to obtain the Log generated for the objects like user, group, document, folder etc?
Marks:1

- `•NGOGetLog`
- `•NGOGetObjectLog`
- `•NGOFetchLog`
- `•None`

How to achieve the functionality of locking and unlocking of document, folder or Cabinet? Marks:1

- `•NGOGetSetLocks`
- `•NGOSetGetLocks`
- `•NGOPerformLocks`
- `•NGOProcessLoc`

OmniDocs Web API

1:- What is omnidocs web API

1. Newgen created web based framework using which we create custom applications
2. Newgen created web based framework for running omnidocs application
3. Newgen created web based framework for the integration of any external application with OmniDocs.
4. Newgen created web based framework for running newgen created web applications

2:- We can create web API that connects with omnidocs

1. With an username and password
2. With omnidocs user session id
3. Both of Above
4. Web API does not have provision to connect with OD. Explicit connection need to be established.

3:- We can

1. Add, modify and delete applications in web API
2. Add, modify but can't delete application
3. Add, delete but can't modify application
4. Only add application

4:-Which integration type is not available in Web API

1. Document View
2. Folder View
3. Document List
4. Folder List

5:-We can sort the document list by its type

1. True
2. False
3. Sorting is not allowed

6:-Which option is available under “View Search Result In” option of web API in omnidocs

1. List View
2. List Box
3. List
4. None of these

7:- Which search option is not available in Integration type Document List

1. Document Name

2. Data Class
3. Folder
4. None of these

8:- Time out in web API is defined in

1. Minutes
2. **Seconds**
3. Milliseconds
4. Nanoseconds

9:- It is mandatory to define criteria when data class search option is selected

1. **True**
2. False

10:- In web API

1. We create application and omnidocs provides its name
2. It is mandatory to provide the application name
3. Application name is user defined.
4. Application name is mandatory and can be only system defined.

1. 1 and 2
2. 2 and 3
3. 1, 3 and 4
4. 1, 2 and 4

OmniDocs Architecture Questions

1. OmniDocs Architecture is based on
 1. Model View Controller
 2. Model viewer container
 3. Mode view controller
 4. Model controlled view

2. Does OmniDocs Architecture support platform independence
 1. No
 2. Yes
 3. Depends on how it is deployed
 4. No, as it is purely desktop based application

3. OmniDocs Server architecture is based on below platform

1. J2EE
2. .net
3. Both j2ee and .net
4. J2ME

4. How does OmniDocs achieves Platform independence

1. Using web services
2. Using .net API
3. Using file sharing approach
4. Using XML based API

5. Is OmniDocs Architecture Scalable

1. Yes, scalable horizontally
2. No , Not scalable
3. Yes, Can be scaled horizontally
4. It is scalable horizontally and vertically both

6. How does OmniDocs Server components in interact with SMS

1. Using web service passing SMS port as input to web service
2. Using xml based API mentioning SMS port

3. Using TCP/IP on SMS port
4. Using JNDI lookup on application server port

7. How does OmniDocs web component interact with the server (EJB) component?

1. Using TCP/IP on port http port
2. Using JNDI lookup on Application Server port
3. Using xml based API and establishing connection using JNDI lookup
4. Using xml based API and establishing connection using TCP/IP on http port

8. What components are deployed on Web server in distributed deployment of OmniDocs

1. EJB and war
2. Only EJB
3. EAR and EJB
4. Only WAR

9. What components are deployed on Application server in distributed deployment of OmniDocs

1. EJB and war
2. Only EJB
3. EAR and EJB
4. Only WAR

10.
How does OmniDocs EJB components connect to database

1. Using ODBC bridge
2. Using JDBC-ODBC bridge
3. Using JDBC API
4. Using System DSN

11.
Which Component of the OmniDocs is actually used by End user using browser

1. OmniDocs Web component
2. OmniDocs EJB component
3. Both Web and EJB components
4. None of the above

12.
Which one is incorrect with respect to OmniDocs Architecture

1. OmniDocs web component directly interact with Database
2. OmniDocs web component never interacts with Database directly
3. OmniDocs EJB component directly interact with Database
4. OmniDocs web component interacts with Database via EJB component

13.
Where does the OmniDocs application stores the web session level information on Application Server and Web server

1. On EJB components
2. In Java Beans on EJB Components
3. In Web Components of OmniDocs
4. In Both EJB and Server components

14.

Which one is correct regarding OmniDocs deployment and functioning

1. OmniDocs need at-least on backend database for deployment and function
2. OmniDocs can run without any database
3. OmniDocs can run with database and without database also
4. OmniDocs maintains data in windows file system in SMS
5. None of the above
6. All of the above

15.

Can web browser directly interact with EJB components of OmniDocs

1. Yes
2. Yes , if EJB components are deployed on web server
3. No, only OmniDocs web components can be accessed directly via web browser.
4. None of the above

Q 1: Which of the identifier is not used as Folder identifier?

- a. Fix Page
- b. Barcode
- c. Barcode Sticker
- d. Extract from defined Document**

Q 2: In document Section which is not used in Saved Image type?

- a. Halftone
- b. Millions of Colors**
- c. Grayscale 8-bit
- d. Color 8 bit

Q 3: Which of the compression scheme cannot be applied on color images?

- a.G4**
- b.JPEG
- c.LZW
- d. PackBits

Q 4: Image cannot be exported in Image Format from OmniScan?

- a.TIFF
- b.PDF
- c.JPEG**
- d. PDFA

Q 5: Which is not a type of Data Extract in Data Section?

- a.OCR

b.ICR

c. HDD File Name

d. Image Assisting data entry

Q 6: Which version of Dot Net framework is not supported by OmniScan ?

a. Dot Net framework 1.0

b. Dot Net framework 2.0

c. Dot Net framework 3.0

d. Dot Net framework 3.5

Q 7: MDB stands for?

a. Microsoft Access Database

b. Master Database

c. Multiple Access Database

d. Microsoft Excel Database.

Q 8: What is ManageTemplate?

a. To manage OmniScan Exporting.

b. To manage and create OmniScan template.

c. To manage image importing process.

d. To manage Scanner Interface.

Q 9: Which section is not available in ManageTemplate GUI?

a. Data Section

b. Folder Section

c. DataClass Section

d. Importing Section

Q 10: Which ScanType is supported in OmniScan?

- a. Simplex
- b. Duplex.
- c. Both a and b**
- d. None of these

Q 11: Which is not a valid data type in Data section in OmniScan?

- a. Float
- b. Boolean**
- c. String
- d. DateTime

Q 12: Which type of File format cannot be imported in OmniScan?

- a. Docx**
- b. DCX
- c. TIF
- d. Pdf

Q 13: How can we register cabinet through OmniScan?

- a. By using TCP
- b. By using HTTP
- c. By using FTP
- d. Both a and b**

Q 14: Image editing in OmniScan possible or not?

- a. True**
- b. False

Q 15: Can we create new DataClass in OmniDocs through OmniScan?

a. True

b. False

A job in OmniScan is a

- 1.
5. Collection of images
6. **Collection of records**
7. Collection of database
8. None of the above

11. What option is used to create a new template or to update an existing one

1. Create Template
2. Update Template
3. **Manage Template**
4. Modify Template

12. Which data field property user need to set if he wants its value to be entered for single record and once saved, should get reflected in all other records.

1. Global Index
2. Read Only
3. Update To all
4. **Carry Forward**

13.

What kind of Data Extraction is not supported in Omniscan

- OMR
- MICR
- OCR
- Barcode

14.

What option is not available in Omniscan as Folder Identifier

1. Blank Page
2. Barcode

c) Extract from the defined document

1.

3.

Fix page

15.

What option to use to export the job just after creation of records.

1. Auto Upload
2. Auto Export

c) Export All

1.

3.

No such feature available

16.
What is **Ready for Export** option in Omniscan.

1. It asks for user confirmation before exporting to OD
2. It asks for user confirmation before exporting to OF
3. **This** feature allows user to move the job (mdb + image) to a local system folder for future export.
4. No such feature available

17.
Which section is not a mandatory section to be filled while creation of template in OmniScan.

1. Data Section
2. Data Class Section
3. Folder Section
4. **Job** **Section**

18.
Which lowest version framework is required to run OmniScan.

1. NET framework 1.0
2. **NET** **framework 2.0**
3. NET framework 3.0
4. .Net framework 3.5

19.
Which exe to run to launch Omniscan.

1. **NGBulkScan.exe**
2. NGOmniscan.exe
3. Omniscan.exe
4. Bulkscan.exe

20.

Addins section is defined in which ini.

1. **Job.ini**
2. NGAppSettings.ini
3. NGBulkScan.ini
4. None of these

12) Which of these image types cannot be imported?

- a) TIF
- b) JPEG
- c) **DOC**
- d) GIF

13) Which section to fill to allow distributed scanning?

- a) Export Features
- b) Miscellaneous
- c) **Flow Section**
- d) User Defined Section

14) What is the maximum length of a string a text field?

- a) 255
- b) 8000
- c) 32000
- d) 64000

15) While exporting the record, which option is not available?

- a) Export All
- b) Export New
- c) Export Current
- d) Export Previous

16) Is it possible to run multiple instances of Omniscan?

- a) No This feature is not available.
- b) Yes multiple instances can run by default.
- c) While installing Omniscan, we define how many instances we need to run at a time.

d) By configuring NGBulkScan.ini we can run multiple instances of Omniscan

17) What database Mgt system Omniscan use to store information about all records and jobs.

- a) Microsoft SQL server
- b) Oracle
- c) MySql
- d) Microsoft Access

18) Is it possible to maintain Omniscan template at a centralized location and all Scanning machine will download it from there?

- a) Yes, need to change ngbulkscan.ini
- b) Not possible

c) Need to define “Setup :-> Preferences :-> INI Settings” option in Omniscan window

d) Need to define “Setup :-> Preferences :-> Download Settings” option in Omniscan window

19) Is it possible to save any template as default template and same will be opened without prompting user to select one when he clicks on new?

a) Yes, need to change ngbulkscan.ini

b) Not possible

c) Need to define “Setup :-> Preferences :-> Save Configuration” option in Omniscan window

d) Need to define “Setup :-> Preferences :-> Save New Job Configuration” option in Omniscan window

20) Is it possible to save exporting credentials once entered and user will not be asked to enter again while exporting and saved credentials will be used?

a) Yes, need to change ngbulkscan.ini

b) Not possible

c) Need to define “Setup :-> Preferences :-> Save Configuration” option in Omniscan window

d) Need to define “Setup :-> Preferences :-> Save New Job Configuration” option in Omniscan window

Q) Compression for color image??

- Jpeg
- g4
- Lzw
- none

Q) Can we have user defined job name in OmniScan?

- YES
- NO

Q) Meaning for carryforward for indexes in DataSection?

- carry forward index name in next job
- carry forward index value in next job
- carry forward index value in next record
- none

Q) In OS default option for folder name?

- Job No
- Operator Name
- Ini name

Q) Compression for gray image??

- Jpeg
- g4
- jpg
- Lzw

Q) Image functionality supported by omniscan??

- Deskew
- rotate

- despackle
- all

Q) Scan protocol supported by omniscan??

- Autoscan
- twain
- autodisplay
- simplex

Q) Barcode symbology to extract barcode??

- Findbarcode
- extractbarcode
- code128
- landscape

[JSP/Templates/CustomLinks](#)

5.

Which of the following name is used to map the Custom Form with Production workdesk:

1. wfdesktop
2. wfdesk
3. dataform
4. none of above.

6.
What class is required to be included to access WFSession

1.
 1. com.wfdesktop.session.OFSession
 2. com.newgen.session.ODSession
 3. com.wfdesktop.session.Session
 4. **com.newgen.wfdesktop.session.WFSession**
 5. newgen.com.wfdesktop.OFSession

7.
Which class contains the information about logged in user's name:

1. **WFSession**
2. WFApplication
3. WFUtility
4. ngfuserservlet

8.
Which is the folder structure where customized forms are located

1. **CustomForms**

2. CustomJobs
3. CustomizedForms
4. Forms

9.

User A registered a process with the name Process1, in the Cabinet OFCAB. Its Process definition id is 10, and designed to be processed by 10 activities. Select the folder naming location which is usually used to store the JSP forms.

1. Forms_Process1_10
2. Forms_10_OFCAB
3. OFCAB_Process1_10
4. **Forms_OFCAB_10**

10.

Name of JSP Form name should match the exact case of the NGF form which was used to associate on a particular workstep.

1. **True**
2. False

11.

It is mandatory to associate NGF form even if JSP form is being used in process.

1. **True**
2. False
3. In case of JSP form, NGF association is not required.

12. Through JSP forms, users can change the data even if no modify rights is provided.

1. True
2. False
3. **Data can also be updated using other APIs.**

13. Select the correct naming convention to map the fields to the data

1. **Name="Wdesk:Control1"**
2. Name="Control1"
3. Name="dataForm: Control1"
4. There is no such naming convention to map fields with the data. It supports each format.

14.

Which of the following data fields can be accessed in JSPs form:

1. External Table
2. Queue Variables
3. Complex Structure variables
4. **All of the above**

15.

Which of the following method can be used to know if the open Workitem is Read Only stage OR in Editable Stage:

1. **getViewMode()**
2. getWorkitemState()
3. getWorkitemMode()
4. getWorkitemCurrentMode()

16.

Which of the following method can be used to know if the open Workitem is Read Only stage OR in Editable Stage:

1. **getViewMode()**
2. getWorkitemState()
3. getWorkitemMode()
4. getWorkitemCurrentMode()

17. Frameset can be used in default workdesk view with customized template JSPs:

1. True
2. **False**

18. Select the correct folder naming convention which is usually used to customized the workdesk view:

1. **<cabinet name>_<process definition id>_<workstage id>**
2. <cabinet name>_<workstage id>_<process definition id>
3. <cabinet name>_<queue id>_<process definition id>
4. <cabinet name>_< process definition id >_< workstage id >

19. Which of the following objects can be accessed through JSP Form:

1. To do List
2. Document
3. Exception
4. **All of the above**

20. Which of the following attribute is used to launch the URL through Custom Link:

1. LaunchCustomURL
2. **LaunchURL**
3. LaunchIPURL
4. LaunchCustomPageURL

21. Which of the following Omniflow class is used to parse xmls:

1. com.wfdesktop.newgen.xmlapi
2. **com.newgen.wfdesktop.xmlapi**

3. `com.wdesktop.newgen.xmlapi`
4. `com.desktop.newgen.xmlInterface`

22.

Custom Links can only be possible in Webdesktop module:

1. True
2. **False**

JAVA

Which is the valid declaration within an interface definition? Marks:2

- `public double methoda();`
- `public final double methoda();`
- `static void methoda(double d1);`
- `protected void methoda(double d1);`

Which is a valid declaration of a String? Marks:2

- `String s1 = null;`
- `String s2 = 'null';`
- `String s3 = (String) 'abc';`
- `String s4 = (String) '\ufeed';`

OmniFlow

Entry settings are not defined for which workstep? Marks:2

•Introduction

- Standard Workdesk
- DMS Adaptor
- Exit Workstep

When is a process checked-In with 'Create new version' as an option: Marks:2

- - A new version of the process is created and the new process data is copied against this new version
 - Default queues for all the worksteps are created again for newly created version
 - All the existing versions of the process are deleted
 - All of the above

To undo the changes made to a checked out process, user should : Marks:2

- Check-In the process with 'Overwrite' option
- Check-out the process again
- Un-register the process and Register the process again

•Undo check out the process

Before calling CompleteWorkItem, what operation is needed Marks:1

- Work-item should be locked with same user
- Work-item should be opened

- No mandatory operation is needed
- None of the above

Maker-checker feature can be used on which operation? Marks:2

- Create External Table
- Process Enable/Disable
- Create Table

- New interface inclusion in Process

What is the name of class which initiates execution flow in ngfUser.jar? Marks:1

- ngfrmbld
- ngfUserInterface
- ngfUser
- None of the above

Rules cannot be associated with _____ Marks:2

- Exceptions
- Todo List
- Triggers
- Documents

Constant's name can be changed from? Marks:2

- For Registered Processes, open Constants dialog, select a constant, rename it and click modify.
- For Local Processes, open Constants dialog, select a constant, rename it and click modify.

- For Registered Processes, change them from Variable Alias option.
- None of the above

OmniFlow supports the following database/s: Marks:2

- MSSQL, ORACLE, and POSTGRESQL
- MSSQL only
- ORACLE only
- POSTGRESQL only

Which one of the following is correct? Marks:2

- Collect workstep can be used without any distribute workstep.
- Collect workstep used when atleast two distribute workstep present in the process.
- Collect workstep is used only if distribute workstep is used.
- None of the above.

Which of the following is the very first event of Form which is invoked after opening workitem: Marks:1

- Opening
- Load
- FieldValueBagSet
- Initialized

My Queue contains: Marks:2

- - the list of workitems pending for the user
- •the list of all the workitems of all the queues
- •the list of only those workitems on which user has rights
- •None of the above

Where is a registered template used? Marks:2

- In Launch Application Trigger
- In Data Entry Trigger
- In Set Trigger
- In Generate Response Trigger

getJSObject() method is used to get the: Marks:1

- - JSObject of current webpage in which applet is running
- •JSObject of all the webpages in the application
- •JSObject in case any custom webpage is designed
- •None of the above

Which one of the following is correct? Marks:2

- - Complex type variable is defined over queue variable
- •For complex type variables external table has to be defined

- •For complex type variable mapping and relation has to be defined
- •Both 1st & 2nd are correct

getUserName() method is used to get the: Marks:1

- •UserName of current logged in user of OmniFlow
- •Computer Name on which user is working
- •Domain user Name of machine
- •None of the above

OmniFlow API interface is based on: Marks:1

- •Java
- •XML
- •VB
- •None of the above

getWFProcessName() method is used to get the: Marks:1

- •Process Name on which form is associated
- •Process Name on which user is working
- •Currently enabled process name

- •None of the above

For List of Workitems from dynamic Queue which call to be used: Marks:1

- - WFFetchWorkItems
- •GetNextWorkitem
- •There is no API available
- •None of the above

Database

Which SQL statement is used to delete data from a database? Marks:2

- DELETE
- COLLAPSE
- REMOVE
- HACK

With SQL, how do you select all the columns from a table named "Persons"? Marks:2

- SELECT Persons
- SELECT * FROM Persons
- SELECT [all] FROM Persons
- SELECT *.Persons

With SQL, how do you select all the records from a table named "Persons" where the value of the column "FirstName" is "Peter"? Marks:2

- SELECT [all] FROM Persons WHERE FirstName='Peter'
- SELECT * FROM Persons WHERE FirstName='Peter'
- SELECT [all] FROM Persons WHERE FirstName LIKE 'Peter'
- SELECT * FROM Persons WHERE FirstName<>'Peter'

Which SQL statement is used to update data in a database? Marks:2

- •SAVE
- •UPDATE
- •MODIFY
- •SAVE AS

MDM

In MDM, which of the following is not included in Action Items tab? Marks:1

- Items modified by owner
- Items waiting for approval
- Items confirmed by owner
- None of the above

•

What does MDM stand for: Marks:1

- •Master Data Management

- •Master Database Manipulation
- •Master Database Management
- •Master Data Modification

Context Path of classifier is? Marks:1

- •classifier
- •mdm
- •Both of the above
- •None of the above

Which of these is one of the MDM constraints? Marks:1

- •Table should have atleast one foreign key
- •Table should have atleast one primary key
- •Table should have either a primary key or foreign key
- •None of the above

Audit log of operations in MDM signifies: Marks:1

- •Logging and history generation of operations
- •Enables user to view the history of operations done by him/her
- •Enables user to view history of table between some specific dates

- All of the above

MDM can import: Marks:1

- Only exported tables
- Only tables created through MDM interface
- Tables created through database as well as from MDM interface
- None of the above

In MDM, which of the following user has all the rights on the table? Marks:1

- Supervisors only
- User which has supervisors rights
- Normal User
- Both 1st & 2nd options

Which constraint is imposed for tablename while adding table through MDM? Marks:1

- Table name should contain only numbers
- Table name should contain only alphanumeric letters
- Table name should contain only alphanumeric letters or hyphen with first letter starting with alphabets
- None of the above

[Others](#)

Which of these image types cannot be imported? Marks:2

- TIF
- JPEG
- DOC
- GIF

If the database's data has changed, you then need to reload the DataGrid control to display the new data. Which method will you use in VB.NET? Marks:1

- - Datagrid1.refresh()
 - Datagrid1.currencymanager.refresh()
 - DataGrid1.ResetCurrencyManager()
 - DataGrid1.ResetBindings()

CLR is : Marks:1

- - is an execution engine for all .net application
 - is similar to JVM as in Java
 - defines standard rules for defining .Net compliant languages
 - is a compiler

What does LDAP stands for: Marks:2

- - Light weight Directory access Protocol
 - Light weight Dictionary access Protocol
 - Light weight Directory access Permissions
 - Light weight Document access Protocol

WAR files are: Marks:2

- packaging of Web files
- packaging of EJBs
- Both of the above
- None of the above

What is CTS in .NET? Marks:1

- Describes a set of features that different languages have in common
- Defines a set of rules for all compilers to generate manage code for .NET
- Define rules concerning data types
- None of the above

Which of these is the root class in .NET? Marks:1

- - System.data
 - System. Drawing
 - System.linq
 - System.object

Which of the following is bind to objects in a collection and use it for navigation in VB .NET? Marks:1

-
- Binding Manager
- Currency Manager
- Binding Context
- None of the above

Calling API can be eased due to use of: Marks:1

-
- NGCallBroker
- WFShared.jar
- WFS_Ejb.jar
- None of the above

API are available under the license of : Marks:1

-
- Development
- Enterprise
- Testing
- None of the above

Which method of NGCallBroker is used for calling API: Marks:1

- **•makecall**
- •execute
- •returncall
- •None of the above

Web Services are capable of: Marks:1

- •A standard method for describing data
- •A standard message format for communicating request and response
- •A method to discover what Web Services are available at any site
- **•All of the above**

In VB.NET, which namespace contains classes that allow a compiler or tool to generate metadata and Microsoft intermediate language (MSIL)? Marks:1

- •System.Reflection
- •System.Reflection.Emit
- •System.Reflection.Assembly
- **•System.Resources**

Following is the sequence to allocate memory to global, local, static variables in .Net? Marks:1

- - global, local, static
- - static, global, local
- - local, static, global
- - global, static, local

Q. 1 What is the size limit for dataclass name in OmniDocs? Marks:2

- 256
- 128
- 64**
- Unlimited

Q. 2 Repeater is more closely related to: Marks:2

- Listview**
- Textbox
- Frame
- None of the above

Q. 3 Which is the valid declaration within an interface definition? Marks:2

- public double methoda();**

- public final double methoda();
 - static void methoda(double d1);
 - protected void methoda(double d1);
-

Q. 4 Which is/are true about Form Builder control? Marks:2

- Checkbox and option button are similar in functionality
 - Checkbox and option button are not similar in functionality**
 - Listview and listbox are same controls
 - None of the above
-

Q. 5 Which of these image types cannot be imported? Marks:2

- TIF
 - JPEG
 - DOC**
 - GIF
-

Q. 6 In which format Newgen forms can be saved? Marks:2

- Text format
 - Doc format
 - Ngf format**
 - None of the above
-

Q. 7 Entry settings are not defined for which workstep? Marks:2

•**Introduction**

- Standard Workdesk
 - DMS Adaptor
 - Exit Workstep
-

Q. 8 To undo the changes made to a checked out process, user should : Marks:2

- Check-In the process with 'Overwrite' option
 - Check-out the process again
 - Un-register the process and Register the process again
- Undo check out the process**
-

Q. 9 WAR files are: Marks:2

- packaging of Web files
 - packaging of EJBs
- Both of the above**
- None of the above
-

Q. 10 Choose the correct one: Marks:2

- It is possible to assign right for Dataclass**
- It is possible to assign right for Global Index
- Both of the above

- None of the above
-

Q. 11 Before calling CompleteWorkItem, what operation is needed Marks:1

- Work-item should be locked with same user**

- Work-item should be opened
 - No mandatory operation is needed
 - None of the above
-

Q. 12 Maker-checker feature can be used on which operation? Marks:2

- Create External Table
 - Process Enable/Disable
 - Create Table**
 - New interface inclusion in Process
-

Q. 13 Which is a valid declaration of a String? Marks:2

- String s1 = null;**
 - String s2 = 'null';
 - String s3 = (String) 'abc';
 - String s4 = (String) '\ufeed';
-

Q. 14 What is the name of class which initiates execution flow in ngfUser.jar? Marks:1

- ngfrmbld

•ngfUserInterface

•ngfUser

•None of the above

Q. 15 In BAM, if the user has been assigned Modify Report rights then: Marks:2

•user only able to modify the report

•user able to modify and delete the report

•user able to modify and generate the report

•**user able to modify ,generate and delete the report**

Q. 16 Add in section is defined in which of these INI? Marks:2

•NGAppSettings.ini

•NGBulkScan.ini

•**Job.ini**

•None of the above

Q. 17 Which SQL statement is used to delete data from a database? Marks:2

•**DELETE**

•COLLAPSE

•REMOVE

•HACK

Q. 18 How to get List of Groups in the System? Marks:1

- NGOGetGroupList
 - NGOGetGroupsListExt
 - NGOGetGroupsList
 - NGOGetGroupListExt**
-

Q. 19 In Form Builder, which of the control does not have zone property? Marks:2

- Listview
 - Frame**
 - Checkbox
 - None of the above
-

Q. 20 In MDM, which of the following is not included in Action Items tab? Marks:1

- Items modified by owner
 - Items waiting for approval
 - Items confirmed by owner**
 - None of the above
-

Q. 21 With SQL, how do you select all the columns from a table named "Persons"? Marks:2

- SELECT Persons
- SELECT * FROM Persons**
- SELECT [all] FROM Persons

- SELECT *.Persons
-

Q. 22 Which lowest version framework is required to run OmniScan? Marks:2

- NET framework 1.0
 - NET framework 2.0**
 - NET framework 3.0
 - NET framework 4.0
-

Q. 23 What is CTS in .NET? Marks:1

- Describes a set of features that different languages have in common
 - Defines a set of rules for all compilers to generate manage code for .NET
 - Define rules concerning data types**
 - None of the above
-

Q. 24 In which of the following cases a user can perform sharing of folder in OmniDocs?
Marks:2

- If user is an owner of the folder.
 - If user is a member of supervisor group.
 - If user is member of the group having assign right privilege.
 - In all of the above cases.**
-

Q. 25 Choose the correct one: Marks:2

- It is possible to associate Global Index to Folder only
- It is possible to associate Global Index to Folder & Document
- It is possible to associate Global Index to Document only**
- All the above are correct

Q. 26 Rules cannot be associated with _____ Marks:2

- Exceptions
- Todo List
- Triggers**
- Documents

Q. 27 Constant's name can be changed from? Marks:2

- For Registered Processes, open Constants dialog, select a constant, rename it and click modify.
- For Local Processes, open Constants dialog, select a constant, rename it and click modify.**
- For Registered Processes, change them from Variable Alias option.
- None of the above

Q. 28 With SQL, how do you select all the records from a table named "Persons" where the value of the column "FirstName" is "Peter"? Marks:2

- SELECT [all] FROM Persons WHERE FirstName='Peter'**

•**SELECT * FROM Persons WHERE FirstName='Peter'**

•SELECT [all] FROM Persons WHERE FirstName LIKE 'Peter'

•SELECT * FROM Persons WHERE FirstName<>'Peter'

Q. 29 Which one of the following is correct? Marks:2

•Collect workstep can be used without any distribute workstep.

•Collect workstep used when atleast two distribute workstep present in the process.

•**Collect workstep is used only if distribute workstep is used.**

•None of the above.

Q. 30 How to get list of Data Definition in the System? Marks:1

•**NGOGetDataDefListExt**

•NGOGetDataDefinitionListExt

•NGOGetDataDefinitionList

•NGOGetDataDefList

Q. 31 Which of the following is bind to objects in a collection and use it for navigation in VB .NET? Marks:1

•Binding Manager

•**Currency Manager**

•Binding Context

•None of the above

Q. 32 Which of the following is the very first event of Form which is invoked after opening workitem: Marks:1

•Opening

•**Load**

•FieldValueBagSet

•Initialized

Q. 33 My Queue contains: Marks:2

•**the list of workitems pending for the user**

•the list of all the workitems of all the queues

•the list of only those workitems on which user has rights

•None of the above

Q. 34 In OmniDocs, Supervisor can add folder at the following: Marks:2

•Root level

- Sub folder
 - Both of the above**
 - None of the above
-
-

Q. 35 Calling API can be eased due to use of: Marks:1

- NGCallBroker**
 - WFSshared.jar
 - WFS_Ejb.jar
 - None of the above
-
-

Q. 36 What does MDM stand for: Marks:1

- Master Data Management**
 - Master Database Manipulation
 - Master Database Management
 - Master Data Modification
-
-

Q. 37 A job in OmniScan is a: Marks:2

- Collection of images

•**Collection of records**

•Collection of database

•None of the above

Q. 38 What does LDAP stands for: Marks:2

•**Light weight Directory access Protocol**

•Light weight Dictionary access Protocol

•Light weight Directory access Permissions

•Light weight Document access Protocol

Q. 38 Which SQL statement is used to update data in a database? Marks:2

•SAVE

•**UPDATE**

•MODIFY

•SAVE AS

Q. 39 Can we change the display name of the fields in BAM: Marks:2

•Yes, while creating report

•Yes, while modifying report

•BAM do not provide such feature

•Both option 1st & 2nd

Q. 40 In OmniFlow Form Custom coding, NGF_GetMsgString() method is used to: Marks:1

•Override any localized message of FormApplet

- Show any error message on form
- Fetch message content and code of message
- None of the above

Q. 41 Where is a registered template used? Marks:2

- In Launch Application Trigger
- In Data Entry Trigger
- In Set Trigger
- In Generate Response Trigger

Q. 42 Which method of NGCallBroker is used for calling API: Marks:1

•makecall

- execute
- returncall
- None of the above

Q. 43 Which of the following statement is true about form height in Form Builder? Marks:2

- Its dimensions are in mm
 - Its dimensions are in pixels**
 - Its height cannot be more than a limit
 - It cannot be set at design time
- -----

Q. 44 Context Path of classifier is? Marks:1

- classifier**
 - mdm
 - Both of the above
 - None of the above
- -----

Q. 45 OmniFlow supports the following database/s: Marks:2

- MSSQL,ORACLE, and POSTGRESQL**
 - MSSQL only
 - ORACLE only
 - POSTGRESQL only
- -----

Q. 46 CLR is : Marks:1

- is an execution engine for all .net application
 - is similar to JVM as in Java
 - defines standard rules for defining .Net compliant languages**
 - is a compiler
-
-

Q. 47 Which of these is the root class in .NET? Marks:1

- System.data
 - System. Drawing
 - System.linq
 - System.object**
-
-

Q. 48 Which of these is one of the MDM constraints? Marks:1

- Table should have atleast one foreign key
 - Table should have atleast one primary key**
 - Table should have either a primary key or foreign key
 - None of the above
-
-

Q. 49 getJSObject() method is used to get the: Marks:1

•**JSObject of current webpage in which applet is running**

•JSObject of all the webpages in the application

•JSObject in case any custom webpage is designed

•None of the above

Q. 50 How to obtain id of a folder/document knowing only its name? Marks:1

•NGOGetIdForName

•**NGOGetIdFromName**

•NGOObtainIdFromName

•NGOObtainIdForName

Q. 51 Which one of the following is correct? Marks:2

•Complex type variable is defined over queue variable

•For complex type variables external table has to be defined

•**For complex type variable mapping and relation has to be defined**

•Both 1st & 2nd are correct

Q. 52 getUsername() method is used to get the: Marks:1

•**UserName of current logged in user of OmniFlow**

- Computer Name on which user is working
 - Domain user Name of machine
 - None of the above
-
-

Q. 53 How to achieve the functionality of locking and unlocking of document, folder or Cabinet?
Marks:1

- NGOGetSetLocks
 - NGOSetGetLocks
 - NGOPerformLocks
 - NGOProcessLocks**
-
-

Q. 54 Audit log of operations in MDM signifies: Marks:1

- Logging and history generation of operations
 - Enables user to view the history of operations done by him/her
 - Enables user to view history of table between some specific dates
 - All of the above**
-
-

Q. 55 Web Services are capable of: Marks:1

- A standard method for describing data
- A standard message format for communicating request and response**

- A method to discover what Web Services are available at any site
- All of the above

Q. 56 MDM can import: Marks:1

- Only exported tables
- Only tables created through MDM interface
- Tables created through database as well as from MDM interface**
- None of the above

Q. 57 getWFProcessName() method is used to get the: Marks:1

- Process Name on which form is associated**
- Process Name on which user is working
- Currently enabled process name
- None of the above

Q. 58 OmniFlow API interface is based on: Marks:1

- Java
- XML**
- VB

- None of the above

Q. 59 Which API to be used to delete/remove GlobalIndex from system? Marks:1

- NGORemoveGlobalIndex
- NGOModifyGlobalIndex
- NGODeleteGlobalIndex**
- Not Possible

Q. 60 In VB.NET, which namespace contains classes that allow a compiler or tool to generate metadata and Microsoft intermediate language (MSIL)? Marks:1

- System.Reflection**
- System.Reflection.Emit
- System.Reflection.Assembly
- System.Resources

Q. 61 Following is the sequence to allocate memory to global, local, static variables in .Net? Marks:1

- global, local, static
- static, global, local**
- local, static, global
- global, static, local

Q. 62 For List of Workitems from dynamic Queue which call to be used: Marks:1

- WFFetchWorkItems
 - GetNextWorkitem
 - There is no API available**
 - None of the above
- -----

Q. 63 What API would you use to dissociate globalindex from document Marks:1

- NGORemoveGlobalIndexFromDoc
 - NGODisAssociateGlobalIndexFromDocument
 - NGORemoveGlobalIndexFromDocument
 - NGODeleteGlobalIndexFromDocument**
- -----

Q. 64 In MDM, which of the following user has all the rights on the table? Marks:1

- Supervisors only
 - User which has supervisors rights
 - Normal User
 - Both 1st & 2nd options**
-

Q. 65 Which constraint is imposed for tablename while adding table through MDM? Marks:1

- Table name should contain only numbers
 - Table name should contain only alphanumeric letters
 - Table name should contain only alphanumeric letters or hyphen with first letter starting with alphabets**
 - None of the above
-

Q. 66 Which call is used to obtain the Log generated for the objects like user, group, document, folder etc? Marks:1

- NGOGetLog
 - NGOGetObjectLog
 - NGOFetchLog**
 - None
-

Q. 67 API are available under the license of : Marks:1

- Development**
 - Enterprise
 - Testing
 - None of the above
-

Q. 68 When is a process checked-In with 'Create new version' as an option: Marks:2

- A new version of the process is created and the new process data is copied against this new version
- Default queues for all the worksteps are created again for newly created version**
- All the existing versions of the process are deleted

- All of the above
-

Q. 69 If the database's data has changed, you then need to reload the DataGrid control to display the new data. Which method will you use in VB.NET? Marks:1

- Datagrid1.refresh ()
 - Datagrid1.currencymanager.refresh()
 - DataGrid1.ResetCurrencyManager()
 - DataGrid1.ResetBindings()**
-

Q. 1 In OmniDocs, Custom Actions are defined for which module?

Marks:1

- OmniProcess
- Repository
- Search
- Reports

Q. 2

Operations that can be performed in OmniDocs:

Marks:1

- Scanning
- Storage
- Indexing
- All of the above

Q. 3 OmniDocs Architecture is based on: Marks:1

- Model View Controller
- Model Viewer Container
- Mode View Controller
- Model Controlled View

Q. 4 OmniDocs native view can be used to view:

Marks:1

- Image files
- Multimedia files
- MS Office files
- All of the above

Q. 5 Home Site is: Marks:1

- Where the documents of that image volume get added by default
- The site from where the user would wish to retrieve his documents
- Both of the above
- None of the above

Q. 6

OmniDocs is built on:

Marks:1

- J2EE
- VB

- .Net
- None of the above

Q. 7 Only ____ files can be used as an icon for Custom Tabs in OmniDocs?

Marks:1

- png
- jpg
- **svg**
- tif

Q. 8 Immediate replication as well as delayed replication terms are related to which OmniDocs component?

Marks:1

- Site
- Image
- Data
- **Volume**

Q. 9 OmniDocs is a desktop application Marks:1

- True
- **False**

Q. 10 Metadata for OmniDocs documents are stored in database. Marks:1

- **True**
- False

Q. 11 OmniDocs 8.x is not released on which server?

Marks:1

- Jboss.EAP
- Weblogic
- **Sun JSAS**
- Webshere

Q. 12 Expand OSA: Marks:1

- OmniDocs System Administration
- **OmniDocs Server Administration**
- OmniDocs System Applications
- OmniDocs Server Applications

Q. 13 SMS in OmniDocs supports caching. Marks:1

- **Trues**
- False

Q. 14 Choose the correct one: Marks:1

- It is possible to associate Dataclass to Folder only
- It is possible to associate Dataclass to Folder & Document
- It is possible to associate Dataclass to Document only
- All the above are correct

Q15. The three basic building blocks of SMS are _____, _____, & _____.

Marks:1

- Site, Volume, Image-index
- JTS, Site, Volume
- JTS, Site, Image-Index
- Site, Volume, VolBlock

Q. 16 Is FTS available immediately after a document has been uploaded? Marks:1

- Yes, FTS is available immediately after a document has been uploaded
- No, admin has to explicitly trigger text extraction for that document for FTS to work
- No, uploading user has to explicitly trigger text extraction for that document for FTS to work
- No, text will be extracted and indexed automatically in the next extraction cycle

Q. 17 Multiples volumes can be created on a single site in OmniDocs.

Marks:1

- True
- False

Q. 18 In OmniDocs, global index can be associated with:

Marks:1

- Document
- Folder
- Both of the above
- None of the above

Q. 19 In OmniDocs, custom operations are defined for _____. Marks:1

- A. Folder
- B. Document
- C. Filepart
- D. Record

- Only A, C
- Only B, C
- Only A, B, C
- All of the above

Q. 20 Which option related to document is not present in OmniDocs?

Marks:1

- Link
- Duplicate
- Forward
- Order

Q. 1 API stands for: Marks:1

- Application Programming Interface
- Application Package Import
- Application Package Information
- All of the above

Q. 2 We can have more than one web-server in OmniDocs? Marks:1

- True
- False

Q. 3 Dataclass in OmniDocs is used to facilitate:

Marks:1

- Indexing
- Searching
- Linking
- All of the above

Q4. OmniDocs allows users to manage image as well as electronic documents in a _____ repository.

Marks:1

- multiple database
- multiple compressed
- single centralized
- dual compressed

Q. 5

OmniDocs is supported
on: Marks:1

- English & Arabic
- English & Japanese
- English & Chinese
- All of the above

Q. 6 Expand SMS: Marks:1

- Storage Management Server
- System Management Server
- Storage Monitoring Server
- System Monitoring Server

Q. 7 What is a Site? Marks:1

- Location where application server is running
- Location where OmniDocs is installed
- Location Wrapper is running
- Location where Image Files are stored and can be accessed thereafter

Q. 8 Which full text search engine we use for MS-SQL? Marks:1

- Lucene
- Microsoft Full-Text Engine for SQL Server (MSFTESQL)
- FAST
- None of the above

Q. 9 During Search Configuration / making a Search in OmniDocs Admin, Include Full text Search is applied on: Marks:1

- Only on Document Search but not on Folder Search
- Only on Folder Search but not on Document Search
- This feature does not exist during making a Search
- On both Document and Folder Search

Q. 10 Metadata for OmniDocs documents are stored in database. Marks:1

- True
- False

Q. 11 OmniDocs GUI is written in which language? Marks:1

- PHP/HTML
- JSP/HTML

- .Net/ASP
- Pearl/HTML

Q. 12 Replication between the local and central storage servers requires direct

Marks:1

-
- Network Connectivity
 - Full Access of both the server
 - TCP/IP connectivity
 - None of the above

Q. 13 Only ____ files can be used as an icon for Custom Tabs in OmniDocs?

Marks:1

- png
- jpg
- sya
- tif

Q. 14 Multiples volumes can be created on a single site in OmniDocs.

Marks:1

- True
- False

Q. 15 In OmniDocs, Custom Actions are defined for which module?

Marks:1

- OmniProcess
- Repository
- Search
- Reports

Q. 16 Which of the following can be used as storage media with SMS in OmniDocs?

Marks:1

- Tape Drives
- SAN / NAS
- CD
- Network routers

Q. 17 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Marks:1

- Yes
- No

Q 18. OmniDocs is _____, _____, platform-independent

Marks:1

solution

- DMS, multi-tiered
- Scalable, multi-tiered
- Scalable, single-tiered
- ECM, single-tiered

Q. 19 Can web browser directly interact with EJB components of OmniDocs?

Marks:1

- Yes
- Yes, if EJB components are deployed on web server
- No, only OmniDocs web components can be accessed directly via web browser.
- None of the above

Q. 20

Marks:1

OmniDocs is built using robust server-side _____ technologies

- Java and J2EE
- C++
- Java
- Android

Q. 1 OmniDocs does not support following database: Marks:1

- Oracle
- MYSQL
- Postgre SQL
- MS SQL

Q. 2 OmniDocs is: Marks:1

- Multi tiered
- Single tiered
- Dual tiered
- Three tiered

Q. 3 During Search Configuration / making a Search in OmniDocs Admin, Include Full text Search is applied on:

Marks:1

- Only on Document Search but not on Folder Search
- Only on Folder Search but not on Document Search
- This feature does not exist during making a Search
- On both Document and Folder Search

Q. 4 OmniDocs LDAP services _____ Marks:1

- integrates with directory services for user authentication to ensure maximum security to the user data
- that helps to import documents and indexes to OmniDocs cabinets
- are component of OmniDocs suite of applications and is used for acquiring documents and files from various sources to OmniDocs
- All of above

Q. 5 Does OmniDocs Architecture support platform independence? Marks:1

- NO
- Yes
- Depends on how it is deployed
- No, as it is purely desktop based application

Q. 6 A _____ is the site from where the user would wish to retrieve his documents

Marks:1

- Preferred Site
- Home Site
- Default Site
- Logical Site

Q. 7 SMS in OmniDocs supports caching. Marks:1

- Trues
- False

Q. 8 Replication between the local and central storage servers requires direct _____

Marks:1

- Network Connectivity
- Full Access of both the server
- TCP/IP connectivity
- None of the above

Q. 9 Metadata for OmniDocs documents are stored in database. Marks:1

- True
- False

Q. 10 In OmniDocs, Custom Actions are defined for which module?

Marks:1

- OmniProcess
- Repository
- Search
- Reports

Q. 11 What is OmniDocs Web API? Marks:1

- Newgen created web based framework using which one create custom applications
- Newgen created web based framework for running OmniDocs application
- Newgen created web based framework for the integration of any external application with OmniDocs
- Newgen created web based framework for running Newgen created web applications

Q. 12 Multiples volumes can be created on a single site in OmniDocs.

Marks:1

- True
- False

Q. 13 Which one of the following is correct regarding OmniDocs deployment and functioning?

Marks:1

- OmniDocs need at-least one backend database for deployment and function
- OmniDocs can run without any database
- OmniDocs can run with database and without database also
- OmniDocs maintains data in windows file system in SMS \

Q. 14 Select which among below is not an option while creating dataclass field in OmniDocs?

Marks:1

- Useful
- Mandatory
- Unique
- Size

Q. 15 Multiple site can be added in same OmniDocs installation having same IP address

Marks:1

- True
- False

Q. 16 OmniDocs Document viewer is built using which technology?

Marks:1

- HTML-Ajax
- Ajax-Json
- Applet
- None of the above

Q. 17 In OmniDocs, using Opallviewer, which type of documents can be viewed?

Marks:1

- .png , .xls
- .jpg, .png , .tif, .pdf, .bmp
- .tif, .ppt ,.doc
- .xls

Q. 18

Marks:1

Which of the following statements is correct for Volume in OmniDocs

- There is no limit on the physical storage occupied by an image volume
- Every volume has to be given different volume path
- Volume cannot be replicated
- All of the above

Q. 19 Can FTS be combined with index search? Marks:1

- Search is always combined
- Search is combined if user gives parameters on both
- Search can never be combined
- None of the above

Q. 20 In OmniDocs, custom operations are defined for ____.

- A. Folder
- B. Document
- C. Filepart
- D. Record

Marks:1

- Only A, C
- Only B, C
- Only A, B, C
- All of the above

Q. 1 The core business logic is implemented in which tier?

Marks:1

- Database Storage tier
- Database Server
- Application Server
- OmniDocs Web Server

Q. 2 OmniDocs uses connection pool. Marks:1

- True
- False

Q. 3

OmniDocs is supported
on:

Marks:1

- English & Arabic
- English & Japanese
- English & Chinese
- All of the above

Q. 4 We can have more than one web-server in OmniDocs? Marks:1

- True
- False

Q. 5 Volume is a _____ unit in OmniDocs Marks:1

- Logical
- Physical
- Methodical
- Basic

Q. 6 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

- A. omnidocs.war
 - B. Custom.war
 - C. Opall.war
 - D. eworkstyle.ini
 - E. ComponentIntegration.xml
- Only B, C, E
 - Only A, D
 - Only A, B, D, E
 - Only B, D

Marks:1

Q. 7 Which option related to document is not present in OmniDocs?

Marks:1

- Link
- Duplicate
- Forward
- Order

Q. 8 In OmniDocs, a WebAPI can have following themes?

- A. Classic
 - B. Professional
 - C. Oceanic
 - D. None of the Above
 - E. Any color can be chosen
- Only B, C
 - Only D
 - Only E
 - Only A, B, C

Marks:1

Q. 9 Only ____ files can be used as an icon for Custom Tabs in OmniDocs?

Marks:1

- png
- jpg
- sva
- tif

Q. 10

You want to perform replication in such a way in OmniDocs so that the data that is getting added at the Source should also get added at the replica site at the same time.

Marks:1

- Immediate Replication
- Delayed Replication
- Instantaneous Replication
- Immediate Adding Replication

Q. 11 Which OmniDocs service is responsible to create Documents Thumbnail?

Marks:1

- Wrapper
- SMS
- Thumbnail
- OSA

Q. 12 Is FTS available immediately after a document has been uploaded? Marks:1

- Yes, FTS is available immediately after a document has been uploaded
- No, admin has to explicitly trigger text extraction for that document for FTS to work
- No, uploading user has to explicitly trigger text extraction for that document for FTS to work
- No, text will be extracted and indexed automatically in the next extraction cycle

Q. 13 Multiple site can be added in same OmniDocs installation having same IP address

Marks:1

- True
- False

Q. 14 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Marks:1

- Yes
- No

Q. 15 Can web browser directly interact with EJB components of OmniDocs?

Marks:1

- Yes
- Yes, if EJB components are deployed on web server
- No, only OmniDocs web components can be accessed directly via web browser.
- None of the above

Q. 16 Choose the correct option: Marks:1

- Supervisor User cannot be deleted
- Supervisor User can be deleted
- Both of the above.
- None of the above.

Q. 17 In latest version of OmniDocs, special character used for file convention name is:

Marks:1

- \$
- @
- %
- #

Q. 18

Which type of document(s) is supported by OmniDocs?

Marks:1

- Image Documents
- Non-Image Documents
- Both of the above
- None of the above

Q. 19 Using the OmniDocs Web API, a user can have the following advantages:

A. Create an application for configuring any external system for Image Enabling.

B. Configure the display functionality to customize the view to whether a single document or document list is to be displayed.

Marks:1

C. Generate and use the sample integration code to be used in the external application for carrying out the integration activity.

- Statement A & B are correct.
- Statement B & C are correct.
- Statement C & A are correct
- All the above statements are correct.

Q. 20

Marks:1

OmniDocs is built using robust server-side _____

technologies

- Java and J2EE
- C++
- Java
- Android

Q. 1 LDAP stands for: Marks:1

- Lightweight Directory Access Protocol
- Light Document Access Protocol
- Light Drive Access Prototype
- Light Document Access Protocol

Q. 2

Which type of document(s) is supported by OmniDocs?

Marks:1

- Image Documents
- Non-Image Documents
- Both of the above
- None of the above

Q. 3 OmniDocs uses connection pool. Marks:1

- True
- False

Q. 4 We can have more than one web-server in OmniDocs? Marks:1

- True
- False

Q. 5 Can FTS be combined with index search? Marks:1

- Search is always combined
- Search is can be combined if user gives parameters on both
- Search can never be combined
- None of the above

Q. 6 A site in OmniDocs is identified by two attributes viz. namely, _____ &

Marks:1

_____ .

- SMS IP & SMS Port
- AP Server IP & AP Server Port
- Site IP & Site Port
- All of the above are synonymous

Q. 7 During Search Configuration / making a search in OmniDocs Admin, is selecting a Data Marks:1

Class and Global Index mandatory?

- Selecting a Data Class is mandatory but not Global Index
- Selecting a Global Index is mandatory but not Data Class
- Selecting both is mandatory
- All the above given options are INCORRECT

Q. 8 Metadata for OmniDocs documents are stored in database. Marks:1

- True
- False

Q. 9 In OmniDocs, a WebAPI can have following themes?

A. Classic

B. Professional

C. Oceanic

D. None of the Above

E. Any color can be chosen

Marks:1

- Only B, C
- Only D
- Only E
- Only A, B, C

Q. 10 Which types of image documents are supported? Marks:1

- TIFF
- Scanned PDF
- Both of the above
- None of the above

Q. 11 What is the need of managing content in organizations? Marks:1

- To abide to policies and rules laid by the Government
- Exert control over large volumes of records and documents
- Incorrect question. Do not need to manage
- Both option 1st & 2nd

Q. 12 In OmniDocs, Custom Actions are defined for which module?

Marks:1

- OmniProcess
- Repository
- Search
- Reports

Q. 13 How can we add Global Index in OmniDocs Admin?

Marks:1

- Add global index in global index tab

- Add a DataClass field keeping Global Index checkbox checked
- Both of the above
- None of the above

Q. 14 Multiples volumes can be created on a single site in OmniDocs.

Marks:1

- True
- False

Q. 15 In OmniDocs, RIS Stands for: Marks:1

- Remote image server
- Remote information system
- Rational informatic system
- None of the above

Q. 16 OmniDocs supports following browsers: Marks:1

- Internet Explorer
- Netscape
- Safari
- Opera

Q. 17 By default the folders in OmniDocs have _____ sharing rights.

Marks:1

- Public
- Private
- Inherited
- Shared

Q. 18 A Volume in OmniDocs: Marks:1

- Cannot be replicated
- Can be replicated across multiple sites
- Can be replicated across only one site
- None of the above

Q. 19 What is OmniDocs Web API? Marks:1

- Newgen created web based framework using which one create custom applications
- Newgen created web based framework for running OmniDocs application
- Newgen created web based framework for the integration of any external application with OmniDocs
- Newgen created web based framework for running Newgen created web applications

Q. 20 Is OmniDocs Architecture Scalable? Marks:1

- Yes, scalable horizontally
- No, Not scalable
- Yes, scalable vertically
- It is scalable horizontally and vertically both

Q. 1

Operations that can be performed in
OmniDocs:

Marks:1

- Scanning
- Indexing
- Storage
- All of the above

Q. 2 Metadata for OmniDocs documents are stored in database. Marks:1

- True
- False

Q. 3 Is Easy Search also an integration type while configuring the OmniDocs Web
API?

Marks:1

- Yes
- No

Q. 4 In Data Class of OmniDocs, following field type only can be marked
secure:

Marks:1

- Date
- Float
- Text
- Integer

Q. 5 What is FTS? Marks:1

- Full Text Search
- Full text Sort
- Filter text Search
- None of the above

Q. 6 In OmniDocs, custom operations are defined for ____.

- A. Folder
- B. Document
- C. Filepart
- D. Record

Marks:1

- Only A, C

- Only B, C
- Only A, B, C
- All of the above

Q. 7

Marks:1

One of the following is not an example of structured content.

- Records
- Scanned Images
- Database Tables
- Excel Sheets

Q. 8 Inherit Ownership option available at: Marks:1

- Cabinet Level and Folder Level
- Folder Level
- Data Class Level
- User & Group Level

Q. 9 API stands for: Marks:1

- Application Programming Interface
- Application Package Import
- Application Package Information
- All of the above

Q. 10 In OmniDocs, a WebAPI can have following themes?

- A. Classic
- B. Professional
- C. Oceanic
- D. None of the Above
- E. Any color can be chosen

Marks:1

- Only B, C
- Only D
- Only E
- Only A, B, C

Q. 11 During volume creation in OmniDocs, size of Volume block represents:

Marks:1

- Max size of the volume
- Min size of the volume
- Min Size of a PN file
- Max Size of a PN file

Q. 12

Marks:1

Which type of document(s) is supported by OmniDocs?

- Image Documents
- Non-Image Documents
- Both of the above
- None of the above

Q. 13

Marks:1

What are the components of Image Server?

- Image Cabinet and SMS
- JTS and SMS only
- JTS only
- SMS only

. 14 OmniDocs does not support following database: Marks:1

- Oracle
- MYSQL
- Postgre SQL
- MS SQL

Q. 15 Which full text search engine we use for MS-SQL?

Marks:1

- Lucene
- Microsoft Full-Text Engine for SQL Server (MSFTESQL)
- FAST
- None of the above

Q. 16 SMS in OmniDocs supports caching. Marks:1

- Trues
- False

Q. 17 OmniProcess is used for: Marks:1

- Distributed scanning and centralised indexing.
- File creation through Maker-Checker approvals
- For creating documents in OmniDocs
- All of the above

Q. 18 Efficient use of bandwidth is achieved in OmniDocs Document viewer because it..

Marks:1

- fetches document byte by byte
- fetches document in synchronised stream
- fetches document in asynchronised stream
- fetches document page by page

Q. 19 OmniDocs Architecture is based on: Marks:1

- Model View Controller
- Model Viewer Container
- Mode View Controller
- Model Controlled View

Q. 20 OmniDocs is a desktop application Marks:1

- True
- False

Q. 1 OmniDocs Server architecture is based on below platform:

Marks:1

- J2EE
- .Net
- Both J2EE and .NET
- J2ME
-

Q. 2 What is OmniDocs Web API? Marks:1

- Newgen created web based framework using which one create custom applications
- Newgen created web based framework for running OmniDocs application
- Newgen created web based framework for the integration of any external application with OmniDocs
- Newgen created web based framework for running Newgen created web applications

Q. 3 During Search Configuration / making a search in OmniDocs Admin, is selecting a Data Class and Global Index mandatory? Marks:1

- Selecting a Data Class is mandatory but not Global Index
- Selecting a Global Index is mandatory but not Data Class
- Selecting both is mandatory
- All the above given options are INCORRECT

•

Q. 4

Marks:1

OmniDocs Admin provides:

- User Management
- Quick Search Management
- Document Addition, Deletion, Modification

- Process Variable Mapping

-

Q. 5 How many themes are there in OmniDocs?

A. Classic

B. Professional

Marks:1

C. Oceanic

D. None of the Above

E. Any color can be chosen

- Only B, C
- Only D
- Only E
- Only A, B, C

Q. 6 Multiple site can be added in same OmniDocs installation having same IP address

Marks:1

- True
- False

Q. 7 To enable PCI Compliance, which KMS can be supported by OmniDocs:

Marks:1

- AWS-KMS
- Azure Key-Vault
- All KMS
- Hadoop KMS

Q. 8 The core business logic is implemented in which tier?

Marks:1

- Database Storage tier
- Database Server
- Application Server
- OmniDocs Web Server

Q. 9 A site in OmniDocs is identified by two attributes viz. namely, _____ & _____.

Marks:1

- SMS IP & SMS Port
- AP Server IP & AP Server Port
- Site IP & Site Port
- All of the above are synonymous

Q. 10 Which streaming server is supported by OmniDocs? Marks:1

- VLC Player
- Wowza
- Any Streaming Server

- Xuggler

Q. 11 Which option is true after performing delete operation on documents?

Marks:1

- Document permanently deleted from OmniDocs repository.
- Move to Trash
- Both of the above
- None of the above

Q. 12 A document management system is used for Marks:1

- Document Archival
- Document Retrieval
- Both of the above
- None of the above

Q. 13 In OmniDocs, Custom Actions are defined for which module?

Marks:1

- OmniProcess
- Repository
- Search
- Reports

Q. 14 Is FTS available immediately after a document has been uploaded? Marks:1

- Yes, FTS is available immediately after a document has been uploaded
- No, admin has to explicitly trigger text extraction for that document for FTS to work
- No, uploading user has to explicitly trigger text extraction for that document for FTS to work
- No, text will be extracted and indexed automatically in the next extraction cycle after completing all documents or completing documents as per "Document Count".

Q. 15 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

Marks:1

- One has to write integration code.
- Use Webservice
- Use web-api
- Not possible

Q. 16 Multiples volumes can be created on a single site in OmniDocs.

Marks:1

- True

- False

Q. 17 What are the available replication types in OmniDocs? Marks:1

- Delayed
- Immediate
- Neither
- Both option 1st and 2nd

Q. 18 Metadata for OmniDocs documents are stored in database. Marks:1

- True
- False

Q. 19 OmniDocs is a desktop application Marks:1

- True
- False

Q. 20 In latest version of OmniDocs, special character used for file convention name is: Marks:1

- \$
- @
- %
- #

Q. 1 Is Easy Search also an integration type while configuring the OmniDocs Web API? Marks:1

- Yes
- No

Q. 2 In OmniDocs, a WebAPI can have following themes?

A. Classic

B. Professional

C. Oceanic

D. None of the Above

E. Any color can be chosen

Marks:1

- Only B, C
- Only D
- Only E
- Only A, B, C

Q. 3 Is OmniDocs Architecture Scalable? Marks:1

- Yes, scalable horizontally
- No, Not scalable
- Yes, scalable vertically
- It is scalable horizontally and vertically both

Q. 4 OmniDocs does not support following database: Marks:1

- Oracle
- MYSQL
- Postgre SQL
- MS SQL

Q. 5 What is OmniDocs Web API? Marks:1

- Newgen created web based framework using which one create custom applications
- Newgen created web based framework for running OmniDocs application
- Newgen created web based framework for the integration of any external application with OmniDocs
- Newgen created web based framework for running Newgen created web applications
-

Q. 6

An account of the operations that are performed on the specified object (viz. cabinet, folder or document) by any of the members of the cabinet is: Marks:1

- Notifications
- Action Items
- Audit Log
- None of the above

Q. 7 OmniDocs is a desktop application Marks:1

- True
- False

Q. 8 Choose the correct option wrt OmniDocs: Marks:1

- By default security at cabinet is Object level
- By default security at cabinet is Cabinet level
- By default security at cabinet is No security
- By default security at cabinet is Inherited

Q. 9

Marks:1

Main features of OmniDocs
are:

- Filing of folders/images
- Indexing, Processing and searching
- Various monitoring reports like usage reports, audit reports, etc
- All of the above

Q. 10

Marks:1

Groups in OmniDocs can be _____:

- Created by Admin
- Created by user having group privileges
- Imported from LDAP based directory
- All of the above

Q. 11 In OmniDocs, what are groups created by default in cabinet?

Marks:1

- Supervisor
- Everyone
- Public
- All of the above

Q. 12 Even distribution of jobs and associated communications across the computing and networking resources is termed as _____

Marks:1

- Distributed System
- Fail Over
- Load Balancing
- Shared System

Q. 13 How many types of user are there in OmniDocs?

Marks:1

- 2
- 3
- 4
- 5

Q. 14 We can have more than one web-server in OmniDocs? Marks:1

- True
- False

Q. 15 Multiples volumes can be created on a single site in OmniDocs.

Marks:1

- True
- False

Q. 16 Can FTS be combined with index search? Marks:1

- Search is always combined
- Search is can be combined if user gives parameters on both
- Search can never be combined
- None of the above

Q. 17 Bulk Upload to OmniDocs is: Marks:1

- TIFF based
- TXT based
- XLSX based
- CSV based

Q. 18 What to do if a User wants to make document visible only to the owner or the supervisor?

Marks:1

- Mark as Private
- Inherited
- Shared
- Both 2nd & 3rd

Q. 19 API stands for: Marks:1

- Application Programming Interface
- Application Package Import
- Application Package Information
- All of the above

Q. 20

Marks:1

In OmniDocs, a _____ is a notification that would be flashed / emailed to all the selected users

- sms
- message
- reminder
- alert

Q. 1 In OmniDocs, Document Addition will only be possible when users have:

Marks:1

- Rights on Folder
- Rights on Group
- Rights on Data Class
- Rights on Folder and Data Class

Q. 2 What type of Views are supported for folders and documents: Marks:1

- List view
- Grid View
- Both of the above
- None of the above

Q. 3 What security options are available at Cabinet Level in OmniDocs?

Marks:1

- No Security
- Cabinet Level
- Object Level
- All of the above

Q. 4 It is possible to have more than one web server for OmniDocs deployment.

Marks:1

- True
- False

Q. 5 Options for creating users, group and data classes are present/available under:

Marks:1

- System Administration
- Configure Desktop
- Service Management
- License Management

Q. 6 Multiple site can be added in same OmniDocs installation having same IP address

Marks:1

- True
- False
-

Q. 7 What is OmniDocs Web API? Marks:1

- Newgen created web based framework using which one create custom applications
- Newgen created web based framework for running OmniDocs application
- Newgen created web based framework for the integration of any external application with OmniDocs
- Newgen created web based framework for running Newgen created web applications

Q. 8

Marks:1

One of the following is not an example of structured content.

- Records
- Scanned Images
- Database Tables
- Excel Sheets

Q. 9 Replication between the local and central storage servers requires direct

Marks:1

-
- Network Connectivity
 - Full Access of both the server
 - TCP/IP connectivity
 - None of the above

Q. 10 OmniDocs uses connection pool. Marks:1

- True
- False

Q. 11

Marks:1

What is the Default port for site creation in OmniDocs?

- 9000
- 10000
- 900
- No default port

Q. 12

Marks:1

Integrated Document Management [IDM] does not include:

- Document Management
- Document Imaging
- Workflow
- Web Publishing

Q. 13 Which full text search engine we use for Oracle?

Marks:1

- FAST
- Oracle Text
- Lucene
- None of the above

Q. 14 Metadata for OmniDocs documents are stored in database. Marks:1

- True

- False

Q. 15

Marks:1

When can a user create document versioning in OmniDocs?

- During the check-in operation.
- During the check-Out operation.
- Both during check-in and check-out operations
- None of the choices are true

Q. 16 Is OmniDocs Architecture Scalable? Marks:1

- Yes, scalable horizontally
- No, Not scalable
- Yes, scalable vertically
- It is scalable horizontally and vertically both

Q. 17 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

Marks:1

- One has to write integration code.
- Use Webservice
- Use web-api
- Not possible

Q. 18 OmniDocs 8.x is not released on which server?

Marks:1

- Jboss.EAP
- Weblogic
- Sun JSAS
- Webshere

Q. 19 In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

A. omnidocs.war

B. Custom.war

C. Opall.war

D. eworkstyle.ini

E. ComponentIntegration.xml

Marks:1

- Only B, C, E
- Only A, D
- Only A, B, D, E
- Only B, D

Q. 20

Marks:1

Which of the following is valid volume replication type in OmniDocs?

- Delayed
- Postponed
- Logical
- Physical

Q. 1 Does OmniDocs Architecture support platform independence? Marks:1

- NO
- Yes
- Depends on how it is deployed
- No, as it is purely desktop based application

Q. 2 What is FTS? Marks:1

- Full Text Search
- Full text Sort
- Filter text Search
- None of the above

Q. 3 SMS in OmniDocs supports caching. Marks:1

- Trues
- False

Q. 4 Which of the following statement is true for Global Index in OmniDoc

Marks:1

- A Data Class can be used as a part of a Global Index
- Generally used as search criteria for searching documents and folders
- Can be searched across all the created Cabinets
- All of the above

Q. 5

Marks:1

Which of the following statements is correct for Volume in OmniDocs

- There is no limit on the physical storage occupied by an image volume
- Every volume has to be given different volume path
- Volume cannot be replicated
- All of the above

Q. 6 OmniDocs provides integration adapter for: Marks:1

- Microsoft Project
- Notepad
- SAP
- SVN
-

Q. 7 In OmniDocs, RIS Stands for: Marks:1

- Remote image server
- Remote information system
- Rational informatic system
- None of the above

Q. 8 What are the available replication types in OmniDocs? Marks:1

- Delayed
- Immediate
- Neither
- Both option 1st and 2nd

Q. 9 In OmniDocs, a Label is: Marks:1

- A physical location where PN files are stored.
- The physical path where the data files corresponding to volblocks will be stored.
- Both of the above
- None of the above

Q. 10 OmniDocs uses connection pool. Marks:1

- True
- False

Q. 11 How to add Custom Tab in OmniDocs? Marks:1

- Via Admin Console
- Via ComponentIntegration.xml
- Via OSA
- via eworkstyle.ini

Q. 12 Only ____ files can be used as an icon for Custom Tabs in OmniDocs?

Marks:1

- png
- jpg
- svg

- tif

Q. 13 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Marks:1

- Yes
- No

Q. 14

OmniDocs allows users to manage image as well as electronic documents in a _____ repository.

Marks:1

- multiple database
- multiple compressed
- single centralized
- dual compressed

Q. 15

Marks:1

What is OmniDocs?

- A desktop based application for managing and viewing the documents stored
- A web based application for managing and viewing the documents stored
- Both of the above
- None of the above

Q. 16 Multiple site can be added in same OmniDocs installation having same IP address

Marks:1

- True
- False

Q. 17 Which full text search engine we use for MS-SQL?

Marks:1

- Lucene
- Microsoft Full-Text Engine for SQL Server (MSFTESQL)
- FAST
- None of the above
-

Q. 18 To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

Marks:1

- One has to write integration code.
- Use Webservice
- Use web-api
- Not possible

Q. 19 How does OmniDocs EJB components connect to database

Marks:1

- Using ODBC bridge

- Using JDBC-ODBC bridge
- Using JDBC API
- Using System DSN

Q. 20

A user wants to fetch information about the customer-related folders existing in the cabinet. In this case, the user will select the particular data class in the _____ report and generate the report. Marks:1

- Corporate skills
- Enterprise Content
- Folder Data
- Product knowledge

Q. 1 Multiples volumes can be created on a single site in OmniDocs.

Marks:1

- True
- False

Q. 2 What is a Site? Marks:1

- Location where application server is running
- Location where OmniDocs is installed
- Location Wrapper is running
- Location where Image Files are stored and can be accessed thereafter

Q. 3 It is possible to have more than one web server for OmniDocs deployment.

Marks:1

- True
- False

Q. 4 OmniDocs Application server layer is built on which architecture?

Marks:1

- UDDI
- SOA
- SOA-advanced
- JTS

Q. 5

Which type of document(s) is supported by OmniDocs?

Marks:1

- Image Documents
- Non-Image Documents
- Both of the above
- None of the above

Q. 6 API stands for: Marks:1

- Application Programming Interface
- Application Package Import
- Application Package Information
- All of the above

Q. 7 Which streaming server is supported by OmniDocs? Marks:1

- VLC Player
- Wowza
- Any Streaming Server
- Xuggler

Q. 8 In OmniDocs, custom operations are defined for ____.

A. Folder

B. Document

Marks:1

C. Filepart

D. Record

- Only A, C
- Only B, C
- Only A, B, C
- All of the above

Q. 9 Multiple site can be added in same OmniDocs installation having same IP address

Marks:1

- True
- False

Q. 10

Marks:1

One of the following is not an example of structured content.

- Records
- Scanned Images
- Database Tables
- Excel Sheets

Q. 11 Choose the correct interaction sequence. Marks:1

- OmniDocs <---> JTS <---> Database
- OmniDocs <---> Database <---> JTS
- Database <---> JTS <---> OmniDocs
- None of the above

Q. 12 Home Site is: Marks:1

- Where the documents of that image volume get added by default
- The site from where the user would wish to retrieve his documents
- Both of the above
- None of the above

Q. 13 In OmniDocs, a Label is: Marks:1

- A physical location where PN files are stored.
- The physical path where the data files corresponding to volblocks will be stored.
- Both of the above
- None of the above

Q. 14

Marks:1

Users can search documents in OmniDocs on the basis of _____.

- Keywords
- Folder
- picklist
- indexes

Q. 15 Choose the correct one: Marks:1

- It is possible to associate Dataclass to Folder only
- It is possible to associate Dataclass to Folder & Document
- It is possible to associate Dataclass to Document only
- All the above are correct

Q. 16 What is OmniDocs Web API? Marks:1

- Newgen created web based framework using which one create custom applications
- Newgen created web based framework for running OmniDocs application
- Newgen created web based framework for the integration of any external application with OmniDocs
- Newgen created web based framework for running Newgen created web applications

Q. 17 We can have more than one web-server in OmniDocs? Marks:1

- True
- False

Q. 18 In OmniDocs, what would be the security level, to restrict Access Rights validation at Marks:1

folder and document level? Is it

- Cabinet Level
- No Security
- Object Level
- None of the above

Q. 19 Which one of the following is correct regarding OmniDocs deployment and functioning?

Marks:1

- OmniDocs need at-least one backend database for deployment and function
- OmniDocs can run without any database
- OmniDocs can run with database and without database also
- OmniDocs maintains data in windows file system in SMS

Q. 20 Can FTS be combined with index search? Marks:1

- Search is always combined
- Search is can be combined if user gives parameters on both
- Search can never be combined
- None of the above

Q. 1

Which type of Document(s) is supported by OmniDocs?

Marks:1

- Image Documents
- Non-image Documents
- Both of the above
- None of the above

Q. 2 Is Easy Search also an integration type while configuring the OmniDocs Web API?

Marks:1

- Yes
- No

Q. 3 How to apply keyword on folder in OmniDocs? Marks:1

- Open a folder. On properties tab - Add keyword Option is visible. Click on that. Add keyword and click on save
- Keywords are not supported on folder
- Open a folder. On properties tab - Add keyword Option is visible. Click on that. Add keyword
- None of the above

Q. 1 Rights can be assigned to data class Marks:1

- At time of creation of data class

- After creation
- Both of the above
- Not possible

Q. 2 The authentication of the user's login attempts to Newgen application will be validated against domain authentication. This is the Newgen enhanced security feature: Marks:1

- Active Directory
- Single Sign On
- OmniDocs Authentication Manager (LDAP)
- None of the above

Q. 3 SMS in OmniDocs supports caching. Marks:1

- True
- False

Q. 4

Marks:1

User can view the last login details in OmniDocs. It displays_____.

- The last login time, Last Login Failure Time, Failure Attempt Count
- The last login time, Last Login Failure Time
- The last login time, Last Login Failure Time, Last Login Username
- The last login time, Failure Attempt Count, Last Login Username

Q. 5

Marks:1

Keywords in OmniDocs act as a quick reference for the _____?

- Documents
- Folders
- Both of the above
- None of the above

Q. 6 API stands for: Marks:1

- Application Programming Interface
- Application Package Import
- Application Package Information
- All of the above

. 7 Which of the following statements about linking of document is true?

Marks:1

- Documents of same folder can be linked
- A document can be linked to only one document whether in same folder or different folder
- A document can be linked to one or more document in the same folder

- A document can be linked to one or more document in the different folder only

Q. 8 The core business logic is implemented in which tier? Marks:1

- Database Storage tier
- Database Server
- Application Server
- OmniDocs Web Server

Q. 9 Does OmniDocs Architecture support platform independence? Marks:1

- NO
- Yes
- Depends on how it is deployed
- No, as it is purely desktop based application

Q. 10 What to do if a User wants to make document visible only to the owner or the supervisor? Marks:1

- Mark as Private
- Inherited
- Shared
- Both 2nd & 3rd

Q. 11 OmniDocs Application server layer is built on which architecture? Marks:1

- UDDI
- SOA
- SOA-advanced
- JTS

Q. 12 In OmniDocs, a WebAPI can have following themes?

- A. Classic
 - B. Professional
 - C. Oceanic
 - D. None of the Above
 - E. Any color can be chosen
- Marks:1

- Only B, C
- Only D
- Only E
- Only A, B, C

Q. 13 How to add Custom Tab in OmniDocs? Marks:1

- Via Admin Console

- Via ComponentIntegration.xml
- Via OSA
- via eworkstyle.ini

Q. 14 Metadata for OmniDocs documents are stored in database. Marks:1

- True
- False

Q. 15 OmniDocs uses connection pool. Marks:1

- True
- False

Q. 16 LDAP stands for: Marks:1

- Lightweight Directory Access Protocol
- Light Document Access Protocol
- Light Drive Access Prototype
- Light Document Access Protocol

Q. 17 OmniDocs Server architecture is based on below platform:

Marks:1

- J2EE
- .Net
- Both J2EE and .NET
- J2ME

Q. 18 Can FTS be combined with index search? Marks:1

- Search is always combined
- Search is can be combined if user gives parameters on both
- Search can never be combined
- None of the above

Q. 19 It is possible to have more than one web server for OmniDocs deployment.

Marks:1

- True
- False

Q. 20

Marks:1

To which of the following features would you associate OmniDocs

with?

- Complex tool for Document Scanning, Indexing and Storage
- Vague reports for monitoring
- No rights at document level for sharing
- Configurable password policies

In Data Class of OmniDocs, following field type only can be marked secure:

Marks:1

- Date
- Float
- Text
- Integer

How to add Custom Tab in OmniDocs? Marks:1

- Via Admin Console
- Via ComponentIntegration.xml
- Via OSA
- via eworkstyle.ini

Select which among the following is not allowed data type in Dataclass field type in OmniDocs:

Marks:1

- Integer
- Date
- Float
- Double

Q. 14 In OmniDocs, custom operations are defined for ____.

- A. Folder
- B. Document
- C. Filepart
- D. Record

Marks:1

- Only A, C
- Only B, C
- Only A, B, C
- All of the above

To enable PCI Compliance, which KMS can be supported by OmniDocs:

Marks:1

- AWS-KMS

- Azure Key-Vault
- All KMS
- Hadoop KMS

Is FTS available immediately after a document has been uploaded? Marks:1

- Yes, FTS is available immediately after a document has been uploaded
- No, admin has to explicitly trigger text extraction for that document for FTS to work
- No, uploading user has to explicitly trigger text extraction for that document for FTS to work
- No, text will be extracted and indexed automatically in the next extraction cycle after completing all documents or completing documents as per "Document Count".

What is the limit of document storage in OmniDocs?

Marks:1

- 10 GB
- 100 GB
- 1 TB
- Unlimited

Latest version of OmniDocs 7.0 8.x is not released on which server?

Marks:1

- Jboss.EAP
- Weblogic
- Sun JSAS
- Websphere

In OmniDocs, Custom Actions are defined for which module?

Marks:1

- OmniProcess
- Repository
- Search
- Reports

To provide 3rd party utility, to use OmniDocs search / document view without login to OmniDocs. What is the easiest methodology for that?

Marks:1

- One has to write integration code.
- Use Webservice
- Use web-api

- Not possible

Using the OmniDocs Web API, a user can have the following advantages:

- A. Create an application for configuring any external system for Image Enabling.
- B. Configure the display functionality to customize the view to whether a single document or document list is to be displayed. Marks:1
- C. Generate and use the sample integration code to be used in the external application for carrying out the integration activity.

- Statement A & B are correct.
- Statement B & C are correct.
- Statement C & A are correct
- All the above statements are correct.

What is volume block in OmniDocs? Marks:1

- It is the physical storage area of the document.
- It is the logical storage area of the document.
- It signifies the path of the document
- None of the above

How does OmniDocs EJB components connect to database Marks:1

- Using ODBC bridge
- Using JDBC-ODBC bridge
- Using JDBC API
- Using System DSN

Can FTS be combined with index search? Marks:1

- Search is always combined
- Search is can be combined if user gives parameters on both
- Search can never be combined
- None of the above

In OmniDocs, one can assign data class to a document from: Marks:1

- OmniDocs Admin
- OmniDocs Client
- Both of the above
- None of the above

OmniDocs supports following browsers: Marks:1

- Internet Explorer
- Netscape
- Safari
- Opera

How many types of user are there in OmniDocs?

Marks:1

- 2
- 3
- 4
- 5

In OmniDocs to secure data, following information can be secured:

Marks:1

- Data Class Field Values and Keywords
- Global Index values and Keywords
- Name of Document and Folder
- Data Class Field Values and Global Index values

In latest version of OmniDocs, special character used for file convention name is:

Marks:1

- \$
- @
- %
- #

In OmniDocs, to enable 3rd party viewer, where does one changes code for integration?

A. omnidocs.war

B. Custom.war

C. Opall.war

D. eworkstyle.ini

E. ComponentIntegration.xml

Marks:1

- Only B, C, E
- Only A, D
- Only A, B, D, E
- Only B, D

In OmniDocs, where is the data related to the images stored? Marks:1

- PN Files
- Database
- Log
- None of the above

Only ____ files can be used as an icon for Custom Tabs in OmniDocs?

Marks:1

- png

- jpg
- **svg**
- tif

Even distribution of jobs and associated communications across the computing and networking resources is termed as _____

Marks:1

- Distributed System
- Fail Over
- **Load Balancing**
- Shared System
-

What are the available replication types in OmniDocs? Marks:1

- Delayed
- Immediate
- **Both of the above**
- None of the above

To which of the following features would you associate OmniDocs with?

Marks:1

- **Complex tool for Document Scanning, Indexing and Storage**
- Vague reports for monitoring
- No rights at document level for sharing
- Configurable password policies

If in a cabinet all folders are named fold1, fold2, fold3, fold4. How would you search them in folder search tab?

Marks:1

- **fo***
- f?ol*
- fol?
- fold

In OmniDocs, using Opallviewer, which type of documents can be viewed?

Marks:1

- .png , .xls
- **jpg, png , tif, pdf, bmp**
- .tif, .ppt ,.doc
- .xls

Company which are HIPAA compliant. They have to secure following data:

Marks:1

- Credit Card Information

- Health Information
- Personal Data - Mobile No, Email etc
- Aadhar Card Information

A site in OmniDocs is identified by two attributes viz. namely, _____ & _____ Marks:1

- SMS IP & SMS Port
- AP Server IP & AP Server Port
- Site IP & Site Port
- All of the above are synonymous

ormal users of OmniDocs can create Marks:1

- Root Folder
- Sub Folder
- Both Root Folder and Sub Folder
- None of the above

Which of the following statements is TRUE regarding color themes in OmniDocs? Marks:1

- Admin can change for whole system
- Admin can change for whole system but not for users with their own theme specified. Users have to select between specified themes
- Users can define their own Custom themes
- All of the above

Which OCR engine is used to extract data from scanned documents? Marks:1

- ScanSoft OmniPage
- GOCR
- OCRFeeder
- Scantron

One of the following is not an example of structured content. Marks:1

- Records
- Scanned Images
- Database Tables
- Excel Sheets

In OmniDocs, a _____ is a notification that would be flashed / emailed to all the selected users Marks:1

- sms
- message
- reminder
- alert

Bulk Upload to OmniDocs is: Marks:1

- TIFF based
- TXT based
- XLSX based
- CSV based

Replication between the local and central storage servers requires direct

Marks:1

-
- Network Connectivity
 - Full Access of both the server
 - TCP/IP connectivity
 - None of the above

If we create a version in OmniDocs document, how can we recover old documents?

Marks:1

- Old documents are not recoverable
- Select document --> versions--> select old version and view
- Select document--> see history of documents-->view document
- Select document--> Properties-->see history of documents-->view document

In OmniDocs “Create Shortcut” feature creates:

Marks:1

- New document of same size
- Create document reference only
- Both of the above
- None of the above

How to change OmniDocs logo, which appears top right corner of every OmniDocs page?

Marks:1

- OmniDocs-Admin --> Configure Desktop-->Desktop Settings --> Change Logo
- OmniDocs-Admin --> Configure Desktop --> Change Logo

Integrated Document Management [IDM] does not include: Marks:1

- Document Management
- Document Imaging
- Workflow
- Web Publishing

While viewing documents in OmniDocs IVApplet, client must have accepted:

Marks:1

- Username / Password
- Security
- Certificate
- Slowness

Keywords in OmniDocs that are associated with a document to perform search are of? Marks:1

- 3 types
- 2 types
- 4 types
- Many types

Document Management Systems[DMS] helps an Organization to better manage _____ of electronic documents.

Marks:
1

- Creation, Revision, and Approval
- Creation, Revision, and Consumption
- Creation, Revision, Approval, and Consumption
- Creation, Approval, and Retrieval

In which format, dataclass can be exported or imported in OmniDocs Admin?

Marks:1

- comma separated value
- xml format
- .txt format
- Not possible

While making any data class field secure in OmniDocs, we can perform following operations:

Marks:1

- Data Class Field can be marked secure only on creation.
- Data Class Field can be marked un-secure any time.
- Data Class Field can be marked secure any time.
- Only secure global index can be part of Data Class.
-
-

Efficient use of bandwidth is achieved in OmniDocs Document viewer because it..

Marks:1

- fetches document byte by byte
- fetches document in synchronised stream
- fetches document in asynchronised stream

- fetches document page by page
-
-

OmniDocs Document viewer is built using which technology?

Marks:1

- Ajax-Json
- HTML5-Ajax and HTML5-Angular
- All of the above
- None of the above

Keywords in OmniDocs that are associated with a document to perform search are of? Marks:1

- 3 types
- 2 types
- 4 types
- Many types

One can logout OmniDocs client session from:

Marks:1

- WebDesktop screen
- Custom Desktop screen
- Both of the above
- None of the above

It is possible to create a new version of a document in OmniDocs

Marks:1

- Yes, by using check –in check-out feature.
- Yes, download document, modify it and re-upload the document.
- Yes, download document delete it from OmniDocs, change in downloaded document and upload.
- No, document versioning is not possible.

Size of VolBlock in OmniDocs: Marks:1

- Cannot be changed
- Can only be increased
- Can be increased and decreased both
- None of the above

Dataclass in OmniDocs is used to facilitate:

Marks:1

- Indexing
- Searching
- Linking
- All of the above

Available Security levels in OmniDocs are:

- i. Cabinet Level Marks:1
- ii. Object Level
- iii. No Security
- (i) and (ii)
 - (i) and (iii)
 - (ii) and (iii)
 - (i), (ii) and (iii)

What are the components of Image Server? Marks:1

- Image Cabinet and SMS
- JTS and SMS only
- JTS only
- SMS only

In OmniDocs, in order to perform replication in such a way so that the data that is getting added at the Source should also get added at the replica site at the same time. Marks:1

- Immediate Replication
- Delayed Replication
- Both of the above
- None of the above

Select which among below is not an option while creating dataclass field in OmniDocs? Marks:1

- Useful
- Mandatory
- Unique
- Size

What is the default group created in OmniDocs? Marks:1

- Public
- Private
- Protected
- Restricted

One can logout OmniDocs client session from: Marks:1

- WebDesktop screen
- Custom Desktop screen
- Both of the above
- None of the above

What is the timeout option in the OmniDocs Web API? Marks:1

- This is the time in seconds, when the user is not using the application then after the specified time, session gets expired.
- This is the time limit in milliseconds within which the request should reach from the client to server.
- This is the time in milliseconds, when the user is not using the application then after the specified time, session gets expired.
- This is the time limit in seconds within which the request should reach from the client to server.

OmniDocs works on all _____ operating systems, _____ databases, application servers and web servers. Marks:1

- Intel based, standard
- Window-based, content
- Open source, relational
- Major, industry-standard

In latest version of OmniDocs, file convention is mandatory for: Marks:1

- Document type configuration
- Folder type configuration
- Both of the above
- None of the above

What are the components of Image Server? Marks:1

- Image Cabinet and SMS
- JTS and SMS only
- JTS only
- SMS only

Which entity can be set by user in 'Advance' option of user management? Marks:1

- Date Of Birth

- Fax No
- Phone No
- Department Name

Rights in OmniDocs can be assigned to _____. Marks:1

- User and supervisors only
- User and groups only
- User, groups and role only
- Groups, and role only

- Open a folder. On properties tab - Add keyword Option is visible. Click on that. Add keyword and click on save
- Keywords are not supported on folder
- Open a folder. On properties tab - Add keyword Option is visible. Click on that. Add keyword
- None of the above

Does Full Text Search give a relevancy ranking? Marks:1

- It gives number of occurrences of the word
- It gives an indication of how relevant the search string is
- It gives no ranking
- Documents are ranked based on their usefulness

In OmniDocs, one can assign data class to a document from: Marks:1

- OmniDocs Admin
- OmniDocs Client
- Both of the above
- None of the above

_____ is a component of Image Server in OmniDocs which provides the Marks:1

actual storage and retrieval of Image Data.

- Image Management Server
- Database Server
- Image Storage Server
- **Storage Management Server**

Each Image Volume has a _____. This is where the documents of that image volume get added by default. Marks:1

- Default Site
- **Home Site**
- Preferred Site
- None of the above

Which option is true after performing delete operation on documents? Marks:1

- Document permanently deleted from OmniDocs repository.
- **Move to Trash**
- Both of the above
- None of the above

_____ report is generated to give information about all the documents created within the specified created date range. Marks:1

- Document initiation
- Document upload status
- **Document creation**
- Upload Status

Maker Checker Feature can be applied to: Marks:1

- Data Class
- Site
- Volume
- **None of the above**

OmniDocs Admin is also known as: Marks:1

- **Cabinet Management**
- Document Management
- Queue Management
- Process Management

Image Server Admin operations are: Marks:1

- Add Document, View Document, and Download document

- Replication and Compaction
- Replication, Compaction, and Move VolBlock
- Move VolBlock only

Which component of OmniDocs is actually used by end user using browser?

Marks:1

- OmniDocs Web component
- OmniDocs EJB component
- Both Web and EJB components
- None of the above

During Configuring Search in OmniDocs Admin, if All Data Classes check-box option is selected then:

Marks:1

- User is not able to select any data class
- User is able to select data class
- It is choice of a user, whether to select data class or not
- None of the above

The core business logic is implemented in which tier?

Marks:1

- Database Storage tier
- Database Server
- Application Server
- OmniDocs Web Server

Which of the following is not an Image Server operation?

Marks:1

- Add Document
- Replication
- User Creation
- Move VolBlock

What is the Default port for site creation in OmniDocs?

Marks:1

- 9000
- 10000
- 900
- No default port

In OmniDocs, a Label is created through:

Marks:1

- OmniDocs Admin
- Omnidocs Web Client
- OSA
- All of the above

Once dataclass is added in OmniDocs, how to add another field to it?

Marks:1

- By edit option
- By modify option
- By renaming
- Not possible

In OmniDocs, the default client port for SMS is:

Marks:1

- 900
- 10000
- 9003
- 9080

- In OmniDocs, one can assign data class to a document from

In OmniDocs, what does the PN file consist of? Marks:1

- Images
- Metadata
- Both of the above
- None of the above

Select which among below is not an option while creating dataclass field in OmniDocs?

Marks:1

- Useful
- Mandatory
- Unique
- Size

Image type pdf documents are shown in which viewer?

Marks:1

- Pdf Reader embedded in browser
- OpAll Viewer
- Acrobat Reader
- All the options are correct

In OmniDocs, which of the following information is required while creating

Marks:1

labels:

- Label Name
- Location of Media
- Both of the above
- None of the above

In OmniDocs, which group is associated with supervisor user by default?

Marks:1

- Supervisor
- Everyone
- Others
- Both 1st & 2nd options

How can we lock a document in OmniDocs, such that while reading or modifying no one else can change? Marks:1

- Select Document --> Lock option --> set lock
- Select Document --> Select Properties --> Set Lock
- Document cannot be locked
- Check out document --> automatically

Choose the correct option: Marks:1

- Supervisor User cannot be deleted
- Supervisor User can be deleted
- Both of the above.
- None of the above.

What is the need of managing content in organizations? Marks:1

- To abide to policies and rules laid by the Government
- Exert control over large volumes of records and documents
- Incorrect question. Do not need to manage
- Both option 1st & 2nd

What would be the security level, to restrict Access Rights validation at folder and document level in OmniDocs? Marks:1

- Cabinet Level
- No Security
- Object Level
- None of the above

In OmniDocs, notification of alarm can be done through: Marks:1

- A flashing icon in OmniDocs Web Desktop to the specified users
- Emailing to the users on the occurrence of the specified event
- Both of the above
- N
o
n
e
